LA FOLLETTE PLANS FOR HIGHER RATES ARE FINDING FAVOR

**Wisconsin Senator's Proposals Would
Increase Income Tax Returns
About \$700,000,000 Yearly.**

ACCUSED OF TRYING TO KINDLE REVOLT

Washington, Aug. 23.—Making war profits and millionaire incomes pay the greater part of the war's cost engrossed the senate today in its consideration of the war tax bill.

Although yesterday's amendments restored the house amendment for higher rates of income taxation and ran the tax on millionaires up to 67 per cent., Senator LaFollette's proposals for still further higher rates came up today with many senators supporting them.

By these amendments the Wisconsin senator proposes to increase the income tax return of the bill to more than \$700,000,000 a year in addition to the present law.

Senators Vandaman, of Mississippi, and Trammell, of Florida, spoke in favor of the LaFollette substitute, and both opposed the bill's consumption taxes and its pre-war basis of taxing excess incomes.

Charges that those opposed to the war were attempting to impose on the present generation the full burden in an effort to make it as unpopular as possible, were made by Chairman Simmons, of the finance committee, in opposing the LaFollette proposal.

"If you want to make this bill unpopular with the masses of the people, and take from them an unfair proportion of revenue, adopt the substitute—it places the burden on small incomes."

Of the net increase of 44 per cent. proposed in income taxes Senator Simmons said the LaFollette substitute would take 25 per cent. of the return from incomes under \$30,000.

PALO ALTO CAMP IN CALIFORNIA IS TO BE ABANDONED

Washington, Aug. 23.—The Forty-first national guard division, comprising troops from Washington, Oregon, Montana, Idaho and Wyoming, has been ordered trained at Camp Greene, Charlotte, N. C., and Camp Fremont at Palo Alto, Cal., has been abandoned because the California state health authorities have decided that a latrine sewage system, such as the war department proposed, would be injurious to the health of the community.

Secretary Baker, announcing the change, said today that the war department could not see its way to spend a half million dollars for such a sewage system as the state health authorities thought necessary, in a temporary camp.

RUSSIA LOOKS TO AMERICA TO GAIN A HEAVY WAR LOAN

Petrograd, Aug. 23.—The official Torgopok Lennaya Gazetta publishes a plan for a commercial loan in America, whereby it is hoped the problem of supplying Russia with food products will be solved. The writer declares that the main cause of the chronic deficiency of food in cities is the unwillingness of farmers to exchange agricultural products for paper money, with which they view the war as a loss.

Boston, Aug. 23.—Orlando Somers, of Kokomo, Ind., was elected commander-in-chief of the Grand Army of the Republic at the closing session of the annual encampment today. There were no other candidates and the election was by acclamation.

The national encampment transacted its final business today including the election of officers. Automobile trips to Concord, Lexington and Cambridge were planned for the afternoon.

Sessions also were held by the Sons of Veterans, Women's Relief corps, Ladies of the G. A. R. and Sons of Veterans' auxiliary. Comrades who

Summary of the Day's War News

Italy's great offensive on the Isonzo front is meeting with continued success. Rome reports officially and her troops are proceeding toward realization of their objectives. Further ground has been gained on both the northern and southern wings. Austrian counter attacks of great severity are being repulsed. The Austrian losses in the first two days of the battle are computed unofficially in Italy at 30,000. The fighting on the Verdun front is dying down. The French objectives

On the French front, August 23.—(By the Associated Press.)—The incendiary bombs which were dropped by two German aviators on two hospitals behind Verdun, on Sunday evening, killed ten wounded men, one woman nurse and nineteen trained male nurses.

They wounded forty-nine male nurses and inflicted further injuries on patients suffering from wounds received in battle, many of whom rushed naked into nearby fields in an attempt to find shelter from the bombs which were being rained down.

Meanwhile the German aviators circled about in the air for half an hour firing their machine guns at hospital orderlies who were endeavoring to extinguish the flames. The nurses had just finished bandaging 180 wounded

RAILROAD UNION MEN OF BRITAIN END LONG TRUCE

London, Aug. 23.—The Central News says that all branches of the national union of railway men have been required by the men to instruct the executive committee to give notice of the termination of the truce agreement made in October, 1914, and demand an increase of one pound weekly in wages and a considerable reduction in working hours. The truce provided for settlement of all disputes without recourse to strikes.

THREE DAYS IN WHICH TO BOOM FOOD QUESTION

Washington, Aug. 23.—The food administration has designated August 23, 24 and 25 as educational days when public speakers throughout the country will disseminate information on food conservation.

Among the speakers obtained for meetings here are Herbert Hoover and Carl Vrooman, assistant secretary of agriculture.

"Among the phases of the food situation to be discussed are wheat and meat needs, dairy conditions, etc."

DRIED INSTEAD OF TINNED FOOD FOR THE ARMIES

Washington, D. C., Aug. 23.—Dried foods may take the place in a large measure of canned goods for the American army abroad. The subject was discussed by officers from the quartermaster's department yesterday with department of agriculture experts. Many officers favor substitution of dried foods for canned goods because of the advantage in packing and shipping. Representatives of the department are making experiments now in the drying of vegetables and the department is having taken a census of dry foods. Canadian food experts have been here for several days studying the subject of drying foods with a view of supplying the Canadian soldiers with large quantities.

Washington, Aug. 23.—The Japanese mission to the United States is devoting its first full day in the national capital to making formal calls on administration officials preparatory to the beginning of conferences at which the question of mutual co-operation between Japan and America in the war will be discussed.

The chief event on the program for the mission was a call by Viscount Ishii, ambassador extraordinary and head of the mission, on President Wilson.

He bore a message of congratulation and appreciation to the president from the emperor of Japan and the people of Japan.

The program included calls on Secretary Lansing by Maj. Gen. Sugano and Lieut. Tanikawa, secretary, and Vice Admiral Taketsukita and Commander Ando on Secretary Daniels.

A dinner at the white house by the president with Viscount Ishii, the guest of honor will round out the day's activities.

Among the more important measures he is expected to discuss with officials are the disposition of Japanese shipping with a view to making it of the greatest aid in the conduct of the war; ocean freight rates and the enlargement of Japan's naval activities.

Members of the mission today expressed themselves as greatly pleased over the cordiality of their reception in the United States and at the many evidences of good will.

Chicago, Aug. 23.—Figures available today showed that Chicago exemption boards have passed more than the number called in the first draft. The city's quota is 24,982, while 25,073 men have been accepted for service.

The men included in these figures will not all be taken, however, as only 49 of the 36 districts in the city have completed their quotas. The reason of their acceptance in some districts will be

NEWSPAPERS TO BE PRINTED AT AMERICAN FRONT

Washington, Aug. 23.—Suggestions are reaching the war department as to the advisability of establishing at once in the American army and abroad soldier newspapers to furnish the men with a brief resume of home news as well as publishable facts about what is going on in France. Trench papers are distributed in the French and British lines but American troops will be far from home and hear little of what is going on in the United States until American newspapers are available at the front.

MORE WOMEN AT THE PENNSY ROUND HOUSE

Engine Wiper Gangs and Material Distributors to Be Installed.

F. S. Doriot, chief clerk at the master mechanic's office, who makes the assignments of women as they apply for employment at the Pennsylvania shops, has taken up the task of selecting and putting at work twenty additional women at the round house. It is the intention of the round house management to install a gang of women engine cleaners as soon as a sufficient number of women are secured. This is light work, although considered "dirty," and can be performed by women as well as by men. A comfortable rest and toilet room has been established just east of the round house with a private walk and entrance indicating that it is for "women only." Other work at the round house that women can perform is distributing material and cleaning up in the house and yards. Arrangements have been made to keep the women in gangs by themselves as far as practicable. Application for employment there as in other parts of the plant is made at the master mechanic's office. There are many applications on file and the demands of the round house will be filled speedily and without difficulty.

COM. NORDSTRUM TO RESIGN.

Because of business which interferes with his duties as commodore of the Lake Erie Motor Boat club, L. D. Nordstrum has handed in his resignation and a new commodore will be chosen. It is the intention of the club to have boat races and other events at the lake on Labor day, similar to the big regatta pulled off there last year, and the arrangements for this event will require more time than Mr. Nordstrum has to devote to it. Hence his resignation now, to give the new commodore plenty of time to organize his forces for the regatta. Mr. Nordstrum occupies an important position at the General Electric works.

LOST PART OF FINGER.

Tony Watson, an operator in the punch department at the General Electric works over which Otto Nahrwald has jurisdiction, met with an accident at 8:30 o'clock this morning which resulted in the amputation of the index finger of his right hand at the first joint and the mangle of the flesh of the second finger. The patient was taken to St. Joseph hospital, where Dr. F. J. Schulz amputated the index and dressed the second finger. The latter will be saved, the surgeon says.

GOES TO CAMP MONDAY.

Next Monday John C. Green, a tester at the General Electric works, who passed the preliminary examinations and received notice of his acceptance in the officers' reserve corps, will go to Fort Benjamin Harrison to take up the work. Mr. Green was with the troops on the border during the threatened trouble with Mexico. He resumed his duties at the factory yesterday after a visit with his sister in Columbus, Ohio.

SALONIKA FIRE IS A GREAT DISASTER

Sixty Thousand Persons Homeless and Losses Are Enormous.

London, Aug. 23.—The first detailed account of the disastrous fire at Salonika last Sunday is contained in a Renter dispatch from that city which says 60,000 persons are homeless and that the property loss is enormous. Insurance companies are interested to the extent of \$3,000,000.

The military rendered all possible aid but the scarcity of water made it almost hopeless to attempt to subdue the flames. Refugees are camping on the outskirts of the town. The destitute are being cared for by the military authorities, the British having 30,000 in their charge. Food and fresh water are very scarce. Three enemy airplanes flew over the city and dropped bombs while the fire was burning.

POSSE OF SIXTY SEARCH FOR WOMAN

Mrs. George Krumvig May Have Sought Death in River.

A posse of sixty men and women of Cedar Creek township are scouring the fields about the home of George Krumvig, who lives three miles southeast of Cedarville, in search of Lillie Krumvig, the farmer's wife. She has been missing since 7 o'clock Thursday morning.

Every hour the searching party grows in numbers, as news of the lost woman is carried across the country. Sheriff Gillette and his deputies have been summoned and have joined the hunting parties. The theory held by a part of the neighbors is that Mrs. Krumvig has drowned herself in the St. Joseph river, which winds a half mile from the farm home. Mrs. Krumvig has worried much because of her ill health, neighbors say. One woman tells that the farmer's wife had said that she would end all her troubles some day.

Mrs. Krumvig walked from the back door of the farm home shortly after breakfast, Thursday morning. Ten minutes later the husband entered the house and inquired her whereabouts. The mother of the farmer, who lives in the home, told of the wife's leaving the back door. No trace of the woman, who is 38 years old and who has a son 14 years old, has been had since that time.

ARTIST DIES IN POVERTY.

London, Aug. 23.—Mathew Maris, painter, died in London yesterday in poverty. He was born in 1839.

MADE PATENT COMMISSIONER.

Washington, D. C., Aug. 23.—James T. Newton, of Georgia, was nominated today by President Wilson as commissioner of patents. William L. Frierson, of Chattanooga, Tenn., was nominated assistant attorney general and Brigadier General Lloyd England adjutant general of Arkansas as brigadier general in the national army.

NEW YORK'S DRAFT FIGURES.

New York, Aug. 23.—The first official figures of the draft in New York city, which do not include 23 of the 189 exemption boards show that 122,257 young men have been examined and that of this number 82,494 have been declared physically qualified of whom 62,899 claimed exemption. No exemption figures will be obtainable, it was today, until all the boards have reported and that district board disposed of all exemption cases appealed to it.

IT HAPPENED IN RUSSIA.

Odessa, Aug. 23.—During a manifestation here yesterday a member of the Bolsheviks attacked American Consul Gray and knocked off his hat, whereupon a number of Hooligans surrounded the consul and declared they would shoot every one who failed to take off their hats in their presence. The public intervened in defense of the consul and the disturbance disappeared.

EMBARGO ON SULPHUR.

Washington, Aug. 23.—An embargo has been placed on exports of sulphur to Canada in order that the supply for war needs of the United States may not be unduly depleted. Canadian wood pulp mills furnishing supplies for about three-fourths of the news print paper used in the United States, will be seriously affected.

Advertising in The Sentinel Lowers the Cost of Selling

This is not a time for haphazard business methods. Clear thinking must convince you that advertising lowers the cost of selling and consequently it lowers the cost of a product to the ultimate consumer.

Advertising is the greatest price reducer of business. It brings increased demand and thus allows for economies of large production and broad scale buying. This decreases proportionate overhead. Advertising is equally effective for distributing or retailing. There is no honest product whose selling cost and hence its selling price can not be reduced by advertising of some kind. And there are very few propositions that can not be profitably merchandised through The Sentinel advertising.

The Sentinel realizes the waste of carrying advertising that does not bring profitable results. This is not a time for careless business. If The Sentinel believes your business can be helped through its advertising columns, every effort will be made through the soliciting force to show you the merits of Sentinel publicity. On the other hand if The Sentinel is convinced that its advertising will not pay you, The Sentinel will tell you so just as frankly.

Sentinel expert advertising men are at your service and ready at all times to help you solve your merchandising problems. Do not hesitate to call for one of them.

Of Young Men and Young Women
Who Have Recently Proved the value of
An "International" Business Training

Mr. Fred Sutherly
came to the "International" from South Whitley, Ind., successfully completed a combined course, and is now holding a splendid position in the M. & W. department of the Pennsylvania Railroad Company offices. Preparation is the first step toward a responsible and well-paying position.

Miss Mable Clark
is a Fort Wayne girl who enrolled for a Stenographic Course at the "International." She attended the night school for a while and then completed her course in the Day school, at which time she was placed in a good position with the Trade-Mark Title Co. While there she received a flattering offer from the Pennsylvania Railroad Co. and is now in their employ.

Miss Lulu Whitaker,
Hartford City, Ind., enrolled with the "International" for a Stenographic course, successfully completed same, and was placed by the Employment department of the college with the Dreibels Abstract of Title company, where she holds an excellent position. Many more young ladies should prepare for business.

Mr. Homer Voght
is a Huntington boy who enrolled with the "International" and began his course at home through the Extension department. Later, he spent a short time at the college, finished his work, and was placed in the offices of the Fort Wayne Iron Store company—one of Fort Wayne's most progressive concerns—where he has splendid opportunity for advancement.

Miss Mary Brown
is a Fort Wayne girl who, after completing the eighth grade enrolled in the "International," successfully completed her course and was placed by the Employment manager of the college with the Medical Protective company. Miss Brown's friends will be pleased to know that she has "made good"—it is typical of "International" graduates.

Mr. Charles Harkenrider,
city, completed a course at the Catholic Central High School and enrolled with the "International" for a combined Business and Stenographic course. Mr. Harkenrider proved to be a most apt student and is today holding a very responsible position in the office of the Board of Public Works, Fort Wayne, Ind.

Miss Elizabeth Knothe,
city, is another girl who upon completing her work in the eighth grade enrolled for a course with the "International," finished the work in both the Business and Stenographic departments and is now holding a responsible position in the Recorder's office at the court house.

Miss Helen Schele,
city, completed an academic course in the St. Augustine's Academy, entered the "International," successfully completed her course, and was placed by the Employment department of the college in the office of the Trade-Mark Title Co. After working for this firm several months she received a splendid offer from the Fort Wayne Box Co., and is now in the employ of this latter concern.

Mr. Ora Smith
is a Fort Wayne boy who realized that Business offered exceptional opportunities and accordingly enrolled with the "International" for a general business training. Having successfully completed his course he was placed by the Employment manager of the college in the offices of the Northern Indiana Gas & Electric Co.

“A classical education may help you to earn a living and it may not, but a good business education always does. GRADUATES OF GOOD BUSINESS COLLEGES ABSOLUTELY WITHOUT EXCEPTION HAVE PAYING POSITIONS AWAITING THEM. They do not have to beg, borrow, steal or stand in the bread line.”
—Late Elbert Hubbard.

Every "International" Graduate Secured a Position

Any boy or girl, young man or woman, having an eighth grade education or higher and completing a course of training at the "International" is absolutely guaranteed a satisfactory position through its Employment Department without extra charge.

Further, boys, young men not called to the colors, girls and young women should prepare for positions in Business. It is a DUTY because of the increasing demand for help in both Government offices and in the offices of Private Business, and an OPPORTUNITY because of so many excellent positions.

Parents Should Be Especially Interested Because

a Business Course does more than assure your boy or girl a good position—it trains them, disciplines them and puts them in the way to SUCCESS.

The studies are practical; the work is interesting. Students soon see this—they realize the importance of appointments, the full meaning of responsibility, and the consequence of unfair play. They develop into men and women who do things in a business-like manner. This training is in itself argument enough in favor of Practical Business Training were arguments necessary.

Men and women holding the high positions today were the clerks, bookkeepers, stenographers, etc., of a few years ago. The successful men and women of tomorrow will be the young men and women who prepare NOW. Success is a growth.

How many fathers and mothers there are today who feel that they would have accomplished 'Bigger' things had they been given an opportunity to prepare when they were young? And these same parents do not want their children to have to say the same thing as they grow older. This is a day of OPPORTUNITY that did not exist when you were young. Capitalize YOUTH for your children, and prevent the possibility of regrets.

A Business Training is the best insurance policy a father can buy for the benefit of those dependent upon him. Preparing a boy and girl to make their own living, help support a mother, brother or sister is of far greater value than leaving a few dollars which would soon be spent. And the cost of a Business Training is trifling compared to the cost of insurance with its constantly recurring "premium-due" notices.

Come up and investigate the "INTERNATIONAL" Courses of study; it will cost nothing, nor need you feel obligated in any way. Glad to have you become acquainted with the "International"—its management, faculty, courses, work, rates, etc., etc.

Mr. Russell Cunningham
Portland, Ind., is another young man who came to the "International" from out of the city, enrolled for a complete Business Training, and upon completion of his course accepted a splendid position with the Guardian Savings & Trust Co., Cleveland, O. A business training is the first step towards a career worth while.

Miss Alice Boyce
of this city, took some time to arrive at a decision as to whether or not it would be profitable for her to leave her profession as teacher, and prepare for the profession of Business. She enrolled, completed her course in a highly satisfactory manner, and was placed as secretary to Dr. J. M. Dinnen. Ask Alice if it paid her to change professions. It is what you can do—practical ability—that counts.

Miss Nell VanVoorst
is a high school girl from Columbia City, Ind. She very successfully completed a combined Business and Stenographic course of study, and was placed in the employ of the Stutta Motor company, which firm offers her plenty of opportunity for advancement.

Mr. Eugene Phipps
is a young man whose home is in this city. He enrolled for the complete course, finished it and was placed in the office of the purchasing agent of the Pennsylvania R. R. Co., western division. It is not only Mr. Phipps' present position and his present fine salary that are to be considered—think of the opportunity he has to get in touch with the "Big" Business.

Miss Roberta Mosiman
of Bluffton, Ind., enrolled with the "International" for a Secretarial course. She completed same in a very satisfactory manner and upon graduation was placed in the employ of the local office of R. G. Dunn & Co. Miss Mosiman is one of many young people who every year come to Fort Wayne from out of the city and accept splendid positions in our midst.

Mr. Charles Kelly
came to the "International" from Casey, Ill., enrolled for the complete Commercial course, finished it and is now holding a splendid position with the Moellering Construction Co. Other young people are coming from Casey to attend the "International" this fall.

Miss Mabel Rhinehold
of Auburn, Ind., had just completed some work at the Indiana university when she decided to prepare especially for Business. She enrolled for a complete combined course taking Stenography instead of shorthand and upon graduation was placed in a very fine position with the Lincoln Life Insurance Co. Miss Rhinehold is very optimistic about the future.

Mr. Lawrence Hess
of Fort Wayne, entered the "International" immediately after having completed the eighth grade. He finished the work of the combined course and was placed in the M. & W. department of the Pennsylvania Railroad Co. Lawrence makes more money than he could elsewhere, will gain the most practical kind of an education, and has a chance at a future which few boys have. Watch him!

Mr. Carl Westinghouse
is from Napoleon, Ohio. He entered the "International," successfully completed the course for which he enrolled, and is now holding a splendid position in the offices of the Perfection Biscuit Co., this city. Mr. Westinghouse is earning and learning at the same time. That is one of the many advantages of a Business Training.

Miss Wilma Schwehn
of Fort Wayne knew of the work at the "International," having had a brother graduate but a short time ago. She enrolled for a Stenographic course, completed her work in a most successful manner, and was placed by the Employment department of the college with the Medical Protective company of this city.

Miss Anna Traub
is a young lady of Fort Wayne who, becoming dissatisfied with the routine of housework at home, decided to prepare for the profession of Business. She completed a combined Business and Stenographic course in a most efficient manner and was immediately placed with the Fort Wayne Dental Depot. Ask Miss Traub her opinion of a Business course.

Mr. Edward Spiegel
came to the "International" from the local high school and enrolled for a Stenographic course, which he completed most successfully. Mr. Spiegel was placed in the offices of the G. R. & I. R. R. Co., where he is making splendid progress. Stenography not only pays from the beginning but opens the way to still better things.

MORE UPON INCOMES.

Once more the senate returns to incomes as the object of increased taxation for the war. New amendments to the revenue bill offered by Senator Gerry, of Rhode Island—himself a wealthy man and representing an enormously wealthy constituency—will add about seventy-five millions to the federal income for war purposes. The Gerry provisions increase the surtax on great incomes, those that range from a half to three quarters of a million dollars being hauled into by the bill.

That is fair, just and beneficent. There is a point where war ceases to be a burden and becomes a source of profit. Wealth invested in industry upon which the prosecution of war must depend is augmented enormously by the government's purchases. Such wealth ought to be made to divide equitably to support the government in war. It does not suffer any depletion of its substance; the rather in that respect does it gain. It suffers only in that its growth is halted somewhat. The increments due to war are abnormal and ought to be freely levied upon to carry the war along. Lower down the scale of incomes war is a burden. This is true in respect of those who work for wages and small salaries, who have no investments in any business that profits from war and who must meet increasing costs of living that outrun increases in compensation to labor.

Moreover, it should be the settled policy of government to levy upon wealth increasingly according to the volume of its income. The piling up of inconceivable masses of wealth, the creation of titanic estates and the concentration of riches into fewer and fewer hands are against a wholesome policy. The essential principle of this is definitely recognized in the income and inheritance taxes of the nation and many of the states, but it is not employed to the extent that it should be. The war affords occasion to establish this principle in better operation than has been the case and the revenue bill now before congress goes a considerable distance in the right direction.

The voice of some of the radicals that all the financial burden of the war should be shifted upon wealth gains little hearing. The noise comes in large part from statesmen who for one reason or another are no strong supporters of the government in the war. They want to hamper and embarrass the government and create hostile feeling in the general mind against the war and its supreme objects. It should be considered that the war has only begun and that as it goes on and its prosecution increases the need of the government for more and more money the government will be forced to levy higher and higher taxes. Within a year wealth and war profits will be levied against in a fashion that will afford anybody small ground for complaint. It has been so in Great Britain and there is no reason to suppose that similar stresses here will result in dissimilar recourses.

RECOGNITION IS DUE.

This from the Chicago Herald we believe will strike a note of approval in the bosom of every patriotic citizen of the republic:

Examination of men chosen for the national army being practically over, it remains at least to offer the thanks of the community and of the country to the examining boards. In the very nature of things the men chosen for those boards had to be, in the main, citizens of real value, and, being such, always busy men. Yet for weeks they have given a large proportion of their time and a huge amount of labor to a task which called for delicacy, judgment and the steady exercise of common sense. Group after group has stood the test.

Perhaps our thanks should go, above all, if there is to be any distinction, to the medical examiners. Their job was not easy. Detection of the few men who tried to evade the requirements was the smallest of their responsibilities. In spite of chatter—nearly everybody examined brought honesty and straightforwardness into his replies. The business of the doc-

tors was all the harder—to decide justly who was really qualified and who was not. Each one has examined literally thousands, putting them through severe tests. The necessity of hurry has been preached constantly, and they have hurried, which has made their effort to be right and reasonable still more of a strain. Yet those accepted and those rejected alike, in the majority of cases, seem to think the decision was intelligent and fair. That unanimity of opinion is a real triumph for the medical examiners.

Who, as a matter of fact, who visualized to himself the difficulties, ever dreamed that the decision of the government to employ the draft could possibly have been so quickly and so smoothly carried into action? Granted that had an enemy been approaching our shores, the delay would have been fatal, it remains true that under the circumstances the getting together of material for the new army has been accomplished in an amazingly frictionless fashion. If the training can be accomplished as well and as rapidly in proportion to its difficulties the country will have asserted its efficiency and its unity in a manner that future historians will marvel at.

And for their services, we repeat, in this mighty job, the examining boards ought to have the intelligent and heartfelt gratitude of us whom they have served.

The task is not yet completed over the country. Here and there, where the volume of work has been vast and in many respects more than commonly difficult, the boards still have much to do; but the bulk of the job is accomplished and we believe the general verdict will be that it was thoroughly discharged and high patriotic service that the boards have rendered to the nation. What can be done to acknowledge the country's appreciation of this for the most part thankless task should neither be grudgingly given nor tardily bestowed. The thousands of men who have given their time and energy to this trying work have been obliged in most instances to do so at a sacrifice.

DISPOSING OF GARBAGE.

Mayor Hosey's suggestion of a municipal hog-lot as a profitable means of garbage disposal may have some points of merit as a war measure, but we do not believe the people of Fort Wayne will care to adopt that as the permanent method of taking care of city waste. It is true that some cities have employed this method, though not with wholly satisfactory results in any case that we know of.

There is for one thing the objection that all sorts of garbage do not answer for the feeding of swine. Householders will not be uniformly painstaking to keep out of their garbage cans a good deal that should not go into them if the contents are to be transported from alley gates to the municipal piggery. There will have to be some supplementary means for the disposal of what pigs cannot or will not eat. Of course the city already has the old incinerator for that purpose, though there has been some sort of public aspiration here during the past five or six years that eventually—if not now—this ornamentation of the entrance to a public park might be dispensed with.

The ashamed person who anonymously communicates with this newspaper to propose that the inadequacies of a hog-lot be overcome by supplementing it with a goat pasture and an ostrich farm, is perhaps merely attempting to be jocular with a grave matter by suggesting that the goats can devour the tin cans and waste paper and the ostriches can keep going nicely on the broken glass, earthenware and discarded hardware that in large quantities find their way into garbage cans.

But with hogs selling at \$20 or more a hundred on foot the proposal that the municipality go into the enterprise of fattening pigs on the nutritious waste of households is no matter of levity. It might go far to piece out the lamentable shortage of city revenues.

President Wilson fixed the price of coal on one day and on the next day coal dropped variously from \$1 to \$1.80 in the price per ton on the Chicago retail market. "It is probable that in many other places there were similar reductions of the price and that where there have not been as yet there soon will be. The Chicago dealers assert that the cutting down of prices at the mine means the cutting down of prices to the consumer and they show a good way to prove it by cutting down. Meanwhile, the mine barons, the middlemen and the retailers have the whole field to themselves in which to fight out the disputed question of blame for the high prices. The public is no longer much interested. If the price is down where it can be reached by the average pocketbook, there will be no disposition to quarrel much with the question of guilt for the rapacities of the days gone by.

If President Wilson gets a good start and keeps a fair tail-clutch on control of fuel at the mines, we doubt that any drastic degrees of regulation farther along the line will be necessary. One solitary example can be made to go a great way.

About once a month there is a conviction in the city court for motor speeding. Why this occasional tyranny?

Suppression of Sedition

(Christian Science Monitor.)

The sentiment expressed in different parts of the United States today, with regard to seditious utterances and acts, makes it evident that a crisis in the treatment of this particular problem is rapidly approaching, if it is not already at hand. Elihu Root, dealt with the situation in terms that must have recalled to his audience, and to thousands throughout the country, the declaration that, more than half a century ago, stamped John A. Dix a hero and a leader. "How long," asked the Pittsburgh Post of last Tuesday, "will the American people permit the liberty of this country to be used for its destruction?" and, for one thing, it pointed to the toleration of Mayor William Hale Thompson's organ, the Chicago Republican, which has been preaching sedition day in and day out for months past. On Thursday the question was partly answered by a public uprising against the circulation of that publication in Aurora, one of the larger Illinois towns adjacent to the city named. "We represent the merchants of Aurora," said a spokesman for the indignant citizens to an agent of Mayor Thompson's newspaper, "and demand of you not to distribute any more of these papers in this town. We have sent many of our boys to fight for their country, and we are going to protect our cities while they are gone."

Thus we have a voice from the east and one from the west. The northwest is heard through the Duluth Herald and the St. Paul Dispatch. The former marks as dangerous those who oppose sending troops to Europe; those who, not daring to resist the government, seek to undermine its efforts by attacks upon its allies; those who spread reports likely to hamper the nation's war plans; those who "keep within the law" while secretly aiding the enemy. The latter journal says: "Just now there can be no such thing as the free speech which counsels resistance to the laws." "Minnesota always has been loyal. Today it will yearn to vindicate that loyalty by

bringing to sharp justice the enemies in its borders whose presence and activities have tainted its fair name."

In the south and southwest, but one opinion is expressed with reference to the treatment that should be accorded the organizations engaged in the incitement of strikes. In the Pacific northwest, the Oregonian is pronounced and unceasing in calling for drastic action against the People's Council and the I. W. W., both of which is denounced as seditious organizations. Speaking of the first named, it says: "This organization is in the same class as the German spy who has been arrested at Seattle, and to whom is ascribed the initiative in the industrial troubles which disturb the state of Washington; also with the misguided people who resist the draft in Oklahoma; also with the I. W. W., which has done much to paralyze industry in the lumber districts of the Pacific coast and in the copper mines of Arizona and Montana. All are anti-American and pro-German in effect, probably in intent." In the opinion of the Oklahomaan, the only way to deal with that section of the German-American press which is persistently striving to stir up discord and disorder in the United States, is to "eradicate it."

It may be thought that the language used by several newspapers published between the Alleghenies and the Pacific coast in dealing with sedition tends to be violent, but it may be pointed out that it is no more so than that which the Union League club of New York enthusiastically applauded a few nights ago. Moreover, investigation carried on in the New England states reveals the necessity of quee as much watchfulness on the part of loyal citizens, as appears to be essential in the mining section. The south is as insistent as the north upon prompt and positive action that will protect the republic from its enemies within. And the government has given assurance that it will act in due time, and with necessary vigor.

U. S. MAY SEND 2,000 FARMERS TO FRANCE TO FEED THE TROOPS

BY MILTON BRONNER.

If the war department puts its o. k. on a proposal recently made to it by some of the best agricultural authorities in this country, Uncle Sam will soon have over 2,000 expert farmers "somewhere in France" arranging a big war farm to feed the American armies.

There are great landed estates in France not being farmed because of lack of men, fertilizer and farming implements and because of the difficulty of clearing off the soil, especially in regions recently occupied by Germans. These estates could be utilized by Uncle Sam, by agreement with the French government and the owners of the land. At present every pound of food consumed by American soldiers in France has to be shipped from here, when every inch of space in ships is more valuable than diamonds.

It is claimed by the proponents of the farm plan that 2,000 expert farmers, who would volunteer for the work, could cultivate enough soil to produce practically all the vegetable food the American army would need. They would not only raise wheat for bread, but oats for horses and mules. Corn could be raised both for animal and human food. French vegetables and

onions and cabbages, all parts of the regular American army ration.

Such a farm would make the army very largely independent of any German submarine attempt to interfere with its food.

Supply ships from this country to France, if the food farm were in operation, need carry only staples like sugar, coffee, tea, salt, pepper and meat. This would give the government far more space for carrying clothing, ammunition, rifles, etc.

If the plan is put through, in addition to 2,000 volunteer farmers the first ship would carry quantities of fertilizers, agricultural implements, stump pullers, etc.

It is also claimed for this scheme that as the armies in France grew bigger it would be possible to send more volunteer farmers and take over more land. It is figured that 2,000 men can cultivate enough land to supply vegetables for 200,000.

GO FORTH AS CITIZENS.

(Grand Rapids Press.)

Present plans for the equipment of the members of the new national army provide that the men shall leave their homes for camp clad in their civilian clothes, the uniform and accoutrements of the soldiers being issued at the cantonments. The men will go forth from home just as they have been known and just as they will be remembered by the people here. In the civil war both the northern and southern soldiers left their homes in civilian clothes and went to the front in the same way.

will be assembled by the United States will be in every sense a civilian army and it is appropriate that it should go forth in civilian garb.

The transfer from civil to military life will be attended by preliminaries calculated to prevent serious disruption of family and business relations on the part of the selected men. While they are waiting for actual transportation to the cantonments the men will be permitted to remain with their families and at their work until the very hour of their departure for service. The transition from one mode of life to another will take place elsewhere than at home.

The guiding thought in the arrangements for assembling the national army has been that these men are citizens assigned to duty in the ranks; that they are selected for their capacities and detailed for the work of soldiering, the necessary work which, though dangerous, is not shirked by any true patriot but is even sought with eagerness by many of them. There is honor in the selection for this duty. This fact needs no argument with those who have offered themselves, but it will impress them with the knowledge that their country also recognizes it if plans are made and carried out for a fitting farewell when they depart.

FROM THE SENTINEL PAGES 25 YEARS AGO

There will be a republican pole raising at the residence of Eugene Sagine two miles west of the city tonight, at which T. W. Blair will be the speaker.

The plans for William Speigel's new building on Broadway are out. It will be 70 by 24 feet and the roof will be of asphalt, done by the Fort Wayne Asphalt Roofing company.

J. J. Roy, Glen App. At Regel and William Myers are at Rome City today. They took their fishing tackle with them and some great fish stories can be expected from them on their return.

O. N. Guldung, president of the Western Gas Construction company, returned this morning from Covington, Ky., after having closed a large contract with the gas light company of that city.

W. L. Moellering, the Lewis street druggist, went to Rome City yesterday afternoon and returned in the evening, very proudly displaying a two and one-half pound bass which he had captured.

The little 7-year-old son of John Wiegand, of Eliza street, while playing on a pile of bricks yesterday afternoon fell and fractured his thigh bone. Drs. Duemling and Schilling attended to the injury, which was very serious.

The city council last night fixed the levy for the coming year at \$1.10 on the \$100 valuation, divided as follows: General purposes, 75 cents interest fund, 16 cents; city hall fund, 10 cents; parks, 3 cents, and sinking fund, 5 cents.

Some thirty or forty young people, composing the Junior society of the Christian church, went to Off's grove yesterday afternoon and enjoyed a most delightful picnic. The young people were chaperoned by Mesdames Gardner, Wilder, Brathwaite and Beer. In the party were Lotta, Sadie and Edith Geake, Maude and Bessie Wilson, Annie Swayne, Lillie Jerison, Rhoda Swayne, James Swayne, Albert Hays, George Baty, Ida Baty, Carrie Brathwaite, Claud Brathwaite, Jennie Hagnie, Jessie and Grace Brown, Victor and Minnie Tibberty, Stella Drummond, Claude Penrod, Artsona Kline, Grace Hadden, Loris Young, and many others.

AT THE PALACE

WELLINGTON CROSS HIMSELF.

Famous Light Comedian on Bill For Reminder of Week at Palace.

Wellington Cross himself, the favorite light comedian and lover to be remembered star of half dozen musical comedy successes including "Go to It," will be one of the features on the bill opening this afternoon for the remainder of the week. Mr. Cross' first real bid for fame was at the front end of the team of Cross and Josephine for several seasons considered one of the real catches of vaudeville. He is coming to the New Palace with an arrangement of songs and stories compiled exclusively for him.

The Five Violin Girls, one of the triumphs of the present day craze for all-girl musical acts, also is billed for this show. These melodious ladies

sing, dance and play presenting a versatile performance daintily arranged and calculated to give the best expression to the individual talents of the several artists. Harold DuKane and company in futuristic dances; Daniel and Walter, the Yankee soldier designers of nonsense, will offer some new songs and character studies; Anderson and Glines will be enjoyed in their black face comedy antics and Love and Wilbur, a boy and girl in super acrobatics, will round out the bill.

ROMANCE ENDS WITH BRIDAL RECEPTION

Mr. and Mrs. Fred Shulz, Married Four Months, Have Wedding Party.

Miss Faye Jones, of 2019 Garden street, and Mr. Fred Shulz, employed at the General Electric plant and formerly of Warren, eloped to Hillsdale, Mich., on April 21, and were married by Rev. Louis DeLamarter of the M. E. church, and returned to their homes here the same day. With the exception of the bride's mother, Mrs. J. L. Gerlaw, the marriage was kept a secret for four months and then the culmination was a beautiful bridal reception on Tuesday at the Gerlaw home. Invitations had been sent to relatives and friends in Warren, Hartford City and Bluffton by Mr. and Mrs. Gerlaw to attend the bridal reception of their daughter, Faye Jones and Mr. Fred Shulz, at the residence on August 21 at 3 o'clock. When the guests arrived they found the house beautifully and elaborately decorated with emblems that entwined the stairway and electric lights, palms and ferns that formed a place for the bride couple to stand and many baskets of Killarney pink roses that aided in carrying out the general color plan of pink and green. In every direction one looked there was preparation for a wedding. Mrs. C. A. Horton, harpist, played the familiar bridal march and as its strains began the bride and her attendants came downstairs. Awaiting them were the groom and Rev. DeLamarter who had come from Hillsdale to take part. The bride was attended by Miss Edith Shulz, of Warren, sister to the groom, as maid of honor; Miss Amy Gephart, of Hartford City, as bridesmaid, and Burnetta and Wilma Palmer, of Hartford City, who were flower girls. Mr. Shulz had his brother, Mr. Elmer Shulz, of Warren, to act as best man. Little Marianna Shulz, also of Warren, carried a book, called the marriage seal, and a handful of pink roses. The bride came in alone and made a beautiful appearance in a lovely gown of white tulle trimmed with silver lace and having a bodice effect of white charmeuse combined with tulle and silver lace. The bride held a bouquet of white roses tied with tulle. The honor maid was gowned in white net hung over pink and white crepe de chine. Both bridesmaids held bouquets of pink roses while the little flower girls made a pretty picture in dainty frocks of cream net and crepe de chine with cream ribbon straps over their shoulders that ended in rosettes in the back. They carried baskets of pink roses.

After the bride and groom had taken their place Rev. DeLamarter said he had a little story to tell. He began with a brief description of a young couple who had come to beautiful Hillsdale with its many charming bits of scenery and had come to him and told him of their love, the bride's desire to do something out of the ordinary and their wish to have the nuptial knot tied, which he proceeded to do. In conclusion the minister announced that this young couple were before him and that he had officiated at their marriage four months ago. After the astonished company had proceeded to congratulate the husband and wife, not only on their marriage but on the clever manner of its announcement, a wedding luncheon was served. The dining room table was prettily decorated, the entire decorating scheme having been done by the Flick Floral company, and there were pink baskets of nuts, pink roses and smilax and the bride's cake for the table occupied by the bridal party. There were between thirty and forty guests, nearly all from away. The bride lived in Indianapolis until a year or so ago, so when the bride and groom obtained their mar-

HERE'S HAT FOR EVERY HOUR OF THE DAY.

BY BETTY BROWN.

Here's a trip around the clock with the fall hats. The airplane bonnet in the center has wings and will help milady fly through her afternoon calls or shopping visits. The brim is cut in the center to form the wings. This smart fall model is made in tan and gold, with gray esprey trimmings at the crown.—The dinner, or evening hat at the right explains where all the little birdies' feathers go. Not needing them in the south in winter, they leave them behind for fair women's headgear. This feathery bonnet features the new high crown and has very little brim.—After these hats milady rests her head in a lace boudoir cap at the left, with a triple ruffle of cream lace offset by ribbon clusters and streamers of blue ribbon.

HOW TO SAVE PERISHABLE FOOD FOR USE NEXT WINTER

Acting in co-operation with the government in the national food conservation campaign The Sentinel will from day to day present its readers with recipes and suggestions for preserving perishable fruits and vegetables.

TO CAN SWEET CORN.

(In the North and West.)

Can as soon after the corn is gathered as possible. Remove husks and silk. Blanch by placing in boiling water for five minutes. Remove and dip quickly into and out of cold water. Cut the corn from the cob and pack directly into hot jars or cans to within one-fourth inch of the top. Pour in enough boiling water to fill the container. Add one level teaspoonful of salt to each quart. Put rubber rings and caps of jars into position but do not tighten the wire clamps. Seal cans completely.

Place containers on a false bottom of wooden slats or wire mesh in a vessel of water deep enough to completely cover the containers. Keep the water boiling for three hours. Remove the jars; tighten covers;

invert jars to test seal, and cool (not in draft, as jars might crack).

Tin cans can be placed in cold water for rapid cooling.

After the containers are cool store in a dark, cool place.

Rapid preparation for canning is especially desirable for corn if a good quality of product is to be obtained. The best results can be secured when one person cuts the corn from the cob and another fills the containers. If it is necessary for one person to work alone she should cut off sufficient corn to fill one jar, pour on boiling water, add salt, place the rubbers and caps in position and put the jar or container into hot water at once. The extra cooking which will be given to the cans first filled will not be injurious and a better product will be secured than if cut corn were allowed to stand until all jars are filled.

riage license, they gave the capital city as their residence. For the present Mr. and Mrs. Shulz will be at home with her mother, at 2019 Garden street, but plans are already under way for a home of their own. Mr. Shulz is a son of Mr. and Mrs. Jacob Shulz, of Warren, who were present at the reception. The bride is a beautiful young woman.

Serve Corn Often to Help in Food Saving

By BIDDY BYE.

The American woman may not, like her Indian sister of old, "sing the mysteries of Mondamin, sing the blessings of the cornfields." Nevertheless, she has plenty of cause to bless America's great corn crop. It will not only relieve the pressure on other food supplies, but it will help carry the whole world through a hard year.

Cooking of the true Indian corn, or maize, belongs properly to fall and winter, when the housekeeper handles it in the form of cornmeal. Sweet corn, the more perishable product, should be used freely in its season, to save other foods which "keep" better.

Corn Fritters—Scrape, grate or press out the pulp of the kernels from six ears of corn. Mix with the yolks of two eggs, and one cupful of milk, then stir in one cupful of corn sifted with one-half teaspoonful salt and one teaspoonful baking powder. Season with pepper and fold in the beaten whites of the eggs. Drop by tablespoonfuls into deep fat, drain and serve very hot. By adding a little more flour, this recipe may be used for corn cakes, to be cooked on a griddle.

Corn Gems—Measure two cupfuls of grated corn pulp, and mix with two cupfuls of milk and the beaten yolks of three eggs. Add three cupfuls of flour sifted with two tablespoonfuls of baking powder and one-half teaspoonful of salt. Then fold in the beaten whites of the eggs, turn into well greased gem pans and bake half an hour in a moderate oven.

Escalloped Corn—Cut the corn from six ears, and spread a layer in a buttered baking dish, add a layer of bread crumbs and sprinkle them with salt and pepper, and dot with bits of butter. Fill dish with alternate layers of corn and crumbs, add one cupful of milk, and bake twenty minutes. This is a good way to use up cold boiled corn.

Corn Crowder—Cut a slice of salt pork in small pieces and try out the fat, add one onion, sliced, and cook five minutes. Parboil four cupfuls of sliced potatoes and add to the fat, then turn in two cupfuls boiling water and cook potatoes until tender. Mix with four cupfuls scalded milk and four cupfuls corn pulp, heat to boiling point, season with salt and pepper, add eight common crackers and three tablespoonfuls of butter, and serve very hot.

TOO READY TO ACCEPT ATTENTION OF STRANGERS

Volumes have been written on the folly of girls making friends too freely while away from their homes on a vacation trip, yet a certain class of young women are always ready to accept attentions from any man whom they may meet at a summer resort.

True, many fine, honorable men go to vacation outings; they need rest and recreation like the rest of us, but on the other hand there are men always to be found at every seashore and mountain resort who are not so honorable and who are not by any means what they represent themselves to be. Unfortunately, it is this latter class that often attract and are foolishly encouraged by these misguided girls.

It is not at all necessary to be either loud or boisterous to have a good time. A girl is always at her best when she is womanly and dignified; she is the one who is generally sought after.

PEANUT SOUP IS THRIFTY.

A delicious and nourishing soup may be made from skim milk and peanut butter as follows, says the United States Department of Agriculture:

Heat 1 pint of milk until lukewarm. Add 2 rounded tablespoonfuls of peanut butter mixed to a smooth paste with a little of the milk. Salt to taste. Thicken with 1 teaspoonful of butter or savory fat mixed with 1 tablespoonful of flour. Bring almost to the boiling point and serve.

HEMSTITCHING NEATLY DONE ON SEWING MACHINE

Hemstitching can be very neatly done on the sewing machine in this way:

Draw the number of threads desired and baste on the edge of the hem in the center of the drawn threads. Lengthen the stitch on the machine and stitch on the very edge of the hem. Pull the bastings out and pull the edge of the hem to the bottom of the drawn threads. Hemstitching done this way can scarcely be distinguished from that done by hand.

Another way to hemstitch when you wish to join two pieces of material is to fold several thicknesses of

blotting paper together and lay one piece of material on one side and one on the other, with the folds of the paper between. Keeping the edges perfectly even, stitch through the material and paper, having a very long stitch on the machine. When the seam is sewed, pull out the paper, crease back the edges of the seam and stitch again on both edges, having the long threads of the former stitching pulled apart the full width.

SALTLESS DRIPPINGS WILL REMOVE STAINS.

Some time ago a correspondent stated that she removed axle grease stains from washing materials by rubbing into them drippings which was free from salt. Let it remain on the stains for two or three days, then wash in the usual manner.

If chloroform were obtainable and rubbed into the stains it would remove them without leaving a mark. The chloroform should be handled carefully.

MAKE FOOD REMNANTS READY FOR NEXT MEAL

Instead of putting away remnants of food in the dish in which they were served or into another clean one, make them ready to warm for another meal. For instance, a few baked beans or a little stew may be put into a small granite basin in which it is to be warmed. These may be purchased for about 5 cents and a housekeeper should have a number of them.

SWEEDISH HAMBURG.

One and one-half pounds hamburger steak, two cold potatoes, one egg, slice stale bread grated, one onion, salt, pepper, one teaspoonful allspice, one teaspoonful poultry dressing, about one cup milk and tea spoonful sugar.

TRY THIS WHEN SEWING BUTTONS ON NEW FROCK.

If you are looking for a different way to sew buttons on your new frock, and you aren't particularly anxious that buttonholes should pass over the buttons, try this method. Place four or six buttons to overlap each other like a drawn-out deck of cards. Use the buttons in groups like his and you will have an individual note added to your costume.

TRY SENTINEL WANT ADS.

LATEST IN MEN'S SHOES.

If number of wearers measures style of popularity, this is one of the leading fall styles in men's shoes. Thousands of men will think it is good enough to be their standby on their first trip abroad. It is the American field service boot, which soon will be treading French soil on the feet of Uncle Sam's soldiers. The shoe is hobnailed, stocky and comfortable—just the boot for hiking.

Rheumatism

Remarkable Home Cure Given by One Who Had It—He Wants Every Sufferer to Benefit.

Send No Money—Just Your Address.

Years of awful suffering and misery have taught this man, Mark H. Jackson, of Syracuse, New York, how terrible an enemy to human happiness rheumatism is, and have given him sympathy with all unfortunate who are within its grasp. He wants every rheumatic victim to know how he was cured. Read what he says:

"I had Sharp Pains Like Lightning Flashes Shooting through My Joints. In the spring of 1913 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedies after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and overjoyed with the result, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Don't that fail! Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today. MARK H. JACKSON, No. 512 Gurney Bldg., Syracuse, N. Y."

WILLIAM NOT WHOLE THING IN GERMANY

Kaiser Overawed by King of Bavaria Says Artist at Rochester.

Rochester, Ind., Aug. 23.—Carl H. Bohnen, an American portrait painter, who spent the last three years in Munich, Germany, left yesterday for his home in St. Paul, Minn., after a visit with Omar B. Smith, a Rochester banker, whom he met in Munich just before the war broke out.

Mr. Bohnen says he was well treated, as long as he remained in Germany, but that he had considerable trouble in getting out when he left, May 19, being detained at the Swiss border. He was stripped and searched, even corn plaster being removed. At the French border he was forced to sketch the commissionaire to prove he was an artist. His wife and daughter, who were with him here, accompanied him throughout the trip home.

Mr. Bohnen says Americans are prone to give too much credit to the Kaiser who is not the real backbone of the fatherland, the artist declares. Mr. Bohnen asserts that Generals von Hindenburg and Ludendorff are now running the empire with an iron hand, and that while the Kaiser is listened to, his will is far from being law. He related several incidents to prove this fact, one showing the feeling between Bavarian and Prussian troops. "Two failures," the artist says, "on the part of Prussians to hold a strategic point taken by the Bavarians were followed by an assault on the fleeing Prussians, in which sixteen were killed and a number seriously wounded. The Kaiser ordered that every tenth man of the offending regiment should be shot, but the king of Bavaria sent word that if the order was carried out, he would withdraw all his troops from the field. The men were not shot."

Light Breakfasts

Thoughtful people these days are urging economy in eating, and many are even advocating "no breakfast."

The "no breakfast" plan may agree with some, but most people feel better and work better on at least a light breakfast.

A great many have found that a liberal dish of Grape-Nuts, served with cream, milk, or fruit juice, furnishes ample morning nourishment, is easily digested, and promotes buoyancy and clearness of mind.

Grape-Nuts

contains all the nourishing goodness of wheat and barley, including the vital mineral salts of the grain, and is a most delicious food.

"There's a Reason"

"UNITED STATES WON'T FIGHT!" IS WHAT RUSSIANS HEAR DAILY, SAYS CHARLES E. RUSSELL

And Every Pacifist Convention or Peace Resolution in America is Magnified Manifold by Pro-German Spielers in Petrograd, He Shows—If Slavs Waver and Let Germany Win, You Must Blame Un-American Elements in This Country.

By CHARLES EDWARD RUSSELL. (Copyright, 1917, by the Newspaper Enterprise Association.)

"The people of the United States are not in favor of this war."

"The government of the United States is controlled absolutely by the munition makers. For the sake of profits the munition makers wanted the United States to go into the war. That is the only reason why the United States is in it."

"The people of the United States are utterly opposed to the war and wish to make peace at once. They are about to overthrow their government. Then they will make peace with Germany and the war everywhere will come to an end."

"The other day in the United States senate a resolution was introduced for peace. You see—I told you. I know what the people of America think. I am an American myself and I know they are dead against the war."

These are a few samples of the stuff dinned incessantly into the ears of Russians by a thousand professional trouble makers, anarchists and the like, returned from America with American passports in their pockets to try to win the situation for Germany.

This sort of stuff and worse. Sometimes they tell the Russians that conditions in the United States are far more intolerable than they ever were in Russia under the czars, that the people are more oppressed and more miserable, that whatever else the Russians do with their freedom they must be on their guard against establishing any government in the least like that of the United States.

"The United States has ruined Cuba and Mexico," they say. "It has en-

slaved its own people. It has now sent commissions over here to prepare the way to enslave you. Above everything else, be on your guard against America. I know what it is. I am an American myself. Look at my American passport."

"The United States will never do any fighting in this war. Do not be deceived. The United States is only bluffing. It doesn't intend to fight. The munition makers only want some fat orders for guns and things and then the United States will make peace with Germany. That is what you ought to do if you don't want to get left. Now is the time to make peace. Who do you want to fight for? England and France are all in and the United States is only fooling you. Everybody knows that in the United States. I just came from there. I am an American. I know."

The great Field of Mars, the ancient parade ground of Petrograd, is the forum and huge debating school of the new democracy. Every Sunday you can see there 200,000 or 300,000 people in groups around the speakers, listening to oratory. Oratory is the Russian national game.

These agents of mischief, recently returned from America, run from meeting to meeting, reiterating the lies I have quoted above.

There is no chance to deny that they do an infinity of harm. The German propaganda in the United States and Germany, which directs their efforts, judged with perfect accuracy of the harm they could do. Nothing better for the Kaiser has been done since the war began.

They undermine faith. They destroy courage. They make many Russians believe that the United States is about to seek peace and Russia therefore will be left fighting hopelessly alone.

It was this treacherous activity, combined with the pre-arranged mutiny of German agents in the ranks, that caused the recent slump in the Russian line in Galicia. Direct cause and direct effect.

But take good heed of the next point in this black record. Everything that happens in the United States that can be used as material by these backflingers gets promptly over there.

Every time a plausible, cleverly named pro-German organization calls a peace convention the fact gets to the Field of Mars, and is used to show that the people of the United States are opposed to the war.

Every time a senator or representative introduces a disloyal resolution, news of it flies without delay to the huge German machine that is working ceaselessly in Russia to break down

the spirit of the Russian people and cause them to lay down their arms.

Every time a senator undertakes to hamstring his government by blocking necessary legislation, casting discredit on the motives of America or endorsing this clever German maneuver or that, the news goes swiftly to Petrograd and the silly creatures that do Germany's work on the Field of Mars chuckle and are glad.

They have been provided with a fine fresh lot of ammunition. The machinery to get it quickly to Russia as soon as it appears in the senate must have been set up long ago. It is a question that it is wonderfully alert, active and efficient.

For instance, the moment the special commission to Russia was suggested last April a flood of propaganda was let loose to hamper its work.

Every conceivable lie about it, its objects, the men that composed it, the government and people of the United States, the aims of the United States in the war, was turned loose by mail upon Russia and a battalion of agents sent along to spread the poison and see that it took hold.

Germany's desperate need was that Russia should not be aggressive in the war. Germany must therefore nullify the effect of the commission's visit, and there was the way to do it.

All these things show very plainly the existence in this country of a monstrous and cunningly directed German machine.

They also show the appalling chances that ignorant or disloyal men in congress take when they try to hobble this country in the great work it has undertaken to do.

It is not for me to dwell upon a situation that drives thoughtful men abroad from their sleep, but I ask you merely these questions:

At this stage of the game, what do you think would happen if Germany were to break through that Russian line?

And what can keep her from breaking through but the spirit and united purpose of the Russian people?

I read in the American newspapers many undeservedly bitter things about Russia because part of her troops had wavered.

If they waver again, say no bitter things about Russia.

Say them about certain men and certain newspapers in the United States, for they alone will be to blame.

Not only for that day's work but for the colossal disaster and years of slaughter and suffering that may follow.

Miss Lea Townsend, age sixteen, the daughter of William Townsend, a Washington township farmer, were married yesterday. The bridegroom is a member of the signal corps in the United States army, and is stationed at a fort in New Jersey. Townsend was barely able to walk to the county clerk's office, where he was a result of a motorcycle accident when en route to this city. His machine skidded and went into a ditch.

MARRIED MEN RECALLED.

Kendallville, Ind., Aug. 23.—Married men of Noble county who are in military service and found physically fit at recent examinations but were exempted on the grounds of having a dependent wife, have been summoned for re-examination on Friday of this week by the attorney for the exemption board. ALL CANNOT REGISTER.

There are many citizens of notable age who will not vote in Fort Wayne this fall. There are 15,000 men and women who are eligible for the ballot and yet who have not registered for voting. If all the men and women register between now and October 7, when the registration period ends, there will be fifty-one persons signed up during each daylight hour. City Clerk Boeger states that the registration of all persons now delinquent will be a physical impossibility, although many private citizens are aiding in the work and several business rooms have given space for the process.

BEAUTIFUL NEW STORE OPENS.

Visitors Throng R. H. Brothers Opening of Handsome Stock.

The interior of the new store of R. H. Brothers, in West Wayne street, is remarkably inviting and restful and the women who thronged the room at the opening on Wednesday complimented it on every side. The work is finished in ivory tint enamel and the floor is carpeted in a soft taupe or mauve shades that makes the showing of colors in suits, dresses, waists and cloaks, all the more attractive. Thus the room is light without being glaring and colors look natural. The goods displayed combine richness of material, splendid style and refined taste. Much admiration was expressed for some of the new outdoor garments and new suits and blouses are equally attractive in design and up to date in coloring and style. There is much that is practical as well as elegant in stock. The show women are familiar with their work and are well known in the Fort Wayne community.

WILL LEAVE NEXT WEEK

Company E and B Will Receive Orders About Next Tuesday.

LOCAL TROOPS ARE INOCULATED AGAIN

Major Thomas F. Ryan Lauds Newspapers for Their Assistance.

Although unofficial it is being noted about that orders to report either to Hattiesburg, Miss., or Fort Benjamin Harrison, will be received early next week by officers of Company E and Company B, signal corps.

It is thought that the orders will precede the departure of the local troops by about four days and it is the opinion that the two companies will entrain next Saturday morning.

Members of both companies were inoculated the second time against typhoid fever Wednesday by Lieutenant P. H. Lucas of No. 2 ambulance company, of Marion, Ind.

Major Thomas F. Ryan, of the regular army recruiting station reports

Do You Consider the Hiring of a Servant a Greater Lottery Than Even Marriage?

that twenty men were sent to Fort Thomas, Ky., Wednesday evening, and that a larger number will leave Thursday evening.

The recruiting officer is strong for the newspapers and states that the Fort Wayne papers have aided much in all the patriotic movements and that credit is due them. He states that they have assisted him greatly in his work and that as long as no trusts are violated that the doors of his office are always open to newspaper reporters.

Sergeant William Moore, now with the supply company of the First regiment, but formerly of Company B, is home on a leave of absence for a few days. He states that enormous amount of preparations are being made for the national guard units. He believes that the Fort Wayne companies will go direct to Hattiesburg, Miss.

BIG WAR PROGRAM.

Company B to Communicate With Headquarters Six Miles Away.

Officers of Company B, signal corps, are busily engaged in working out and perfecting a war problem which is to be solved by the members of the company, presumably Friday, provided the weather is satisfactory. The headquarters will be communicated with from a point six miles from the city. Plans will be used in conveying the signals as will railroad and electric railway rails, barbed wire fences and streams of water. The plan was to solve the problem Thursday, but weather conditions were unfavorable and the idea was dispensed with for a day.

Thursday afternoon a special course was given the members in map reading. The contour map of Fort Leavenworth and surrounding territory was used. The company was divided into three classes.

A contour map of the territory of Allen county, bounded by the Auburn, Leesburg, Dupont and Lake township line roads, will be made by the company within the next few days. All trees, rivers, creeks, ridges, bridges, valleys and hills will be designated on the map.

The company established headquarters on the top of the Shoaff building Wednesday afternoon. From this point conversation was carried on with men on the top of St. Vincent's Orphan's home.

All members of the company received their second "shot in the arm" Wednesday afternoon and some of the boys became very sick. One man was given a double dose. He got the first shot and then stood around awhile and the army doctor, not knowing that he had treated him once before, gave him the second one before a surgeon could be made. The man was ill

than any of the rest, but had recovered sufficiently Thursday to be about.

To Aviation Corps.

Kenneth Clapp, a well known young man of this city, has been ordered to report at Columbus, Ohio, to receive instructions in the United States aviation corps. He resided at 2223 California avenue.

Band Player Home.

Lawrence Pope, son of Mr. and Mrs. Al Pope, of Washington boulevard west, of this city, a member of the Third regiment infantry band, has come home from South Bend to spend a few days with his parents. The young man, who is twenty-six years of age, is the oldest player in the band, and will leave for Hattiesburg next Wednesday. He expects to see France.

CONTRACT FOR "Y" AWARDED

Indiana Engineering Company Will Begin Work on the Erection at Once.

LOCAL FIRM'S BID OF \$225,000 WINS

Bonds to the Amount of \$150,000 Underwritten by Business Men.

On a submitted bid of \$225,000, the Indiana Engineering and Construction company, of Fort Wayne, was awarded the contract for the erection of the Fort Wayne Young Men's Christian association building.

In addition to the \$241,000 which was subscribed by the residents of the city, an additional \$150,000 has been secured by bonds, which were underwritten by Fort Wayne business men. The finances will be furnished by the banks of the city on a pro rata basis. Every bank has agreed to carry its share. The bonds bear six per cent interest.

Immediately after the letting of the contract it was announced that the tearing down of the old Hope hospital building and the erection of the seven story, fire-proof Y. M. C. A. was to be begun at once. The contract calls for completion of the building by September 15, 1918. It is possible that the building will not be ready for occupancy, however, until a month after this date.

The heating contract, the only other contract that has been awarded, has been given to the Derheimer Brothers for approximately \$20,000, with deductions for use of materials in the old Hope hospital building. The necessary agreements between the two firms will be signed soon.

Other special contracts and wiring, plumbing, ventilation and other minor ones, will be awarded soon and it is the hope of the committee that all these contracts will be awarded to Fort Wayne firms.

The committee now announces that since the Y. M. C. A. is an assured fact that all construction work, including the erection of the new building, will be done by local firms.

entious effort to keep up the payments if possible. The people who subscribed are now expected to do their part by backing up the project.

The association now has approximately \$441,000 with which to set aside the generally known fact that Fort Wayne was the largest city in the United States without a Y. M. C. A. It is announced that the fixed equipment for the new building will cost approximately \$30,000; other equipment, \$35,000; the site, \$42,500 and the remainder of the money will be used for expenses including the architect's fees, office expenses, etc.

CITY APPEALS NEXT IN LINE

District Board Still at Work on the Large Pile of Claims.

AMISH EXEMPT FROM SWEARING NOT DRAFT Several Changes Will Be Made in List of Men of District Three.

Appeals to the district board from the city of Fort Wayne will be next in line, say members of the board. Thus far the appeals from outside of the city have been considered and it is believed that this stupendous task will be finished by Friday evening. The appeals therefore from residents of Fort Wayne will be passed upon.

Members of the Amish church, at least in Allen county, will be excused from "swearing or affirming," but not from service. The four members of this church, who, with Attorney R. Earl Peters, made a trip to Washington to see the secretary of war, gained this much. The other matter of being exempt from service was taken under advisement for a ruling later.

The board at district three announces that there will be several changes in the list of soldiers, as announced in these columns Wednesday. The board members state that there are several cases in this list which will be recommended to the appeal board because the man, through ignorance of what to do failed to file exemption claim. Then there are still a few who have appealed their cases to this board for a decision. It is likely that some of these will be granted, it is said.

Boards at district two and one in the city are still engaged in their work, but expect to be finished within a few more days. The county district examined a large number of men Thursday morning, but there was not a single one who passed the examination who did not file claim for exemption.

In view of this fact it appears as though this board will be compelled to make the third call for more men to be examined.

Federal Commissioner T. J. Logan conducted an open court for seventeen men who sought discharge. Of this number seven were refused exemption while ten of them were granted. This work was done Wednesday evening and all the cases were from the first city district.

The results yesterday before the state appeal board were as follows: Industrial or Agricultural Exemptions Held for Later Service.

Major T. Sherry, R. R. No. 7, Connersville.

Charles Brown Dies Very Suddenly at His Home in Churubusco.

(Special to The Sentinel.) Columbia City, Ind., Aug. 23.—Charles Brown, one of the best known residents of Whitley county, died suddenly at his home in Churubusco Thursday morning at the age of 43 years.

His wife was awakened early in the morning by her husband's heavy breathing and upon investigation found that he was dying. The family physician was called, but Mr. Brown was dead before he arrived. Death was due to heart trouble, with which he had been bothered for the past year.

The deceased had been to Fort Wayne Wednesday attending to business and only Wednesday evening had attended the meeting of the Churubusco town council, of which he was a member. He seemed to be in good health and the announcement of his death comes as a shock to all who knew him.

Mr. Brown was the son of the late Mr. and Mrs. Valorous Brown. His father was a prominent lumber man and financier of Whitley county. The deceased was born in Columbia City, but moved to Larwell and then to Churubusco. Later he went to LaOtto, where he managed a lumber mill, but returned to Churubusco five years ago upon the death of his father. He purchased full ownership in the Churubusco mill only a month ago.

Besides the widow, who was formerly Miss Reider, of Columbia City, he is survived by two sons, Robert at home, and Lee, who is now stationed at Fort Thomas, Ky., one brother, Will Brown, of Arkansas, and two sisters, Mrs. Daisy McWay, of Indianapolis, and Mrs. Laura Hughes, of Findlay, Ohio.

WOMAN'S FRANCHISE LEAGUE STATES AIMS

Full Suffrage in State and Nation the Goals Says President.

Indianapolis, Ind., Aug. 23.—The future work of the Woman's Franchise League of Indiana, now holding a conference here, was discussed at today's session by Mrs. Richard E. Edwards, of Peru, president of the organization. She outlined three possible courses. They were:

1. Campaigning toward a natural woman suffrage constitutional amendment.

2. Working for the adoption of the Beardsley full suffrage amendment to the Indiana constitution.

3. Working for full suffrage in Indiana through a constitutional convention.

Following Mrs. Edwards' address the subject was discussed generally. Other subjects considered today were co-operation with state and national organizations.

Committee reports were the last items of business considered by the conference before it closed this afternoon.

WORKING FOR BOYS' RESERVE. Anderson, Ind., Aug. 23.—A seventeen days' campaign for members of the Boys' Working Reserve closed in Madison county last night and about seventy-five per cent. of the county quota was secured. Opposition to the organization from parents believing it to lead to military training was found in all parts of the county.

Elgie Stevens Sues Adaline Stevens for Divorce on Ground of Desertion.

Adaline Stevens took it upon herself three years ago to flee from the home provided her by her husband, Elgie Stevens. She refused to listen to her husband's pleas to come back and live with him and remains away until this day. Elgie filed suit for divorce against Adaline Thursday.

He further alleges by reason of her remaining away from him he has suffered great mental agony and that she knew it. The plaintiff states that she has refused to promise ever to come back again and that is why he is asking the court to legalize the separation.

MORE DIVORCES GRANTED. Vera Maurer Thought It Was Funny and Gets Severe Lecture.

In addition to the three divorces granted in superior court as mentioned in these columns Wednesday, Judge Geake, pro tem., tried four more and granted as many.

Vera Maurer, who obtained the decree from Charles Maurer, giggled and held her hand to her face when she testified that her husband had kicked her out of bed. Whereupon Judge Geake took it upon himself to give her a severe lecture, which it is safe to say she will not forget for some time.

Anna DeLong was granted a divorce from Irville DeLong.

Lena B. Ray showed to the court that her husband had deserted her five years ago, whereupon she was granted a divorce from Wilbur Ray.

By default Pearl Reneman was granted a divorce from Frank Reneman.

SUITS ON PROMISSORY NOTES. Fort Wayne Credit Company Begins Action Against Two.

The Fort Wayne Credit company has filed suits against two Fort Wayne men on complaint that promissory notes which are alleged to be overdue, have not been paid. The company has sued Jerry O'Connor for \$250, alleging that the promissory note was due October 23, 1915, and Frank J. Burns, whom they say promised to pay a note April 13, 1917. The latter suit is for \$435.

Chop Suey Man Sued. Alleging that he was damaged to the extent of \$2,000 when Harry Wong, proprietor of a Chinese restaurant on the second floor at 812 Calhoun street, refused to serve him a meal and forced him to leave the place, Henry Simon has begun suit against the Oriental caterer.

Jury Disagrees. The jury in the case of Henry Sink against Sarah Higgs for \$2,000 damages which were venue from the Allen to the Dekalb circuit court, reported that they could not agree after deliberating all night. The case was tried Monday and Tuesday and the jury reported its disagreement Wednesday morning. Attorneys Snouter and Sherrod and E. V. Harris represented the plaintiff and Harper and Fuelber and Atkinson the defendant. The case will be retried in October.

Wife's Affections Alienated. Joseph Birkmeier, a barber, has sued George J. Jerome, who conducts a tin shop on Calhoun street, for \$5,000 damages, alleging that he has alienated the affections of the plaintiff's wife. The complaint was filed some time ago, but an effort was made on the part of the attorneys to keep it from the files. It is alleged that the defendant took the wife of the plaintiff in secret places and even after the plaintiff had warned him he continued his improper conduct.

Court Notes. The Evans Coal company has begun action against J. B. O'Connor & Son, demanding \$353.60 which they state is the amount due on account. Judgment obtained by Wilkinson Bros. & Co., against the Economy Glove company, was set aside in the superior court Wednesday.

To Foreclose Mortgage. Suit to foreclose a chattel mortgage, an order for sale of property and a judgment of \$95.19 has been begun by Sherman P. Stutts, et al., against Fred Tapp, ex. or.

TRI-STATE TICKET AGENTS AT PICNIC

Lafayette, Ind., Aug. 23.—The midsummer outing of the Tri-State Passenger and Ticket Agents' association was held at Gay's park, a summer resort on the Tippecanoe river, twelve miles north of here. About seventy-five members were present and before going to the park they visited the Tippecanoe battlefield where Brigadier General R. P. Dehart delivered an historic address. There was no business connected with the meeting and the day was devoted to pleasure. A program consisting of vaudeville, girls' swimming races, boxing and other sports were arranged.

PROF. L. C. WARD MAKES STATEMENT Necessary in Pursuit of Scientific Study Says High School Principal.

"There is nothing to it," declared Louis C. Ward, principal of the Fort Wayne high school, in regard to the rumor extant that the study of German would be ruled out of the local school as is being agitated in other places in the country.

"The study of German is too valuable," Mr. Ward continued. "It is necessary for students who are preparing to do scientific work in the colleges of the country. Some of the greatest advances in science in the last few years have been made by the Germans, the works of many of whom have to be studied in German in order to get the correct ideas. In some places the works are translated into English, but the student loses much in the translation, both in expression and beauty of thought. The students leaving the high school and entering college will find that a knowledge of German is necessary. Mr. Ward stated, because of its wide usage. Mr. Ward declared that the German language has made most progress in a scientific way in the last one hundred years because they have been striving toward that end for a purpose, which was the domination of the world. Naturally, he said, because of the fact that Germany was ambitious her recourse was to science, because her competitors were the size of the rest of the world she is very small, and because she did not expect to defeat the world by numbers her progress along scientific lines was rapid.

Mr. Ward stated that he knew of no demand here to eliminate the study of German.

When asked whether the study of French, the demand for which has become large since the advent of the United States into the war on the side of the French, would be taken up in the Fort Wayne high school, Mr. Ward replied that he did not believe that there was sufficient demand for it here and that there were too many other courses which demanded the attention and took all the resources to take care of. French courses are given in several schools in the state, being limited, however to the secondary schools at Indianapolis and Evansville.

The local high school will not lose a member of its faculty because of the selective draft. Despite the fact that fifty per cent. of the teachers in the school are men, none of these will be called into service. Most of them are over the age limit inasmuch as Mr. Ward explained, that a college diploma and four or five years experience are necessary before a person can teach in the local school. Those who were under the maximum age limit have either been rejected or exempted from service.

RUSSIAN ARCHPRIEST PRAISES AMERICANS Notes Interest of Root Mission in Russian Church Matters.

Petrograd, Aug. 23.—Archpriest Filonenko, member of the duma, describes in the Birchvui Vvedomosti the interest evinced by Dr. John R. Motz, member of the American commission in Russia, in the general Russian congress of clerics at Moscow and on other occasions, "about which our press made no mention."

The writer describes visits to Moscow churches and the liturgy in Kazan cathedral. Petrograd attended by all members of the Root commission, and cites as evidence of the sincerity of the commission in its investigation that it "sent a telegram costing 800 rubles to Washington giving impressions of the Kazan service."

Archpriest Filonenko quotes Charles Edward Russell as predicting a great future for Russia, excusing the limits to which the people have been carried in the celebration of new freedom.

The writer concludes: "We believe that the great interest which the Americans showed in our church affairs is not a temporary, casual whim of rich people, but indicates a serious attitude toward the orthodox church on the part of the American people."

ROOF LUMBER MAKES SUBMARINE CHASERS Uncle Sam Has Taken Timbers Which Would Have Covered Reservoir.

Uncle Sam has taken the lumber which was to have been used for completing the reservoir roof. The big timbers will be used in the bodies of submarine chasers and other navy boats instead of topping the city water basin. The confiscation has caused managers of the Engineering company, which has the contract for the roof, much worry and some delay and will mean an expenditure of \$1,040 more money.

The timbers, which were an inch and an eighth by six inches and sixteen feet long, were ordered by the Engineering company of Fort Wayne last February, as soon as the contract for the \$22,000 covering was given. The pine boards were to come from the Gilmarin forests of Mississippi. The planks have never arrived and no word can be received from the Gilmarin company.

Word to the effect that the government is seizing all available lumber in the south for ship building purposes has caused the local contractors to realize that the timbers for the big roof have been confiscated. The boards are of proper size for making ship hulls, especially of the lighter crafts.

While the Fort Wayne company is not to be outdone in loyalty to the cause of strengthening the United States navy yet the action places the directors and city officials in a trying position.

The steel work for the roof is nearly all in place. The covering is ready for the planks. The time allowed for building the roof is almost ended. Action must be taken at once.

City officials expect to have the contracting firm to build the frame work for the roof out of timbers of a smaller size. The boards will probably be bought from a local lumber firm at once. There will be \$2,000 feet of the lumber necessary. Raising price of the glue the amounting to the planks will cost \$20 more for each thousand feet than they would had the Mississippi pines reached Fort Wayne.

PROGRAM READY. Electricians Will See Flying Machines and Big Falls.

Robert J. Gaakill, fire alarm superintendent and president of the International Association of Municipal Electricians, is preparing the program for the annual conference of the organization to be held at Niagara Falls on September 11 to 14. There will be four days and nights filled with technical discussions and sight-seeing.

Frank Dix, head of the city lighting plant, will deliver an address on the subject, "Practical City Street Lighting." John Price Jackson, representing the commission of labor and industry of Pennsylvania, will be a speaker. The secretary of the National Bureau of Patriotism will talk. An officer of the General Electric company will present a paper on "Phantom Circuits." Other addresses will be on "Fire Hazards of Domestic Electrical Appliances," "The Renewal of Enclosed Fuses," by A. L. Eustice, of Buffalo; "The Fire Alarm System as a Fire Alarm Prevention," by a member of the national board of fire underwriters; "Modern Flashlight Police Signal Systems," by F. C. Bauer, electrical engineer, and "Wireless Apparatus," by John Frazer, electrical engineer.

The municipal electricians who will talk in their closed sessions about methods of aiding the government in the present moment of stress will also be the guests on many short excursion parties during their stay in Buffalo. There will be a trip to the Cave of the Winds and to Goat Island. There will be a trip through the Shredded Wheat Biscuit factory and to the Curtiss aviation park. There will also be lunch at the Maltozia roof garden.

CONFIRM ROLLS. Board Will Prepare for Five Sidewalks and Big Sewer.

Assessment rolls will be confirmed by the board of works Thursday night, for the building of the lengthy Spy Run district sewer and for five sidewalks. The concrete walks are located on both sides of Jackson street, from Washington street to the alley south of Jefferson street, on the south side of Pontiac street, from Calhoun street to Fairfield avenue; on both sides of Swinney avenue, from Broadway to College; on both sides of Taylor street, from Fairfield to Broadway, and on both sides of Dawson street, from Calhoun to Fairfield.

GRAND FINALE. Last of Elks' Band Concerts Will Thrill Patriots.

National hymns of nearly every one of America's allies will proceed in a harmonious procession through the Elks' band concert to be given in Weisner park, Friday night. The musical entertainment will be the last number of the season for the Elks' band.

The battle hymns of England, France and Belgium will open the concert, which will be spirited with the anthems of eight brave-hearted races. The program, as arranged by John L. Verweire, follows:

National Anthems of— (a) England, "God Save the King" (b) Belgian, "La Brabanconne" (c) France, "Marseillaise" (d) Italy, "Gloria" (e) Russia, "Kalinka" (f) Finland, "Tango Mazur" (g) Greece, "L'Albanais" (h) Serbia, "Gloria" (i) Roumania, "Alexandru-Hubusch" (j) Medley Overture—"Remick's Latest Hits" (k) Excerpts from "My Home Town Girl" (l) Suite—"Atlantis" or "The Last Conquest" (m) Nocturne and Morning Hymn of Praise. II. A Court Function. III. The Destruction of Atlantis. National Anthems of— (a) Japan, "Author Not Identified" (b) Italy, "Garibaldi" (c) France, "Marseillaise" (d) Our Flag "Star Spangled Banner" (e) Key-Smith (In the above anthems you will find two names, one is the author and the other the composer).

Advertise City Lights. Plans are being made by city officials for advertising "city light" in the City Coliseum park, corner of Lewis and Clinton streets. A neat electric sign is expected to be placed in the park and attractive signs over the various entrances will announce the benefits of using the city electricity.

Keeps Him Busy. Adolph Jaenicke, the new park superintendent, is getting his share of walking. He has been forced to make his way from park to park by any method at hand since the city park machine, in which Jaenicke was riding, was damaged in an accident, Tuesday afternoon. The active park superintendent rides the street cars when he can, but on both Wednesday and Thursday he covered many miles on foot.

Get Their Badges. Badges for the new city park watchmen arrived at the city hall Thursday morning. The "stars" are silver coated and announce that the bearer is an authorized officer of the law. Reflecting power of the insignia would lead one to think that they will be easily distinguished at some distance on moonlight nights.

Grading Avenue. City workers, under Superintendent of Streets Herman Strodel, are engaged in grading Tennessee avenue, from St. Joe boulevard to Crescent avenue. The avenue will be coated with stone when the grading is completed.

Ready for Motor. City officials are satisfied that the Swinney park spring will not be injured by being made a source of water supply of Fort Wayne. According to it is determined to send for a motor at once and to arrange for piping the park water into the west end mains, the well is 326 feet deep. A revolving pump will be dropped for a part of that distance into the well.

Building Permit. Building permit was issued to Warren Smitley to construct a porch at 136 West Leith street at cost of \$200.

Birth Record. Born, to Mr. and Mrs. Albert Heckler, 508 West Jefferson street—a girl. To Mr. and Mrs. Harry Stone, 2519 Lafayette street—a boy. To Mr. and Mrs. Otto Hoerner, Lutheran hospital—a boy.

UPSET PRECEDENT BY TAKING TWO GAMES IN ONE DAY

Chiefs Pull Themselves Together and Put Up Classy Article of Ball.

Well, Oscar, it has happened, and we admit that we didn't just exactly expect it. Fort Wayne took two games of a double header at league park yesterday from Springfield which outfit has been giving Grand Rapids a hard chase right along for the top place in the percentage column. The score of the first game was 2 to 1 and the second, 5 to 4.

The first contest lasted thirteen innings before the Chiefs won it, it being a real pitching struggle between Haines, one of the leading pitchers in the league, and Doc Cummings for the Chiefs. There was no scoring for twelve long innings and it was not until the thirteenth that both sides got in their runs.

Caveny beat out a bunt for the Reapers in the thirteenth. Hartle got on a slow roller which a bad case of indecision on the part of Cummings who fielded the ball prevented him being thrown out at first. Caveny went to third on the play. Wright's sacrifice fly to Breauz accomplished its purpose and Caveny came in with what looked like the winning run. The next two batters flew out to Breauz ending the Reapers' scoring. The Chiefs showed a little spunk and showed Haines that he was not altogether invincible. Glocksion got on a slow one past second base; Vandagriff singled down the third base line, Glocksion going to second and reached third after being forced off second when he over ran the plate. Cummings hit toward third base for an easy out. Vandagriff, taking second, Breauz sacrificed, scoring Glocksion. Vandagriff going to third on the play. Miller came through in the pinch with a single winning the game.

The Chiefs opened the second game the same way that they had finished the first. With two down, Smith, the Chiefs' heavy shot artist, got a single and stole second. He went to third on Siegfried's shot to Wright, whose throw to first was bad and allowed Smith to score.

The Reapers came back in the next inning strong and scored two runs and took the lead. Caveny singled and came all the way home on a double by Hartle. Vandagriff doubled to left, scoring Allison. Breauz going to third.

The score was tied by the Reapers in the fourth. Two singles and an error being responsible. The scoring was over until the seventh when the locals put over the winning run. Breauz walked and scored on Miller's two base slam. Siegfried doubled and Miller scored, winning the game.

EASTERN AND WESTERN TENNIS STARS MEET

Play in Semi-Finals in National Tourney on Today.

Forest Hills, N. Y., Aug. 23.—Eastern and western tennis stars met on the courts of the West Side club today in the semi-final round of the national patriotic singles tournament. The two easterners, R. Norris Williams, II, 1916 champion, and N. W. Niles, both of Boston, play the opening match of the semi-final round. Williams yesterday had a hard fight in defeating H. A. Throckmorton, of Elizabeth, N. J., in five sets while Niles had little trouble disposing of C. J. Griffith, of San Francisco. R. L. Murray, recently of the Pacific coast, and John R. Strachan, of San Francisco, will fight it out for the other place in the final round. Murray had to go five sets to beat Craig Biddle, of Philadelphia, to get into the semi-finals, and Strachan went four sets in defeating Charles S. Gar and the Pittsburgh youngster. The national junior and the national boys' championship singles will continue today on the same courts.

BUGSVILLE NOTES.

Eddie Rickenbacker, the famous auto racer, is the official driver for Major General Pershing over in France. Some "showfor" the major general.

In 1867 a pitcher by the name of Cummings invented the curved ball. Just because it happened in 1867 don't think it was Cummings of wheat ball fame.

Headline in Chicago paper says "that the Brooklyn club has a fund to help drafted players." Always thought they had a fund to help club owners that players were drafted from.

Last week leaders leading hitters in the majors: Cobb, .385 and Rouch, in the Nationals with .349.

Bunny Fabrique is second in the American association batting list with a .330 average.

Pitcher Kroh, with Dayton, was with the Chicago cubs once. I said once.

Pitcher Wachtel, of Muskegon, has been sold to Brooklyn, to report at the end of the season.

The Chicago Nationals paid the Baltimore club \$15,000 for outfielder Gearhart. That is a big price for a barber, but if he can cut them out at plate and "comb" out a few hits in every game he will be worth it.

St. Louis Cardinals ties the tin can to a batch of players one day and then turns around and buys Tincup, the Indian pitcher, from Little Rock.

Harry Brant, the Grand Rapids shortstop, is reported out of danger and may go back in the game in a few days. He was beaned in the head by Winchell, of Evansville.

Philadelphia Americans went 54 innings without an error last week, making a major league record for the season.

ON OFF DAYS THE RED SOX GO A FISHING.

Babe Ruth Adjusting His Favorite Bass Lure on an Off Day Fishing Trip, and George Foster Casting for a "Small Mouth."

(By Paul Furman.)
An off day sounds just as good to a big league ball player as to anyone else, especially if the off day isn't rainy, for on rainy days they generally have to hang around the hotel lobbies, which isn't very good sport at any time.
A number of the Red Sox are ardent fishermen and on off days you may usually find them at some lake pursuing the lusive bass.
Old clothes, and in some cases, almost no clothes are in order on these laudable Walton excursions, but the day is a big rest and the players are usually ready for a strenuous time on the ball field the next day.
Babe Ruth is one of the club's most enthusiastic sportsmen. In the summer he doesn't forget to report on the days he is to pitch as that other southpaw, Rube Waddell, used to do. Rube Foster and Harry Hooper are other members of the staff who prefer fishing to other recreations.

WHY WE WILL WIN THE PENNANT.

The interest in base ball right now is centered in the race between the White Sox and the Red Sox.
Only a few points separates the two clubs and twice in the last three weeks the Red Sox have driven the White Sox from the top to take that coveted place for themselves for a few hours.
Both clubs are now going at top speed. It is impossible to predict which will win. One has as good a chance as the other, it depends mainly on the team with the reserve driving power on the stretch.

Here's what the two managers think about their team's chances to win.
CLARENCE HOWLAND.
"I believe we will win because I believe the White Sox have the punch."
"Every member of the club is confident of winning if the brand of ball we have played all year is maintained and every member is determined to play that brand of ball or better from now on."

"This talk about the White Sox cracking under the strain is bosh. We have been out of the lead twice in the last three weeks and played better ball than we had ever played to get back. That looks like pretty good evidence that the club won't break down."

JACK BARRY.
"We will win because we have the best club, a club which plays at its best when it is pushed and has to play good ball to win. We are in better shape to win this year than we were last year because we have only one club really pushing us, while last year there were four of us up there battling."

"Another thing, the Red Sox are not likely to slump. It is not the kind of a ball club which is likely to slump. I expect the Red Sox to play better ball from now on than they have played this season."

CONTEST FOR HONORS NARROWS DOWN IN TENNIS TOURNAMENT

Local Player Goes Into Semi-Finals in Play for Championship.

Singles, Windup of Second Round.
Jack Southerland won from Herron Garver by default.

Singles, Third Round.
Stephens defeated George Gawehn, 6-4; 6-2.

Southerland defeated Ortlieb, 6-1; 6-4. Knox defeated Lasley, 6-1; 6-4. Appel defeated Moll, 6-0; 6-0.

O'Rourke defeated Fisher, 6-3; 6-4. Baker defeated Harris, 6-0; 6-0. Bastian defeated E. Gawehn, 7-5; 7-5.

Singles, Fourth Round.
Stephens defeated Southerland, 6-2; 8-6. Doubles, First Round.

Ballie and O'Rourke defeated Ortlieb and Barnett, 3-6; 6-3; 6-4. Lasley and Knox defeated Bixel and Bixel, 6-2; 7-5.

Southerland and Fett defeated Engeler and Weaver, 6-3; 6-3. Barnard and Kunkel defeated Gawehn and Gawehn, 7-5; 6-3.

Some real tennis was promised for Thursday in the patriotic tennis tournament for the state championship at the Country club as the play proceeded to the fourth round with only the best talent arrayed. It is probable that the finals in the singles can be played Friday although it is more than likely they will not be played off until Saturday as a big windup for the tournament. The second and prob-

ably part of the third round of doubles will be played off Thursday.

The real contest of Wednesday's playing was between Eric Gawehn, of Fort Wayne, and Bob Bastian, of Indianapolis, the latter winning out in the most closely contested match of the day. Both sets went to deuce, Bastian being on the long end each time. The score of the two sets was 7-5; 7-5.

Stephens, of Fort Wayne, gave the real surprise of the day's playing when he defeated Jack Southerland, of the Cleveland Athletic club, and went into the semi-finals. Stephens showed that he is probably the best of the local talent for the state honor to be decided in the tournament. The scores were 6-2; 8-6. In the preceding round Stephens defeated George Gawehn, also of this city, 6-4; 6-2. Stephens showed exceptional form in defeating Southerland. After being several games behind he pulled himself together and overcoming the lead, took the set and match.

Ballie and O'Rourke provided a few thrills in the doubles when they defeated Ortlieb and Barnett after losing the first set, 6-3. They came back strong and won the next two, 6-3; 6-1.

The tournament has been run through in fine shape so far and nothing but praise has been received from the visiting players on the way things have been conducted. The courts, despite a little rain, are in fine shape and make the play very fast. F. E. Hoffman, chairman of the committee in charge, urges that every player appear as scheduled.

Drawings for the consolation play last night follow: Moll, Barnett, J. Bixel, Lasley, Harris, Nussbaum, Ortlieb, Crites, Kunkel, Carter, Fett, R. Bixel, George Gawehn and Schroeder.

CLASSIC EVENT ON
PROGRAM FOR TODAY
Grand American Handicap on Schedule of Trap Tourney.

Chicago, Aug. 23.—The Grand American handicap, the climax of the trap shooting tournament which has been in progress at the South Shore Country club since Monday, was on the program for today. There are 805 entries in this event and they will shoot at 100 targets from distances ranging from sixteen to twenty-three yards.

The preliminary handicap started yesterday, must be finished today before the opening of the feature event and the indications were that the Grand American would not begin until late in the day.

There are a million small farms in Rumania and only a few thousand large ones; but the few big landowners have more land than the many small ones. The average size of the million small farms is eight acres, while that of 4,471 large ones is 2,200 acres, says the National Geographic Magazine. In times of peace the Wallachians go into Hungary by the tens of thousands to help with the sowing and reaping.

Next Week Ends This Big Sale

The prices which we may be forced to pay to replace the stock sold during this sale do not warrant continuing the sale after next week. Were it not for the

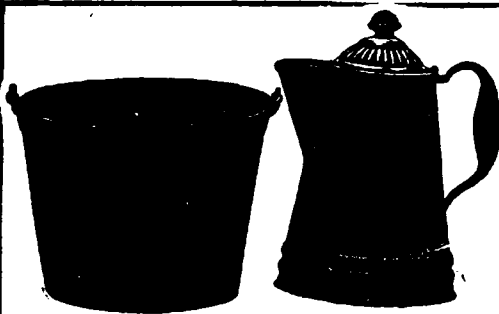

fact that we are remodeling and actually have to have the floor space in order to provide the workmen with a place to work we would be inclined to discontinue our sale right now. But profits are no object right now—and you can take advantage of this condition and save a considerable sum on any piece of furniture that you buy now. You must realize that furniture prices will go up during the next year, so why not anticipate your requirements and save yourself the amount of the advance as well as the reduction from the old prices which we are offering during this sale?

To Give You An Idea of the Saving on a Three Piece Parlor Suite

Understand that Parlor Suites are not the only furniture cut in price during this sale. Everything goes—we merely quote typical reductions.

ELK CITY BOYS OFF FOR ALL DAY OUTING

Eight Car Loads of Youngsters Leave for Picnic at Country Home.

Eight car loads of boys, four hundred of them in all, left the corner of Harrison and Pearl streets Thursday morning at 10 o'clock. They were bound for the Elks' Country club, where the antlered host was giving an all day picnic and outing for the members of the Elks' Boy City.

It was a whistling, yelling lot of youngsters who met at the Elks' temple this morning at 9 o'clock, ready for the day's fun. There were boys of all kinds, boys with fishing poles and boys with baseball bats, barefoot boys and boys hobbling on crutches. Not even the threatening skies were enough to dampen the ardor of the crowd of youngsters bent on a day's fun.

Two big brother Elks were on each one of the cars to see that nothing interfered with the success of the trip. Upon the arrival at the park, Dr. Maurice I. Rosenthal talked to the boys, welcoming them to the Elks' country home. Mayor William J. for some time.

Hosey also addressed the citizens of the juvenile municipality.

After the preliminary speeches, the boys were turned loose for the sport of the day. There was a baseball game between the Purples and the Whites, and another between the Blues and the Reds. Dinner was served at 12 o'clock.

Maurice Niezer talked to the boys at 1 o'clock, and after this short lapse of time, just long enough to allow the big dinner to digest a little, the athletic contests started. There was a sack race, fifty yard dash, shoe race, three-legged race, wheel barrow race, one legged race, baseball throwing contest, and a horse shoe throwing contest.

One of the big events of the day was scheduled for 4:30 o'clock, when William Crowl was to ascend in his balloon. The outing ended at 5 o'clock, with Maurice Niezer leading the boys in the singing of the "Star Spangled Banner."

A writer recalls an experiment once made at Amherst Agricultural college, in which a young squash was placed under a steel harness and in a wooden cradle in such a manner that its expansive force as it grew was exerted against a lever on which weights were carried. After about two months mechanical energy of more than two tons was registered and when the harness burst under the strain a week later a weight of two and a half tons was

raised and could have been carried if the squash had been properly supported.

the points they held before the beginning of the great battle of Verdun last year, with the exception of hill 304, which as yet is in the enemy's hands.

Those who believe in the theory that cannon fire brings on rain have to refer to the offensives of the allies in support of their contention, as they have frequently been hampered by downpours after a day or two of fighting. In the present instance, however, their arguments have failed. Although the fighting on the Verdun front has never been equalled, there has been no rain since Friday.

A projectile fired by a French battery, which was silencing enemy batteries, struck a depot of asphyxiating gas. It burst, silencing three batteries. German prisoners express envious admiration of the French artillery fire. "No troops could have got through your barrages," said one.

RUSSIANS LOSE GROUND.

Petrograd, Aug. 23.—The Russian forces on the northern end of the Russian front, where the Germans have begun an offensive, yesterday retired under pressure from the region of Ragedzen and Kemmer to the lake Shoyrin and Frankendorf region. The official statement issued today by the Russian war department announcing this withdrawal says the German artillery conducted an intense fire in this sector.

FRENCH TAKE 7,000 GERMANS.

Paris, Aug. 23.—The number of prisoners taken by the French in their offensive operations on the Verdun front has been increased to 7,639, including 185 officers, the war office reports. The French last night captured a fortified German position north of Mortmont farm.

GERMAN LOSS ADMITTED.

Berlin, Aug. 23.—In the fighting yesterday in the region of Verdun the German general headquarters staff today reports the French gained a footing only in a German forward trench on a small front to the west of the Vacherauville-Beaumont road.

ONE BERNSTORFF QUILTS.

Paris, Aug. 23.—Among the 600 prisoners taken by the French in the holocaust of Verdun, the German war office reports that one of the German army commanders, Count Eugene Bernstorff, the nephew of the former German ambassador at Washington.

TAKEN WITHOUT FIGHTING.

Berlin, Aug. 23.—German forces yesterday occupied, without fighting, the Russian positions west of the river Aa to the Oding-Bignau line, on the Riga front, according to the official announcement made today by the German war department.

have some effect on the discussions, as it was originally planned to consider the coal question from all angles, in addition to the question of freight rates.

The roads have a petition pending asking for an increase of 15 per cent on many classes of freight.

Members of the Indiana commission were prepared to explain the method worked out in this state by which railroads supplied to the mines 40 per cent of the coal cars requested.

May Take Uniform Action.
The appointment of a joint committee representing the public utilities commissions of Illinois, Ohio and Indiana to handle in the three states freight rate matters, which are so closely related as to affect shippers in the states alike, also is before the conference.

If such a committee is appointed it will be named this afternoon. The duties of the committee would be to develop uniformity of action. When discussing the railroads' requests for increased coal freight rates the question was raised whether if the increase is allowed it should be a flat rate a ton or a percentage increase.

No conclusion was reached before noon. The discussion disclosed that the condition of the three states vary to some degree on the question of a general freight rate increase asked by the railroads. The Illinois committee held a separate conference during the noon hour to discuss its attitude toward the subjects discussed. The general utility coal problems were discussed.

are inclined to look on the progress thus far reported as giving promise of still greater headway in the desired direction, while the conservative advocates of democratized relations between the government and the religious press are in keeping with proof of their assertion that parliamentary reorganization must be reached by easy stages and the new plan must be given opportunity to familiarize itself with German political soil before it can take firm root.

While the chancellor's informal statements and specific reference to the note are in keeping with expectations, it is not unlikely that the Vatican's message will prove the basis of an extended debate on war aims during the committee's present sitting at which the issues of parliamentary reforms are equally certain to be discussed.

DOES NOT EXPECT EARLY PEACE

Kansas City, Mo., Aug. 23.—Pope Benedict did not expect early peace to result from his proposal to the belligerent nations that hostilities be ended, according to a statement by Monsignor Giovanni Bonzano, apostolic delegate to the United States, who is here today to attend the convention of the American Federation of Catholic Societies, which begins next Sunday. "I can say authoritatively that the holy father believed there was no prospect of the warring nations arranging terms soon," said Bonzano. "But he believed that he could impartially offer a proposal that might bring the interests of the warring nations to a normal sense of thought and to try to arrange terms."

WANT SEA FREEDOM DEFINED.

Rome, Wednesday, Aug. 22.—The British and Belgian ministers accredited to the Vatican were received separately by Pope Benedict today and inquired as to the meaning of the reference to the freedom of the seas in the pope's peace proposal. The pontiff replied he intended to give to this condition the same meaning as that of President Wilson in his message, while leaving ample liberty to the belligerents to agree in future discussion as to details. Germany today acknowledged receipt of the pope's message, promising to consider it with benevolent interest and care and to give an answer after reaching an agreement with her allies.

Germans who had been brought direct from the battlefield and had gone to bed, when the bombs were dropped from a height of only 300 yards.

The Red Cross signs were painted prominently on the roofs and the Germans knew of the hospital which had been in existence for more than 10 years. The correspondent, after inspecting the hospital, visited a camp at which German prisoners are assembled. It contained considerably more than 6,000 officers and men.

The correspondent was permitted to interrogate a large number of the prisoners, many of whom are eighteen or nineteen years of age. They all declared themselves contented at being out of the war. On the way other smaller camps, containing hundreds of prisoners, were passed.

MANY ENTRIES FOR MEET.

Boston, Aug. 23.—Ten of the twelve New England athletes who won titles in sectional championship meets of the Amateur Athletic union last year, have sent in their entries for the New England championship meet to be held on Technology field, Cambridge, on Saturday. More than 100 entries have been received.

A PATRIOTIC SERVICE.

Woburn, Mass., Aug. 23.—The school committee of this city has postponed the opening of the public schools from the first week in September to October 1, in order that farmers may have the services of school boys during the harvest season. The owners of many farms on the outskirts of the city had petitioned for such action.

THE GRAND THEATRE**

The new favorite films features under this brand name the most famous of the short-length comedies, which can be seen every Wednesday and Thursday at this little theater. The new service gives the theater-goers the greatest short offerings with all-star casts that ever appeared on one program. The offering for today, for the last time, will be Clara Kimball Young and Harry Northrup in "The Test," a drama worth while also a Sidney Drew comedy, supported by Louise Benudet and Rodgers Lytton. Next Wednesday and Thursday for program No. 2 we will present "The Vengeance of Durand," with Earl Williams, Edith Storey, Julia Swayne Gordon, L. Rogers, William Harry Northrup and E. K. Lincoln.

With this remarkable array of stars on each release this photoplay classic is perfectly balanced between comedy and drama.

**GLORIOUS WEATHER
AND A LOVELY TIME****American Aviators of La-
fayette Squadron Do
Thrilling Bit.**

Paris, Aug. 23.—Glorious "airplane weather" has given a tremendous impetus to the activity of aviators on the western battlefield front. The Lafayette squadron composed of Americans, has been up incessantly, participating in the recent offensive at Verdun and vying with French aviators in the exciting though dangerous new game of accompanying the infantry at extremely low altitudes and engaging enemy squadrons in machine gun duels.

An expedition with bombing machines led by Adjt. William B. Haviland, of Indianapolis, last night was attacked unsuccessfully by a German squadron. Another squadron composed of Didier Masson, of Los Angeles, Calif.; Dudley L. Hill, of Peeksburg, N. Y.; Robert Souhrin, of New York; Ray Claffin Bridgeman, of Lake Forest, Ill.; and Douglas MacMonagle, of San Francisco, yesterday executed a movement over the new French trenches to protect the infantry, the "lison" machines flying so low that the aviators could hear the guns and the explosions of the big shells leaving the French lines.

On returning the Americans described the flight as a marvelous one, since they could plainly see each detail of the raging battle but also as an uncomfortable one since they were constantly passing through the trajectory of big shells which made the air "shaky" and which could be felt continuously. Weather prospects are good for the next few days, so the members of the Lafayette squadron expect a continuation of the exciting work.

MIGHT FAILS**SAYS GERMAN**

(Continued From Page 1.)

The new secretary, according to a telegram from Berlin, dwelt on the tremendous responsibility in assuming office "when the country is beset by the mightiest of enemies without and grave difficulties within."

Dr. von Kuehlmann laid out the following program:
"First, the maintenance of cordial relations with the allies, and second, with the neutrals. 'Peace rights and necessary conditions of existence we shall be most careful to respect as far as it is compatible with enemy trickery and our own military needs.'"

"To arrest further defection of important neutrals is an extremely serious and important task confronting us," said Dr. Kuehlmann. "We can only solve it successfully by observing the principle that in politics might counts, but also right and that only if we base our conduct on both can we hope to achieve lasting results. Furthermore we still have relations with the belligerents, although, of course, our relations are ruptured, yet, currents of public opinion wait across the border line of the trenches."

Dr. von Kuehlmann eloquently emphasized the necessity of studying enemy psychology so that "no soft words should be uttered when there are indications that the ice is breaking on the other side and more conciliatory feelings become manifest."

Dr. von Kuehlmann concluded with an appeal for trust in the army and navy.

NEWSPAPERS NON-COMMITTAL.

Copenhagen, Aug. 23.—Berlin dispatches indicate that the German newspaper comment on the address of the chancellor has been almost as non-committal as the speech itself. The Vorwaerts and the Tageblatt single out the chancellor's promise to submit to the reichstag German answers to the pope's proposal as the best feature of the session of the reichstag committee. The Lokal Anzeiger features a telegram from Field Marshal von Hindenburg on the favorable military situation which harmonizes with the demand of the newspaper that Germany conclude only a "powerful peace," to borrow Chancellor Michaelis' phrase. The Tageliche Rundschau is displeased with the chancellor's speech, because in it he failed to pick a flaw, from the German standpoint in the pope's proposals.

Predict a Conflict.
This view is taken by the Petrograd and Moscow press, which declare that if no agreement is reached between the contending groups of ten conflict must follow. Steps already have been taken toward vigorous and aggressive action by the malcontents.

Conferences were held under the chairmanship of M. Rodzianko at which the differences between the government and the bourgeois speaker complained, is entirely in the hands of Petrograd. That is the chief evil, Petrograd being the center of rotundity. Therefore, he said, it was imperative

north of Verdun apparently have been attained and except for the capture by the French of a small fortified position no infantry action in this sector are reported.

The number of prisoners has reached 7,639. The French also have captured 24 cannon and more than 200 machine guns. The Germans continued their attacks on the Alsne front last night, but met with no better fortune than heretofore. Several assaults near Laffaux mill, Alles and Cerny were repulsed.

The weekly report of French shipping losses shows that five steamships of more than 1,500 tons, were sunk by mines or submarines. Four vessels of lesser size were destroyed. Three attacks by submarines failed.

The German government has acknowledged at the Vatican the receipt of the papal note, promising to examine it carefully and to reply after reaching an agreement with its allies. The Germans are continuing vigorously and successfully their new offensive on the extreme northern end of the Russian front. Notwithstanding the difficulties of the ground over which they are attacking they have made substantial gains along the gulfs of Riga. The official report from Petrograd shows a Russian withdrawal of about five miles along the coast in the direction of Riga. Berlin gives few details of this fighting and it is not yet clear yet whether the Germans have committed themselves to a sustained offensive in the north.

MEET WITH LITTLE TO DO.

Chicago, Aug. 23.—The adjourned meeting of councils of defense was called to order here today with eight of the thirteen original coal producing states represented. President Wilson's action in fixing coal prices removed the fundamental purpose of the conference. The delegates listened to railroad men discuss the car shortage, which is held to be the main difficulty. A committee will be appointed to cooperate with the railroads.

THE MARKETS**RISE IN HAY PRICE
FEATURES LOCAL MART****Receipts Are Heavier All
Along the Line—Wheat
is Steady.**

Featuring the activities on the Thursday markets was the jump in the price of new hay, which sold on the city scales for \$12.00 14.00 per ton, an advance of \$1 per ton over the highest mark that has been reached this season.

Receipts were fairly heavy Thursday, 22 loads being weighed at the city scales. Of these, two were old hay, which remained firm at the old price of \$15 per ton. Eight loads of the new hay were weighed, selling for \$12.00 14.00 per ton.

Only one load of corn was received, bringing \$1.65 per bushel. Eleven loads of oats came in, ranging in price from 53¢ to 61¢ per bushel.

**CONDITION OF CORN
BRINGS PRICE DOWN****Report That Crop is Out of
Danger is Bearish in
the Market.**

Chicago, Aug. 23.—Belief that most of the standing crop was out of danger from drought, together with reports of abundant yields, gave corn prices a downward trend at the opening today. Opening prices ranged from a shade to ½¢ lower with Dec. at \$1.07 ½ to \$1.08 ½ and May at \$1.06 ½ to \$1.07 ½. The rallies carried prices to about yesterday's closing figures.

The close was steady and to higher. Final figures for September being \$2.07. May trading was negligible. The first trade was at \$2.06 for Sept., that option being bought at \$2.05.

The close was strong, ¼¢ to 1¢ net higher, with December at \$1.08 ½ and May at \$1.06 ½ to \$1.07.

Scattered buying of oats started that grain unchanged to a shade higher. Provisions ruled lower in connection with the weakness of the hog market.

**SELLING MOVEMENT
HITS STOCK MARKET**

Trend is Downward and Active Issues Are Lower Than for Months.

New York, Aug. 23.—Prices tended downward again at the opening of today's stock market. Recessions were more moderate, but the selling movement assumed wider proportions. Shares of companies likely to come within the scope of the government's price regulations were most affected. Steel, copper and various equipments yielded large fractions to over a point. Ralls reacted quite generally.</

MANY TO BOOST SUBURBAN DAY

Series of Weekly Trade
Events Soon to Be In-
augurated in Ft. Wayne.

ASK ALL TO BUY FROM
HOME MERCHANT

Many Interests Unite to
Make Ft. Wayne Popular
Place of Trade and
Entertainment.

"We want to make it perfectly plain
to all," said a leader in the big Subur-
ban Day movement, "that we believe
first of all in everyone patronizing the
home merchant, wherever they may
live. When our series of Suburban
days opens, the people of the near-by
smaller cities and of the farming dis-
tricts will receive a cordial invitation
to come to Fort Wayne at all times,
but especially on one day a week
Wednesday. On that special day the
visitor will be given many opportu-
nities to make advantageous purchases.
On that day, also, the visitor will have
an opportunity to find high-class en-
tertainment at the theaters and to
make use of Fort Wayne's parks and
pleasure resorts. But the Fort Wayne
merchant asks no favors. He believes
in the support of the home merchant
everywhere. He wants everyone to
buy at home to the full extent of the
home merchant to meet the require-
ments of quality, service and price. It
is only when the home merchant is not
able to provide the same service, qual-
ity and price that the Fort Wayne
dealer asks the opportunity to meet
the need. The campaign has for one
of its great objects the exposure of the
folly of dealing with mail order houses
and others where no common interest
exists between the buyer and the seller."

The Fort Wayne Suburban Day
Trade association will be formed prob-
ably directly after the 1st of Septem-
ber. Already the following individuals

AUBURN NEWS.

Auburn, Ind., Aug. 23.—Mrs. Olive
Beckwith, of Wilmington township, is
the latest applicant for a divorce in
the DeKalb county circuit court. She
charges her husband with cruel and
inhuman treatment and failure to pro-
vide. They were married in 1915 and
separated in 1917. They have one
child, a daughter, one year old.
Lee Chapman, of Spencer, drew a
sentence of one to fourteen years at
the state prison at Michigan City for
the theft of hides at a slaughter house
in Spencer. Chapman was ar-
raigned in court Wednesday and pled
guilty to the charge. He is but 34
years old, but has had a very check-
ered career. He has a wife and one
child.
Raymond Noirot, son of Mr. and
Mrs. George Noirot, of South Van
Buren street, was taken very ill Tues-
day, and Wednesday morning was taken
to the Sacred Heart hospital at
Garrett in the Clark ambulance, where
he submitted to an operation for ap-
pendicitis.
Auburn music lovers will be given

a treat tonight when at the regular
weekly band concert the Auburn band
and the Veronee Dramatic company's
band will unite in the rendition of the
evening's program. The band of this
company is an excellent one and the
program for tonight will undoubtedly
be an excellent one.
In the examination of the drafted
men yesterday sixteen more were dis-
charged. Nearly all of them were
married men. Rev. Fred M. Newlin,
of this city, claimed exemption owing
to his occupation and it was granted.
After the first day of September
there will be but five rural routes out
of this city instead of the six that have
been used heretofore. The change was
made by the postoffice department,
and a distance of five miles has been
added to each of the routes of the five
carriers, which will do away entirely
with the sixth. Joseph Davidson was
the carrier for the abandoned route
and consequently loses his position.

TRYING TO PLACATE THE HUNGARIANS

New Premier is a Bid of the
Throne for Electoral
Reforms.

Copenhagen, Aug. 23.—The recent
appointment of Dr. Alexander Wexlerle
as Hungarian premier makes another
effort by the king to secure from a
hostile parliament reform of the fran-
chise on a universal suffrage basis.
The appointment of Dr. Wexlerle is
in the character of a compromise and
he is a premier without a party behind
him, selected, it is declared, in the
hope of inducing Count Tisza, former
premier, to consent to a liberal fran-
chise bill and avoiding the dissolution
of parliament and new elections dur-
ing the war.
The key to the Hungarian situation
is found in the fact that the dismissed
premier Tisza, despite the disaffection
of his organization, who under the pe-
culiar conditions of Hungarian politi-
cal life, usually go where the patron-
age is good, still controls an absolute
majority in the house and no reform
is possible in the present diet without
his consent.
Count Moritz Esterhazy, whom Dr.
Wexlerle succeeded, was selected as
premier on account of his personal
friendly relations with Count Tisza,
and it was hoped that he might be able,
through the threat of a new election
and by compensation in other direc-
tions, to persuade Tisza to accept an

adequate reform bill with the alterna-
tive of splitting the Tisza party
enough to make a majority.
Count Tisza was willing to accept a
half-way measure, but refused to
consider universal suffrage or even to
grant the franchise to all war vet-
erans. His utmost concession was the
enfranchisement of holders of medals
of valor.

EACH DEFENDANT GREETED BY FINE

Five Prisoners Pay \$74
Into the City Court
Coffers.

To make up for the brevity of the
docket in police court Thursday morn-
ing Judge W. H. Kerr assessed a fine
against each man who answered to the
voice of the prosecutor. The five pris-
oners were ordered to pay the total of
\$74 for their misdeeds.
Fred Schumm, 24, had driven to the
left of the silent cop at the corner of
Putnam and Wells streets on Wednes-
day morning. He had dodged the
"keep to the right" order so that he
would not strike a team of horses, he
testified. But Schumm had almost
struck a woman pedestrian when he
disobeyed the lettered signal and the
woman had complained to the police.
Schumm paid \$5 and costs for the
error.
Enoch Parks, colored, made the
mistake of boarding a Pennsylvania
train when in an intoxicated state. He
annoyed passengers, it was explained.
His fine was \$15 and costs.
John McDonald and James Graham
were slated as "plain drunks" although
it was told that John tried to make a
political speech on Calhoun street be-
fore officers found him Wednesday
afternoon. Both men heard the judge
say "fine of \$1 and costs."
Charles Arkhill pleaded guilty to a
disorderly conduct charge. He had
waxed boisterous after croaking his
elbow several times Wednesday even-
ing. He will arrange to pay \$11.

LA FOLLETTE PLANS FOR HIGHER RATES ARE FINDING FAVOR

**Wisconsin Senator's Proposals Would
Increase Income Tax Returns
About \$700,000,000 Yearly.**

ACCUSED OF TRYING TO KINDLE REVOLT

Washington, Aug. 23.—Making war profits and millionaire incomes pay the greater part of the war's cost engrossed the senate today in its consideration of the war tax bill.

Although yesterday's amendments restored the house amendment for higher rates of income taxation and ran the tax on millionaires up to 67 per cent., Senator LaFollette's proposals for still further higher rates came up today with many senators supporting them.

By these amendments the Wisconsin senator proposes to increase the income tax return of the bill to more than \$700,000,000 a year in addition to the present law.

Sensors Vandaman, of Mississippi, and Trammell, of Florida, spoke in favor of the LaFollette substitute, and both opposed the bill's consumption taxes and its pre-war basis of taxing excess incomes.

Charges that those opposed to the war were attempting to impose on the present generation the full burden in an effort to make it as unpopular as possible, were made by Chairman Simmons, of the finance committee, in opposing the LaFollette proposal. "If you want to make this bill unpopular with the masses of the people, and take from them an unfair proportion of revenue, adopt the substitute—it places the burden on small incomes."

Of the net increase of 44 per cent. proposed in income taxes Senator Simmons said the LaFollette substitute would take 25 per cent. of the return from incomes under \$30,000.

PALO ALTO CAMP IN CALIFORNIA IS TO BE ABANDONED

Washington, Aug. 23.—The Forty-first national guard division, comprising troops from Washington, Oregon, Montana, Idaho and Wyoming, has been ordered trained at Camp Greene, Charlotte, N. C., and Camp Fremont at Palo Alto, Cal., has been abandoned because the California state health authorities have decided that a latrine sewage system, such as the war department proposed, would be injurious to the health of the community. Secretary Baker, announcing the change, said today that the war department could not see its way to spend a half million dollars for such a sewage system as the state health authorities thought necessary, in a temporary camp.

RUSSIA LOOKS TO AMERICA TO GAIN A HEAVY WAR LOAN

Petrograd, Aug. 23.—The official Torgopok Promuush Lennaya Gazetta publishes a plan for a commercial loan in America, whereby it is hoped the problem of supplying Russia with food products will be solved. The writer declares that the main cause of the chronic deficiency of food in cities is the unwillingness of farmers to exchange agricultural products for paper money which in view of the complete lack of manufactured goods they can buy nothing. Russia, the writer continues, must therefore conclude a loan in America supplying Washington with a list of goods needed, chiefly nails, tools, agricultural implements, leather, cotton, woolen and textiles, and order these goods direct from the American government. The writer declares that owing to the decrease in the importation of certain kinds of war material, the character of the majority of the goods required and the impending extension by Americans of the port of Vladivostok, Russia can overcome the difficulty of transport.

The national encampment transacted its final business today including the election of officers. Automobile trips to Concord, Lexington and Cambridge were planned for the afternoon. Sessions also were held by the Sons of Veterans, Women's Relief corps, Ladies of the G. A. R. and Sons of Veterans' auxiliary. Comrades who

Summary of the Day's War News

Italy's great offensive on the Isonzo front is meeting with continued success Rome reports officially and her troops are proceeding toward realization of their objectives. Further ground has been gained on both the northern and southern wings. Austrian counter attacks of great severity are being repulsed. The Austrian losses in the first two days of the battle are computed unofficially in Italy at 30,000. The fighting on the Verdun front is dying down. The French objectives

On the French Front, August 23.—(By The Associated Press.)—The incendiary bombs which were dropped by two German aviators on two hospitals behind Verdun, on Sunday evening, killed ten wounded men, one woman nurse and nineteen trained male nurses.

They wounded forty-nine male nurses and inflicted further injuries on patients suffering from wounds received in battle, many of whom rushed naked into nearby fields in an attempt to find shelter from the bombs which were being rained down. Meanwhile the German aviators circled about in the air for half an hour firing their machine guns at hospital orderlies who were endeavoring to extinguish the flames. The nurses had just finished bandaging 180 wounded

RAILROAD UNION MEN OF BRITAIN END LONG TRUCE

London, Aug. 23.—The Central News says that all branches of the national union of railway men have been required by the men to instruct the executive committee to give notice of the termination of the truce agreement made in October, 1914, and demand an increase of one pound weekly in wages and a considerable reduction in working hours. The truce provided for settlement of all disputes without recourse to strikes.

THREE DAYS IN WHICH TO BOOM FOOD QUESTION

Washington, Aug. 23.—The food administration has designated August 23, 24 and 25 as educational days when public speakers throughout the country will disseminate information on food conservation.

Among the speakers obtained for meetings here are Herbert Hoover and Carl Vrooman, assistant secretary of agriculture. Among the phases of the food situation to be discussed are wheat and meat needs, dairy conditions, fat conservation and other conservation topics.

DRIED INSTEAD OF TINNED FOOD FOR THE ARMIES

Washington, D. C., Aug. 23.—Dried foods may take the place in a large measure of canned goods for the American army abroad. The subject was discussed by officers from the quartermaster's department yesterday with department of agriculture experts. Many officers favor substitution of dried foods for canned goods because of the advantage in packing and shipping. Representatives of the department are making experiments now in the drying of vegetables and the department is having taken a census of dry foods. Canadian food experts have been here for several days studying the subject of drying foods with a view of supplying the Canadian soldiers with large quantities.

Washington, Aug. 23.—The Japanese mission to the United States is devoting its first full day in the national capital to making formal calls on administration officials preparatory to the beginning of conferences at which the question of mutual co-operation between Japan and America in the war will be discussed.

The chief event on the program for the mission was a call by Viscount Ishii, ambassador extraordinary, and head of the mission, on President Wilson.

He bore a message of congratulation and appreciation to the president from the emperor of Japan and the people of Japan.

The program included calls on Secretary Lansing by Maj. Gen. Sugano and Lieut. Tanikawa, secretary, and Vice Admiral Takeshita and Commander Ando on Secretary Daniels.

A dinner at the white house by the president with Viscount Ishii, the guest of honor will round out the day's activities.

Among the more important measures he is expected to discuss with officials are the disposition of Japanese shipping with a view to making it of the greatest aid in the conduct of the war; ocean freight rates and the entanglement of Japan's naval activities.

Members of the mission today expressed themselves as greatly pleased over the cordiality of their reception in the United States and at the many evidences of good will.

Chicago, Aug. 23.—Figures available today showed that Chicago exemption boards have passed more than the number called in the first draft. The city's quota is 24,982, while 25,073 men have been accepted for service.

The men included in these figures will not all be taken, however, as only 49 of the 96 districts in the city have completed their quotas. The excess of men accepted in some districts will be held until the next draft. Those accepted are 27.2 per cent. of the total number examined.

HAIG'S DRIVE IN BELGIUM BRINGS HAPPY RESULTS

**Report Says It Is Now Possible to
Record Definite Success in the
Operations About Ypres.**

ITALIANS REPORT NEW GAINS IN FIGHT

British Front in France and Belgium, Aug. 23.—(By The Associated Press.)—Definite success can be recorded this morning for the latest British operations east and northeast of Ypres on the Belgian front, which yesterday were surrounded by much uncertainty owing to the fierceness of the resistance offered by the Germans.

TAKE 16,000 PRISONERS.

Rome, Aug. 23.—Furious fighting continues on the Isonzo front. The war office announces further gains for the Italians on both the northern and southern wings. The number of prisoners taken is more than 16,000.

AUSTRIAN LOSSES HEAVY.

Udine, Italy, Aug. 23.—Enemy losses during the first two days in the new Italian advance are calculated at 30,000 in killed, wounded and prisoners.

FRENCH ATTAIN OBJECTIVE.

Paris, Aug. 23.—The French objectives north of Verdun appear to have been attained. If the offensive were continued fresh artillery preparations would be necessary. The German counter attacks yesterday against dominant positions, such as Dead Man hill and hill 344, proved to be costly failures, leaving the French masters of

BASEBALL TEAMS IN ARMY DRILLS FOR CASH PRIZE

Chicago, Aug. 23.—Before the game at the American league park today players of the Washington and Chicago teams are to give an exhibition drill to demonstrate what they have learned about military evolutions during the season under army instructors. Col. Raymond Sheldon, U. S. A., has been appointed judge by Maj. Gen. Thomas H. Barry, former commander of the central department of the army, and upon his verdict will hang the awarding of the \$500 prize offered by President B. B. Johnson, of the American league, for the best drilled team. Colonel Sheldon already has attended competitive drills of the Philadelphia and Cleveland teams at Cleveland and the Detroit and New York clubs at Detroit and on Saturday he will go to St. Louis to witness an exhibition by the St. Louis and Boston players.

PRESIDENT HAS ANTHRACITE ON THE PRICE LIST

Washington, Aug. 13.—President Wilson gave consideration today to the problems of raising a coal administration and the fixing of wholesale and retail bituminous coal prices. Anthracite coal next will be taken up and prices fixed for that product. A speedy disposition of the task of formulating a definite policy to control the nation's fuel supply is expected by the officials. The president's visit to the trade commission yesterday when the whole subject of prices and production costs were gone into will hasten the completion of the work, it is believed.

NEWSPAPERS TO BE PRINTED AT AMERICAN FRONT

Washington, Aug. 23.—Suggestions are reaching the war department as to the advisability of establishing at once in the American army and abroad soldier newspapers to furnish the men with a brief resume of home news as well as publishable facts about what is going on in France. French papers are distributed in the French and British lines but American troops will be far from home and hear little of what is going on in the United States until American newspapers are available at the front.

MORE WOMEN AT THE PENNSY ROUND HOUSE

Engine Wiper Gangs and Material Distributors to Be Installed.

F. S. Doriot, chief clerk at the master mechanic's office, who makes the assignments of women as they apply for employment at the Pennsylvania shops, has taken up the task of selecting and putting at work twenty additional women at the round house. It is the intention of the round house management to install a gang of women engine cleaners as soon as a sufficient number of women are secured. This is light work, although considered "dirty," and can be performed by women as well as by men. A comfortable rest and toilet room has been established just east of the round house with a private walk and entrance indicating that it is for "women only." Other work at the round house that women can perform is distributing material and cleaning up in the house and yards. Arrangements have been made to keep the women in gangs by themselves as far as practicable. Application for employment there as in other parts of the plant is made at the master mechanic's office. There are many applications on file and the demands of the round house will be filled speedily and without difficulty.

COM. NORDSTRUM TO RESIGN.

Because of business which interferes with his duties as commodore of the Lake James Motor Boat club, L. D. Nordstrum has handed in his resignation and a new commodore will be chosen. It is the intention of the club to have boat races and other events at the lake on Labor day, similar to the big regatta pulled off there last year, and the arrangements for this event will require more time than Mr. Nordstrum has to devote to it. Hence his resignation now, to give the new commodore plenty of time to organize his forces for the regatta. Mr. Nordstrum occupies an important position at the General Electric works.

LOST PART OF FINGER.

Tony Watson, an operator in the punch department at the General Electric works over which Otto Nahrwald has jurisdiction, met with an accident at 8:30 o'clock this morning which resulted in the amputation of the index finger of his right hand at the first joint and the mangle of the flesh of the second finger. The patient was taken to St. Joseph hospital, where Dr. F. J. Schulz amputated the index and dressed the second finger. The latter will be saved, the surgeon says.

GOES TO CAMP MONDAY.

Next Monday John C. Green, a tester at the General Electric works, who passed the preliminary examinations and received notice of his acceptance in the officers' reserve corps, will go to Fort Benjamin Harrison to take up the work. Mr. Green was with the troops on the border during the threatened trouble with Mexico. He resumed his duties at the factory yesterday after a visit with his sister in Columbus, Ohio.

TO PITTSBURG ON BUSINESS

Superintendent Otto Schroll and Master Mechanic E. E. Griest, of the Pennsylvania, went to Pittsburgh last night, where they attended a meeting of railway officials today. They will return tomorrow.

HAD FINGER CRUSHED.

O. E. Wood, crane director at the Pennsylvania erecting shop, sustained an injury Tuesday night to one of his fingers.

J. A. Stover, of the General Electric works meter test department, has returned from a week's vacation at Clear Lake.

Agent F. A. Austin, of the New York Central and L. E. & W., says the latter company carried 500 people to Fort Benjamin Harrison last Sunday.

The Wabash railroad will take the Springfield ball team to Peoria tonight and bring the Dayton team from Peoria to Fort Wayne tomorrow morning.

Mr. and Mrs. R. B. Evans and daughter are attending the Chautauque at Richmond this week. Mr. Evans is a passenger conductor on the G. R. & I. road.

Mr. and Mrs. Arthur J. Getz went to Nottawa, Mich., last night, where he will spend the remaining days of his vacation term. Mr. Getz is a clerk in the G. R. & I. office.

Agnet F. A. Austin, of the New York Central, has returned from his old home in Michigan, where he spent a day or two closing up personal affairs preparatory to moving here.

Coal movements are on the increase, going from the mines to the consumers. An unusual heavy train of eastern coal—sixty cars—passed through the city over the Nickel Plate yesterday.

Edward W. Koehn, a foreman of one of the departments of the Pennsylvania machine shop, is taking a day or two off duty to look after some personal matters.

J. S. Gamble, assistant engineer at the G. R. & I. offices, has arranged to return to Camp Benjamin Harrison tonight to take up the second stage of his examinations and training for army service.

A welcome caller at the Pennsylvania machine shop this morning was Lieut. Carl S. Hoffman, who spent an hour or two with the boys who were his shopmates three months ago before he went to the officers' camp.

Machinist Charles H. Knothe, who was off duty yesterday on account of the accident and sickness of his father, C. F. Knothe, resumed charge of his lathe at the Pennsylvania machine shop this morning.

Mrs. Fred Mailand is at Clear Lake to spend the week. She will be joined by her husband Saturday, who will spend the week-end there and then bring her home. Mr. Mailand is a machinist at the Pennsylvania machine shops.

Mrs. Dignan, wife of Engineer R. M. Dignan, of the G. R. & I., is recovering from severe injuries sustained in a fall at her home last Friday morning. The family reside at 2707 Weisser Park avenue.

The Pennsylvania company is handling a special train between Colver and Chicago today for the accommodation of students residing at Chicago and points west of that city. There will be several hundred in the party.

Max C. Zeissig, who has charge of the maintenance of machinery in the Pennsylvania planing mills and the car machine shop, left yesterday for Nebraska, where he will remain two weeks. He is accompanied by his family.

J. H. Laner, whom his office comrades call the editor of the "Baker Street Gossip," writes from Rome City that he "is catching all kinds of fish" and is incidentally replenishing his store of fish stories. He is having a good time. Mr. Laner is employed in the G. R. & I. offices.

Ross Kennedy, stenographer and clerk in the office of Division Storekeeper J. B. Fowler, of the Pennsylvania, is on duty again after a two weeks' vacation, the first week spent at Detroit and the second one at Clear Lake. Mr. Kennedy expects soon to take a furlough and take up service with the government. He is one of the drafted men.

SALONIKA FIRE IS A GREAT DISASTER

Sixty Thousand Persons Homeless and Losses Are Enormous.

London, Aug. 23.—The first detailed account of the disastrous fire at Salonika last Sunday is contained in a Reuter dispatch from that city which says 60,000 persons are homeless and that the property loss is enormous. Insurance companies are interested to the extent of \$3,000,000.

The military rendered all possible aid but the scarcity of water made it almost hopeless to attempt to subdue the flames. Refugees are camping on the outskirts of the town. The destitute are being cared for by the military authorities, the British having 30,000 in their charge. Food and fresh water are very scarce.

Three enemy airplanes flew over the city and dropped bombs while the fire was burning.

Advertising in The Sentinel

Lowers the Cost of Selling

This is not a time for haphazard business methods.

Clear thinking must convince you that advertising lowers the cost of selling and consequently it lowers the cost of a product to the ultimate consumer.

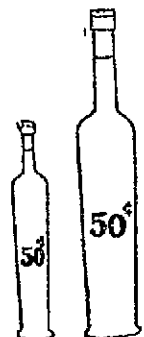

Advertising is the greatest price reducer of business. It brings increased demand and thus allows for economies of large production and broad scale buying. This decreases proportionate overhead. Advertising is equally effective for distributing or retailing. There is no honest product whose selling cost and hence its selling price can not be reduced by advertising of some kind. And there are very few propositions that can not be profitably merchandised through The Sentinel advertising.

The Sentinel realizes the waste of carrying advertising that does not bring profitable results. This is not a time for careless business. If The Sentinel believes your business can be helped through its advertising columns, every effort will be made through the soliciting force to show you the merits of Sentinel publicity. On the other hand if The Sentinel is convinced that its advertising will not pay you, The Sentinel will tell you so just as frankly.

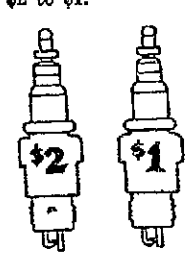

Sentinel expert advertising men are at your service and ready at all times to help you solve your merchandising problems. Do not hesitate to call for one of them.

An "International" Business Training

Mr. Fred Sutherland
came to the "International" from South Whitley, Ind., successfully completed a combined course, and is now holding a splendid position in the M. & W. department of the Pennsylvania Railroad Company office. Preparation is the first step toward a responsible and well-paying position.

Miss Made Clark
is a Fort Wayne girl who enrolled for a Stenographic Course at the "International." She attended the night school for a while and then completed her course in the Day school, at which time she was placed in a good position with the Trade-Mark Title Co. While there she received a flattering offer from the Pennsylvania Railroad Co. and is now in their employ.

Miss Lulu Whitaker, Hartford City, Ind., enrolled with the "International" for a Stenographic course, successfully completed same, and was placed by the Employment department of the college with the Dreihelms Abstract of Title company, where she holds an excellent position. Many more young ladies should prepare for business.

Mr. Homer Voght is a Huntington boy who enrolled with the "International" and began his course at home through the Extension department. Later, he spent a short time at the college, finished his work, and was placed in the office of the Fort Wayne Iron Store company—one of Fort Wayne's most progressive concerns—where he has splendid opportunity for advancement.

Miss Mary Brown is a Fort Wayne girl who, after completing the eighth grade enrolled in the "International," successfully completed her course and was placed by the Employment manager of the college with the Medical Protective company. Miss Brown's friends will be pleased to know that she has "made good"—it is typical of "International" graduates.

Mr. Charles Harkenrider, city, completed a course at the Catholic Central High School and enrolled with the "International" for a combined Business and Stenographic course. Mr. Harkenrider proved to be a most apt student and is today holding a very responsible position in the office of the Board of Public Works, Fort Wayne, Ind.

Miss Elizabeth Knothe, city, is another girl who upon completing her work in the eighth grade enrolled for a course with the "International," finished the work in both the Business and Stenographic departments and is now holding a responsible position in the Recorder's office at the court house.

Miss Helen Schele, city, completed an academic course in the St. Augustine's Academy, entered the "International," successfully completed her course, and was placed by the Employment department of the college in the office of the Trade-Mark Title Co. After working for this firm several months she received a splendid offer from the Fort Wayne Box Co., and is now in the employ of this latter concern.

Mr. Ora Smith is a Fort Wayne boy who realized that Business offered exceptional opportunities and accordingly enrolled with the "International" for a general business training. Having successfully completed his course he was placed by the Employment manager of the college in the office of the Northern Indiana Gas & Electric Co.

Mr. Eli Becker came to the "International" from Woodburn, Ind., and enrolled for a complete business course which, on account of purely personal matters, he was forced to pursue at various times. He recently completed his work, and upon graduation was placed by the Employment department of the college in the office of the Pennsylvania R. R. Co. A Business Training and a little ambition always win.

Miss Margaret McCarthy is a Fort Wayne girl, who, after completing an academic course at the St. Augustine's Academy, enrolled with the "International" in the Stenographic department. Successfully completing her work she was placed in a splendid position with E. Gilmartin & Sons. An "International" graduate is an "International" booster—talk to Margaret.

Miss Alice Moody is a high school graduate from Winchester, Ind. She enrolled with the "International" last fall and finished a complete combined course. Her work was highly satisfactory and upon completion of same she accepted a A-No. 1 position in the governor's office, Indianapolis, Ind. An "International" Business Training is the gateway to opportunity.

Mr. Hobart Henry came to the "International" from South Whitley, Ind., and enrolled for a complete course of study. Upon graduation, he accepted a splendid position with the Double Fabric Tire Co., Auburn, Ind. While Fort Wayne boys work in stores and factories, country boys prepare for the positions with a future.

Mr. Russell Cunningham of Portland, Ind., is another young man who came to the "International" from out of the city, enrolled for a complete Business Training, and upon completion of his course accepted a splendid position with the Guardian Savings & Trust Co., Cleveland, O. A Business training is the first step towards a career worth while.

Miss Alice Boyce of this city, took some time to arrive at a decision as to whether or not it would be profitable for her to leave her profession as teacher and prepare for the profession of Business. She enrolled, completed her course in a highly satisfactory manner, and was placed as secretary to Dr. J. M. Dinnen. Ask Alice if it paid her to change professions. It is what you can do—practical ability—that counts.

Miss Nell VanVoorst is a high school girl from Columbia City, Ind. She very successfully completed a combined Business and Stenographic course of study, and was placed in the employ of the Stults Motor company, which firm offers her plenty of opportunity for advancement.

Mr. Eugene Phipps is a young man whose home is in this city. He enrolled for the complete course, finished it and was placed in the office of the purchasing agent of the Pennsylvania R. R. Co., western division. It is not only Mr. Phipps present position and his present fine salary that are to be considered—think of the opportunity he has to get in touch with the "Big" Business.

Miss Roberta Mosman of Bluffton, Ind., enrolled with the "International" for a Secretarial course. She completed same in a very satisfactory manner and upon graduation was placed in the employ of the local office of R. G. Dunn & Co. Miss Mosman is one of many young people who every year come to Fort Wayne from out of the city and accept splendid positions in our midst.

“A classical education may help you to earn a living and it may not, but a good business education always does. GRADUATES OF GOOD BUSINESS COLLEGES ABSOLUTELY WITHOUT EXCEPTION HAVE PAYING POSITIONS AWAITING THEM. They do not have to beg, borrow, steal or stand in the bread line.”
—Late Elbert Hubbard.

Every "International" Graduate Secured a Position

Any boy or girl, young man or woman, having an eighth grade education or higher and completing a course of training at the "International" is absolutely guaranteed a satisfactory position through its Employment Department without extra charge.

Further, boys, young men not called to the colors, girls and young women should prepare for positions in Business. It is a DUTY because of the increasing demand for help in both Government offices and in the offices of Private Business, and an OPPORTUNITY because of so many excellent positions.

Parents Should Be Especially Interested Because

a Business Course does more than assure your boy or girl a good position—it trains them, disciplines them and puts them in the way to SUCCESE.

“The studies are practical; the work is interesting. Students soon see this—they realize the importance of appointments, the full meaning of responsibility, and the consequence of unfair play. They develop into men and women who do things in a business-like manner. This training is in itself argument enough in favor of Practical Business Training were arguments necessary.”

“Men and women holding the high positions today were the clerks, bookkeepers, stenographers, etc., of a few years ago. The successful men and women of tomorrow will be the young men and women who prepare NOW. Success is a growth.”

“How many fathers and mothers there are today who feel that they would have accomplished 'Bigger' things had they been given an opportunity to prepare when they were young? And these same parents do not want their children to have to say the same thing as they grow older. This is a day of OPPORTUNITY that did not exist when you were young. Capitalize YOUTH for your children, and prevent the possibility of regrets.”

“A Business Training is the best insurance policy a father can buy for the benefit of those dependent upon him. Preparing a boy and girl to make their own living, help support a mother, brother or sister is of far greater value than leaving a few dollars which would soon be spent. And the cost of a Business Training is trifling compared to the cost of insurance with its constantly recurring, 'premium-due' notices.”

“Come up and investigate the "INTERNATIONAL" Courses of study; it will cost nothing, nor need you feel obligated in any way. Glad to have you become acquainted with the "International"—its management, faculty, courses, work, rates, etc., etc.”

Mr. Charles Kelly came to the "International" from Casey, Ill., enrolled for the complete Commercial course, finished it and is now holding a splendid position with the Moellering Construction Co. Other young people are coming from Casey to attend the "International" this fall.

Miss Mabel Rhinehold of Auburn, Ind., had just completed some work at the Indiana university when she decided to prepare especially for Business. She enrolled for a complete combined course taking Stenotypy instead of Shorthand and upon graduation was placed in a very fine position with the Lincoln Life Insurance Co. Miss Rhinehold is very optimistic about the future.

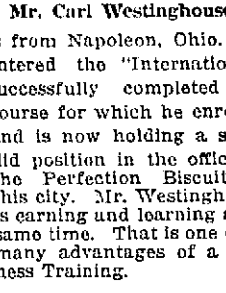

Mr. Lawrence Hess of Fort Wayne, entered the "International" immediately after having completed the eighth grade. He finished the work of the combined course and was placed in the M. & W. department of the Pennsylvania Railroad Co. Lawrence makes more money than he could elsewhere, will gain the most practical kind of an education, and has a chance at a future which few boys have. Watch him!

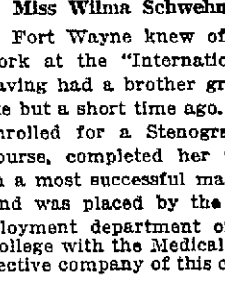

Miss Clara Mesing attended the local high school one year when she decided in favor of Business and entered the "International." Completing her work in the Stenographic department in a most efficient manner, she was placed in the office of the Medical Protective company. We predict very rapid advancement for Clara.

Mr. Donald Fleightrier came to the "International" from Montpelier, O., and enrolled for a complete Stenographic course. He finished his work and was recommended by the Employment manager of the college for a position in the offices of the B. & O. R. R. Co. at Chicago Junction. Mr. Fleightrier is wise because it is the young man who prepares today that will be the "big" man of tomorrow.

Mr. Carl Westinghouse is from Napoleon, Ohio. He entered the "International," successfully completed the course for which he enrolled, and is now holding a splendid position in the offices of the Perfection Biscuit Co., this city. Mr. Westinghouse is earning and learning at the same time. That is one of the many advantages of a Business Training.

Miss Wilma Schwehn of Fort Wayne knew of the work at the "International," having had a brother graduate but a short time ago. She enrolled for a Stenographic course, completed her work in a most successful manner, and was placed by the Employment department of the college with the Medical Protective company of this city.

Miss Anna Traub is a young lady of Fort Wayne who, becoming dissatisfied with the routine of housework at home, decided to prepare for the profession of Business. She completed a combined Business and Stenographic course in a most efficient manner and was immediately placed with the Fort Wayne Dental Depot. Ask Miss Traub her opinion of a Business course.

Mr. Edward Spiegel came to the "International" from the local high school and enrolled for a Stenographic course, which he completed most successfully. Mr. Spiegel was placed in the offices of the G. R. & I. R. R. Co., where he is making splendid progress. Stenography not only pays from the beginning but opens the way to still better things.

Mr. Frank DeVille completed his eighth grade work and entered the "International" for a complete Stenographic course. Frank's success in his work combined with his pleasing personality easily won for him when the Employment department recommended him for a splendid position in the offices of the E. & O. R. R. Co. A good beginning is success half won.

Miss Esther Pevort had completed two years' work at the Fort Wayne High School when she entered the "International." She completed the Stenographic course and was placed with the Paragon Coopers Co., where, according to latest reports she is making splendid progress. An investment in a Business training pays big dividends and pays immediately.

MORE UPON INCOMES.

Once more the senate returns to incomes as the object of increased taxation for the war. New amendments to the revenue bill offered by Senator Gerry, of Rhode Island—himself a wealthy man and representing an enormously wealthy constituency—will add about seventy-five millions to the federal income for war purposes. The Gerry provisions increase the surtax on great incomes, those that range from a half to three quarters of a million dollars being hacked into by the bill.

That is fair, just and beneficent. There is a point where war ceases to be a burden and becomes a source of profit. Wealth invested in industry upon which the prosecution of war must depend is augmented enormously by the government's purchases. Such wealth ought to be made to divide equitably to support the government in war. It does not suffer any depletion of its substance; the rather in that respect does it gain. It suffers only in that its growth is halted somewhat. The increments due to war are abnormal and ought to be freely levied upon to carry the war along. Lower down the scale of incomes war is a burden. This is true in respect of those who work for wages and small salaries, who have no investments in any business that profits from war and who must meet increasing costs of living that outrun increases in compensation to labor.

Moreover, it should be the settled policy of government to levy upon wealth increasingly according to the volume of its income. The piling up of inconceivable masses of wealth, the creation of titanic estates and the concentration of riches into fewer and fewer hands are against a wholesome policy. The essential principle of this is definitely recognized in the income and inheritance taxes of the nation and many of the states, but it is not employed to the extent that it should be. The war affords occasion to establish this principle in better operation than has been the case and the revenue bill now before congress goes a considerable distance in the right direction.

The voice of some of the radicals that all the financial burden of the war should be shifted upon wealth gains little hearing. The noise comes in large part from statesmen who for one reason or another are no strong supporters of the government in the war. They want to hamper and embarrass the government and create hostile feeling in the general mind against the war and its supreme objects. It should be considered that the war has only begun and that as it goes on and its prosecution increases the need of the government for more and more money the government will be forced to levy higher and higher taxes. Within a year wealth and war profits will be levied against in a fashion that will afford anybody small ground for complaint. It has been so in Great Britain and there is no reason to suppose that similar stresses here will result in dissimilar recourses.

RECOGNITION IS DUE.

This from the Chicago Herald we believe will strike a note of approval in the bosom of every patriotic citizen of the republic:

Examination of men chosen for the national army being practically over, it remains at least to offer the thanks of the community and of the country to the examining boards. In the very nature of things the men chosen for those boards had to be, in the main, citizens of real value, and, being such, always busy men. Yet for weeks they have given a large proportion of their time and a huge amount of labor to a task which called for delicacy, judgment and the steady exercise of common sense. Group after group has stood the test.

Perhaps our thanks should go, above all, if there is to be any distinction, to the medical examiners. Their job was not easy. Detection of the few men who tried to evade the requirements was the smallest of their responsibilities. In spite of chatter nearly everybody examined brought honesty and straightforwardness into his replies. The business of the doc-

tors was all the harder—to decide justly who was really qualified and who was not. Each one has examined literally thousands, putting them through severe tests. The necessity of hurry has been preached constantly, and they have hurried, which has made their effort to be right and reasonable still more of a strain. Yet those accepted and those rejected alike, in the majority of cases, seem to think the decision was intelligent and fair. That unanimity of opinion is a real triumph for the medical examiners.

Who, as a matter of fact, who visualized to himself the difficulties, ever dreamed that the decision of the government to employ the draft could possibly have been so quickly and so smoothly carried into action? Granted that had an enemy been approaching our shores, the delay would have been fatal, it remains true that under the circumstances the getting together of material for the new army has been accomplished in an amazingly frictionless fashion. If the training can be accomplished as well and as rapidly in proportion to its difficulties the country will have asserted its efficiency and its unity in a manner that future historians will marvel at.

And for their services, we repeat, in this mighty job, the examining boards ought to have the intelligent and heartfelt gratitude of us whom they have served.

The task is not yet completed over the country. Here and there, where the volume of work has been vast and in many respects more than commonly difficult, the boards still have much to do; but the bulk of the job is accomplished and we believe the general verdict will be that it was thoroughly discharged and high patriotic service that the boards have rendered to the nation. What can be done to acknowledge the country's appreciation of this for the most part thankless task should neither be grudgingly given nor tardily bestowed. The thousands of men who have given their time and energy to this trying work have been obliged in most instances to do so at a sacrifice.

DISPOSING OF GARBAGE.

Mayor Hosey's suggestion of a municipal hog-lot as a profitable means of garbage disposal may have some points of merit as a war measure, but we do not believe the people of Fort Wayne will care to adopt that as the permanent method of taking care of city waste. It is true that some cities have employed this method, though not with wholly satisfactory results in any case that we know of.

There is for one thing the objection that all sorts of garbage do not answer for the feeding of swine. Household refuse will not be uniformly palatable to keep out of their garbage cans a good deal that should not go into them if the contents are to be transported from alley gates to the municipal piggery. There will have to be some supplementary means for the disposal of what pigs cannot or will not eat. Of course the city already has the old incinerator for that purpose, though there has been some sort of public aspiration here during the past five or six years that eventually—if not now—this ornamentation of the entrance to a public park might be dispensed with.

The ashamed person who anonymously communicates with this newspaper to propose that the inadequacies of a hog-lot be overcome by supplementing it with a goat pasture and an ostrich farm, is perhaps merely attempting to be jocose with a grave matter by suggesting that the goats can devour the tin cans and waste paper and the ostriches can keep going nicely on the broken glass, earthenware and discarded hardware that in large quantities find their way into garbage cans. But with hogs selling at \$20 or more a hundred on foot the proposal that the municipality go into the enterprise of fattening pigs on the nutritious waste of households is no matter of levity. It might go far to piece out the lamentable shortage of city revenues.

President Wilson fixed the price of coal on one day and on the next day coal dropped variously from \$1 to \$1.80 in the price per ton on the Chicago retail market. It is probable that in many other places there were similar reductions of the price and that where there have not been as yet there soon will be. The Chicago dealers assert that the cutting down of prices at the mine means the cutting down of prices to the consumer and they show a good way to prove it by cutting down. Meanwhile, the mine barons, the middlemen and the retailers have the whole field to themselves in which to fight out the disputed question of blame for the high prices. The public is no longer much interested. If the price is down where it can be reached by the average pocketbook, there will be no disposition to quarrel much with the question of guilt for the rapacities of the days gone by.

If President Wilson gets a good start and keeps a fair tail-clutch on control of fuel at the mines, we doubt that any drastic degree of regulation farther along the line will be necessary. One solitary example can be made to go a great way.

About once a month there is a conviction in the city court for motor speeding. Why this occasional tyranny?

Suppression of Sedition

(Christian Science Monitor.)

The sentiment expressed in different parts of the United States today, with regard to seditious utterances and acts, makes it evident that a crisis in the treatment of this particular problem is rapidly approaching, if it is not already at hand. Ellhu Root dealt with the situation in terms that must have recalled to his audience, and to thousands throughout the country, the declaration that, more than half a century ago, stamped John A. Dix a hero and a leader. "How long," asked the Pittsburgh Post last Tuesday, "will the American people permit the liberty of this country to be used for its destruction?" and, for one thing, it pointed to the toleration of Mayor William Hale Thompson's organ, the Chicago Republican, which has been preaching seditious day in and day out for months past. On Thursday the question was partly answered by a public uprising against the circulation of that publication in Aurora, one of the larger Illinois towns adjacent to the city named. "We represent the merchants of Aurora," said a spokesman for the indignant citizens to an agent of Mayor Thompson's newspaper, "and demand of you not to distribute any more of these papers in this town. We have sent many of our boys to fight for their country, and we are going to protect our cities while they are gone."

Thus we have a voice from the east and one from the west. The sentiment is heard through the Duluth Herald and the St. Paul Dispatch. The former marks as dangerous those who oppose sending troops to Europe; those who seek to undermine its efforts by attacks upon its allies; those who spread reports likely to hamper the nation's war plans; those who "keep within the law" while secretly aiding the enemy. The latter journal says: "Just now there can be no such thing as the free speech which counsels resistance to the laws." "Minnesota always has been loyal. Today it will yearn to vindicate that loyalty by

bringing to sharp justice the enemies in its borders whose presence and activities have tainted its fair name."

In the south and southwest, but one opinion is expressed with reference to the treatment that should be accorded the organizations engaged in the incitement of strikes. In the Pacific northwest, the Oregonian is pronounced and unceasing in calling for drastic action against the People's Council and the I. W. W., both of which is denounced as seditious organizations. Speaking of the first named, it says: "This organization is in the same class as the German spy who has been arrested at Seattle, and to whom is ascribed the initiative in the industrial troubles which disturb the state of Washington; also with the misguided people who resist the draft in Oklahoma; also with the I. W. W., which has done much to paralyze industry in the lumber districts of the Pacific coast and in the copper mines of Arizona and Montana. All are anti-American and pro-German in effect, probably in intent." In the opinion of that section of the German-American press which is persistently striving to stir up discord and disorder in the United States, is to "eradicate it."

It may be thought that the language used by some newspapers published between the Alleghenies and the Pacific coast in dealing with sedition tends to be violent, but it may be pointed out that it is no more so than that which the Union League club of New York enthusiastically applauded a few nights ago. Moreover, investigation carried on in the New England states reveals the necessity of quite as much watchfulness, on the part of loyal citizens, as appears to be essential in the mining section. The south is as insistent as the north upon prompt and positive action that will protect the republic from its enemies within. And the government has given assurance that it will act in due time, and with necessary vigor.

U. S. MAY SEND 2,000 FARMERS TO FRANCE TO FEED THE TROOPS

BY MUTTON BRONNER.

If the war department puts its o. k. on a proposal recently made to it by some of the best agricultural authorities in this country, Uncle Sam will soon have over 2,000 expert farmers "somewhere in France" arranging a big war farm to feed the American armies.

There are great landed estates in France not being farmed because of lack of men, fertilizer and farming implements and because of the difficulty of clearing off the soil, especially in regions recently occupied by Germans. These estates could be utilized by Uncle Sam, by agreement with the French government and the owners of the land. At present every pound of food consumed by American soldiers in France has to be shipped from here, when every inch of space in ships is more valuable than diamonds.

It is claimed by the proponents of the farm plan that 2,000 expert farmers, who would volunteer for the work, could cultivate enough soil to produce practically all the vegetable food the American army would need. They would not only raise wheat for bread, but oats for horses and mules. Corn could be raised both for animal and human food. Fresh vegetables also could be grown, including potatoes, onions and cabbages, all parts of the regular American army ration.

Such a farm would make the army very largely independent of any German submarine attempt to interfere with its food.

Supply ships from this country to France, if the food farm were in operation, need carry only staples like sugar, coffee, tea, salt, pepper and meat. This would give the government far more space for carrying clothing, ammunition, rifles, etc.

If the plan is put through, in addition to 2,000 volunteer farmers the first ship would carry quantities of fertilizers, agricultural implements, stump pullers, etc.

It is also claimed for this scheme that as the armies in France grow bigger it would be possible to send more volunteer farmers and take over more land. It is figured that 2,000 men can cultivate enough land to supply vegetables for 200,000.

GO FORTH AS CITIZENS.

(Grand Rapids Press.)

Present plans for the equipment of the members of the new national army provide that the men shall leave their homes for camp clad in their civilian clothes, the uniform and accoutrements of the soldiers being issued at the cantonments. The men will go forth from home just as they have been known and just as they will be remembered by the people here. In the civil war both the northern and southern soldiers left their homes generally unformed, but the army that presently

will be assembled by the United States will be in every sense a civilian army and it is appropriate that it should go forth in civilian garb.

The transfer from civil to military life will be attended by preliminaries calculated to prevent serious disruption of family and business relations on the part of the selected men. While they are waiting for actual transportation to the cantonments the men will be permitted to remain with their families and at their work until the very hour of their departure for service. The transition from one mode of life to another will take place elsewhere than at home.

The guiding thought in the arrangements for assembling the national army has been that these men are citizens assigned to duty in the ranks; that they are selected for their capacities and detailed for the work of soldiering, the necessary work which, though dangerous, is not shirked by any true patriot but is even sought with eagerness by many of them. There is honor in the selection for this duty. This fact needs no argument with those who have offered themselves, but it will impress them with the knowledge that their country also recognizes it if plans are made and carried out for a fitting farewell when they depart.

feel the relief you desire. Many of my patients report quick results without any harmful action whatever.

"Fanny" writes: "Two years ago I used your great prescription for kidney trouble and it wholly overcame the trouble. I want medicine now for constipation and impure blood for I am a sight with pimples that make big lumpy sores."

Answer: I would advise the taking of three-grain sulphur tablets (not sulphur) for several months to purify the system.

Ellen J. asks: "Tell me, please, how I can increase my weight and improve my color. I seem to be anemic, weak and tired all the time."

Answer: Begin taking three-grain hypo-nutrient tablets with your meals and soon you will feel your strength returning and gradually your weight and color will improve. This is a most effective remedy if persistently used.

NOTE: For many years Dr. Baker has been giving free advice and prescriptions to millions of people through the press columns, and doubtless has helped in relieving illness and distress more than any single individual in the world's history. Thousands have written him expressions of gratitude and confidence.

Dr. Lewis Baker, Dear Sir:—I am glad I was recommended to your prescription for medicine. I was pretty well run down, nervous and lost of ambition; felt tired all the time. I would advise half-way tablets, a compound well suited to such cases. Obtain in sealed tubes with directions for home use.

C. J. R. asks: "Can I safely reduce my weight, and how?"

Answer: Go to a well-stocked druggist and get five-grain arbolone tablets in sealed tubes with complete directions. Take as directed, and you should soon

Uncle Harry Tells About the Tremendous Money Cost of Three Years of War

"You said you'd explain to us about the cost of the war in dollars, Uncle Harry: will you tell us tonight?" said Jimmy.

"I can give you some figures that will be so big they will make your head swim," said Uncle Harry. "But it will be difficult for me—it would be difficult for anyone—to put these figures in sums of money that you or anybody else could really and truly comprehend—understand."

"Do you know how much money the war has cost all the nations in the three years that the fighting has been going on?" asked Helen.

"About one hundred billion dollars," said Uncle Harry. "Think of it, children, one hundred billion dollars!"

That's 100 and then three more 000's, then three more 000's and then three more 000's and if you put in the decimal for cents that means two 00's, or altogether \$100,000,000,000.00.

"And the United States is planning to raise and spend more billions," added Joe.

"Yes, this country will have to raise even more money than was planned at first," said Uncle Harry. "If the war continues for a year from the time the United States entered, this country's war bill for the first year will probably be \$10,000,000,000. Why, England alone is spending about \$10,000,000 every day—every twenty-four hours, on the war, and altogether the war is costing all the nations that are in it, more than \$100,000,000 every day—and every day the cost of fighting goes higher."

"What's all this money spent for?" asked Helen.

"Well, first, think of, say 30,000,000 men; there are at least that many men in the armies of Europe, and not one of them is producing a pound of food of any kind, or making a yard of cloth, or a pound of steel, or an ounce of powder, or a single particle of any of the hundreds of things that he uses in his daily life of living and fighting. But all the tremendous quantities of supplies that must be provided for the soldiers every day, must be produced and carried from wherever they are grown or made to wherever the soldiers are fighting. Just think of the food alone, or the ammunition for the men's rifles; or the high explosive shells for the big guns! Think of the coal that must be supplied for the trains and ships carrying supplies and soldiers! Think of the gasoline used every day by thousands of automobiles and aeroplanes in the armies!"

"I guess it's the most costly war the world has ever known, isn't it?" asked Joe.

"No war in history is to be compared with it," said Uncle Harry. "It

tax the people. Why, the other day I read an article by a financial expert who said that if the experience of England in the last 200 years in paying national, that is, governmental, debts, is any indication of what will happen in the years to come, it will be safe to say that a thousand years in the future the English people will be paying taxes to raise the money to pay the interest on the debts created by this war. And what is true of England is true of France and Germany, and in a measure true of the United States and Russia and Italy and Austria and all the other countries in the war."

"And all this money is being spent just for the war; how about the rebuilding of the cities destroyed, and repairing all the other damage done to the countries?" asked Joe.

"That's correct, Joe, after the war there will be demands for billions more," said Uncle Harry. "Much that has been destroyed can be replaced—bridges, railroads, many of the buildings and homes. But there are also many, many very old and historic buildings that contained priceless books and other relics that can never be replaced—they have been lost forever."

"The cost of this war will be another reason for lasting peace when peace does come," Uncle Harry added, "and the world counts up the total bill and studies it along with the almost endless list of men, women and children killed and crippled. These will be two awful bills."

Editor's Note—Uncle Harry will be glad to answer inquiries, either in this column or by mail, provided letters are signed with the full name and address of the persons writing. The correspondents' names will not appear in the articles.

THE KAISER'S PLANS TO RULE THE WORLD

Americans Must Help to Defeat Germany or Later Gringe to Her.

(Staff Correspondent of The Daily Sentinel.)—Passed by British Censor. Cambridge, England, Aug. 10.—What is the German nation really fighting for today?

And how would the attainment of those objects menace the United States? I put these questions to Sir Charles Waldstein, Cambridge university, inter-

national authority, whose recent book, "What Germany is Fighting For," has attracted world notice.

He has had special facilities for obtaining authoritative German documents regarding the "Treaty" war aims, was in closest touch with German policies long before the war and can recount personal conversations with German leaders from Metterich and Prince Bulow to the Kaiser himself.

"Do not be deluded," Sir Charles began, "by conflicting war statements by irresponsible German extremists.

"In stating the true German plans of aggression I follow closely a notable manifesto by Prof. Dietrich Schafer, in 'Das Grossere Deutschland' of Jan. 27 and Feb. 6, 1917.

"First, as to France, the Germans fully expect to keep the invaded districts.

"Second, as to Belgium, even Hans Delbruck and the extreme anti-annexationists have failed to recognize Belgium's right to full restitution, much less reparation. Even they threaten Belgium with division.

"Third, it is certainly a German war plan that the parts of Russia and Poland now held must be retained.

"Fourth, there is the distinct project of a middle European empire from the Belgian and Baltic ports to the Indian ocean.

"What would then be the direct menace to America?

"Three possibilities would arise, with British naval power destroyed, and incorporated in that of Germany.

"First, they would consolidate the German empire itself, greatly enlarged and strengthened. Their commerce and industrial power would soon overshadow all rivals. They would organize their trade routes through central Europe, the Balkans and Turkey, to the Persian gulf and develop an African empire.

"In the second place they would extend their power to the far east and come to terms with Japan.

"But in the third place—if not at once—their expansion westward would lead to conquest in Central and South America. As the United States has entered the war, I firmly believe this would be their first venture.

"IT WOULD LEAD TO AN IMMEDIATE VIOLATION OF THE MONROE DOCTRINE, AND FURTHER ARMED CONFLICT. BUT THE GERMAN EMPIRE, MORE POWERFUL THAN EVER, WOULD BE INVINCIBLE.

"I have reason to know definite plans for this conflict are now on file in the offices of the German general staff, and have been for years. They include attacks on the coast cities of the United

States and devastating raids into the interior. This policy could be carried on, were Germany now victorious, for more years than the United States could resist.

"So it is perfectly correct to say that America is today fighting not only for the great principles of humanity common to all her allies, but also in immediate self-defense."

FEATURE PARADE ON ROMP DAY

The Annual Feature Parade will take place on Romp Day. Both boys and girls will join in this parade. Tickets have been given out in former years and the bicycles awarded by chance. This year the costumes will win the bicycles, tricycles, etc. Therefore, only those dressed in costume can compete for the prizes. It is but just and fair that those who dress up should receive the gifts. There are two bicycles for boys, one for a large boy and one for a small boy, and two bicycles for girls, one for a large girl and one for a small girl. There is one extra fine rubber tire tricycle for girls and one extra fine rubber tire tricycle for boys. There are nine other tricycles, twelve doll cars, also a child's study desk and chair. This list comprises twenty-eight grand prizes, all of which will be awarded the twenty-eight costumes selected by the judges. Each participant will receive an American flag to carry in the parade. The line-up will be on the river side of the pavilion, between 4 and 4:15 p. m. Headed by the band playing "Hooray for Uncle Sam," the column will move to the grove band stand, where the prizes will be awarded.

SOCIETY

YOUNG PEOPLE ENGAGED TO WED.

MISS VALLETTE ROUSSEL.

ELMER J. GROSH.

Mr. and Mrs. Frank Roussel, of 1020 West Main street, announce the engagement of their daughter, Vallette, to Mr. Elmer J. Grosh, son of Mr. Henry Grosh, of 2701 South Hanna street. The day of the wedding has not been set as Mr. Grosh has been certified for the first draft. Mr. Grosh

is a partner with his father in the grocery business in Hanna street. Miss Roussel is a stenographer for a business firm at 110 Holman street, the Economy Stock company. Both Miss Roussel and Mr. Grosh are young people who have the high esteem of many friends and acquaintances.

Mrs. Hall has returned from Lafayette.

Mr. and Mrs. Noble G. Olds have gone to Walloon lake, Mich., and are at the Olds cottage, where Mr. Olds' mother and sister have been for some weeks.

Mrs. George Waldschmidt, of Lakeside, has gone to Walloon lake and Potosky, Mich., for her annual outing. Mrs. Waldschmidt is a hay fever patient.

Leutenant Lester Baude and bride have returned from their wedding trip and are guests for a few days of Leutenant Baude's parents, Mr. and Mrs. W. C. Baude.

Mr. and Mrs. E. Stanley Gerig and daughter, Betty Jane, of Kinnaird avenue, and Misses Katherine, Marie and Martha Scherzinger have gone on a motor trip to Chicago.

Mrs. Raleigh Lee Morgan, of Bloomington, is visiting at the home of Mr. and Mrs. John H. Bass and other relatives in the city. Mrs. Morgan is remembered as Miss Irene Smith.

Mr. and Mrs. Stanley Gerig and daughter, Betty Jane, of Kinnaird avenue, and Misses Kathryn, Marie and Martha Scherzinger left Thursday morning on a motor trip to spend a week with friends in Chicago.

Mrs. Bartlett Shryock, of West DeWald street, entertained a half dozen young women this afternoon, including Mrs. Frank Sale and her guest, Miss Etta Jenkins, of Montgomery, Ala. The company took their knitting.

Miss Helen Bryson entertained a half dozen girls at a theater party at the Orpheum on Wednesday afternoon, and at the Aumont store for refreshment afterwards. A vase of pretty pink and white cosmos decorated the table.

Mr. and Mrs. W. S. Turner and daughter, Gwendolyn, of Hollywood, Cal., arrived here today to visit Mr. and Mrs. Charles T. Pidgeon. Miss Mary Pidgeon is coming home on Sunday from a girl's camp in northern Michigan.

Miss Irene Boshler, of Miner street, has returned from a two months' stay in Louisiana, S. C., where she tutored a deaf child. On her way home Miss Boshler spent several days visiting friends in Cave Springs, Ga., and in Chattanooga, Tenn.

Mr. and Mrs. George Uhl have announced the engagement of their daughter, Velada Elizabeth, to H. W. Ploeger, who came here from Evansville, to represent an automobile manufacturing in this part of the state. September 6 is the date set for the wedding.

Mrs. J. F. Bauerle, of Lincoln avenue, and daughter, Miss Edna, have been at Lake Wawasee for several days. Mrs. Bauerle came home last evening and Miss Frieda Bauerle went to the lake to remain with her sister over the week-end, when they will both return home.

Berkley Ward, Jr., of Baltimore, Md., who has been visiting Mrs. Ward's parents, Mr. and Mrs. J. F. Miller, of South Harrison street, has an appointment for the second camp of the officers' reserve and will report for duty at Fort Myer, Va., on August 23. Mrs. Ward is still visiting her parents, but expects to return home soon.

A theater party was given by Miss Mary Leonard at the Palace theater Monday evening in honor of her guests, Miss Rose Moser and Miss Cecilia Lenhart, of Defiance, Ohio, who are visiting at her home, No. 2223 Winter street. Later the young ladies had refreshments at the Aumont store. Those who participated were Misses Rose Moser, Cecilia Lenhart, Evelyn Maguire, Anna Pulver, Florence Trowbridge and Mary Leonard.

AT THE PALACE

WELLINGTON CROSS HIMSELF.
Famous Light Comedian on Bill For Remainder of Week at Palace.

Wellington Cross himself, the favorite light comedian and long to be remembered star of half dozen musical comedy successes including "Go to It," will be one of the features on the bill opening this afternoon for the remainder of the week. Mr. Cross' first real bid for fame was at the front end of the team of Cross and Josephine for several seasons considered one of the real catches of vaudeville. He is coming to the New Palace with an arrangement of songs and stories compiled exclusively for him.

The Five Violin Girls, one of the triumphs of the present day craze for all girls musical acts, also is billed for this show. These melodious lassies

sing, dance and play presenting a versatile performance daintily arranged and calculated to give the best expression to the individual talents of the several artists. Harold DuKane and company in futuristic dances; Daniel and Walter, the Yankee soldier designers of nonsense, will offer some new songs and character studies; Anderson and Goules will be enjoyed in their black face comedy antics and Love and Wilbur, a boy and girl in super acrobatics, will round out the bill.

ROMANCE ENDS WITH BRIDAL RECEPTION

Mr. and Mrs. Fred Shulz, Married Four Months, Have Wedding Party.

Miss Faye Jones, of 2019 Garden street, and Mr. Fred Shulz, employed at the General Electric plant and formerly of Warren, eloped to Hillsdale, Mich., on April 21, and were married by Rev. Louis DeLamarter of the M. E. church, and returned to their homes here the same day. With the exception of the bride's mother, Mrs. J. J. Gerlaw, the marriage was kept a secret for four months and then the celebration was a beautiful bridal reception on Tuesday at the Gerlaw home.

Invitations had been sent to relatives and friends in Warren, Hartford City and Bluffton by Mr. and Mrs. Gerlaw to attend the bridal reception of their daughter, Faye Jones and Mr. Fred Shulz, at the residence on August 21 at 3 o'clock. When the guests arrived they found the house beautifully and elaborately decorated with smilax that entwined the stairway and electric lights, palms and ferns that formed a place for the bride couple to stand and many baskets of Killarney pink roses that aided in carrying out the general color plan of pink and green.

In every direction one looked there was preparation for a wedding. Mrs. C. A. Horton, pianist, played the familiar bridal march and as its strains began the bride and her attendants came downstairs. Awaiting them were the groom and Rev. DeLamarter who had come from Hillsdale to take part. The bride was attended by Miss Edith Shulz, of Warren, sister to the groom, as maid of honor; Miss Amy Gephart, of Hartford City, as bridesmaid, and Burnetta and Wilma Pelnar, of Hartford City, who were flower girls. Mr. Shulz had his brother, Mr. Elmer Shulz, of Warren, to act as best man. Little Marianna Shulz, also of Warren, carried a book, called the marriage seal, and a handful of pink roses. The bride came in alone and made a beautiful appearance in a lovely gown of white tulle trimmed with silver lace and having a bodice effect of white charmeuse combined with tulle and silver lace. The bride held a bouquet of white roses tied with tulle. The honor maid was gowned in white net hung over pink satin and the bridesmaid wore a pink and white crepe de chine. Both bridesmaids held bouquets of pink roses while the little flower girls made a pretty picture in dainty frocks of cream net and crepe de chine with cream ribbon straps over their shoulders that ended in rosettes in the back. They carried baskets of pink roses.

After the bride and groom had taken their place Rev. DeLamarter said he had a little story to tell. He began with a brief description of a young couple who had come to beautiful Hillsdale with its many charming bits of scenery and had come to him and told him of their love, the bride's desire to do something out of the ordinary and their wish to have the nuptial knot tied, which he proceeded to do. In conclusion the minister announced that this young couple were before him and that he had officiated at their marriage four months ago. After the astonished company had proceeded to congratulate the husband and wife, not only on their marriage but on the clever manner of its announcement, the wedding luncheon was served. The dining room table was prettily decorated, the entire decorating scheme having been done by the Flick Floral company, and there were pink baskets of nuts, pink roses and smilax and the bride's cake for the table occupied by the bridal party. There were between thirty and forty guests, nearly all from away. The bride lived in Indianapolis until a year or so ago, so when the bride and groom obtained their mar-

HERE'S HAT FOR EVERY HOUR OF THE DAY.

BY BETTY BROWN.

Here's a trip around the clock with the fall hats. The airplane bonnet in the center has wings and will help milady fly through her afternoon calls or shopping visits. The brim is cut in the center to form the wings. This smart fall model is made in tan and gold, with gray esprey trimmings at the crown. The dinner or evening hat at the right explains where all the little birdies' feathers go. Not needing them in the south in winter, they leave them behind for fair women's headgear. This feathery bonnet features the new high crown and has very little brim. After these hats milady rests her head in a lace boucler cap at the left, with a triple ruffle of cream lace offset by ribbon clusters and streamers of blue ribbon.

HOW TO SAVE PERISHABLE FOOD FOR USE NEXT WINTER

Acting in co-operation with the government in the national food conservation campaign The Sentinel will from day to day present its readers with recipes and suggestions for preserving perishable fruits and vegetables.

TO CAN SWEET CORN.

(In the North and West.)

Can as soon after the corn is gathered as possible. Remove husks and silk. Blanch by placing in boiling water for five minutes. Remove and dip quickly into and out of cold water. Cut the corn from the cob and pack directly into hot jars or cans to within one-fourth inch of the top. Pour in enough boiling water to fill the container. Add one level teaspoonful of salt to each quart. Put rubber rings and caps of jars into position but do not tighten the wire clamps. Seal cans completely.

Place containers on a false bottom of wooden slats or wire mesh in a vessel of water deep enough to completely cover the containers. Keep the water boiling for three hours. Remove the jars; tighten covers;

Invert jars to test seal, and cool (not in draft, as jars might crack).

Tin cans can be placed in cold water for rapid cooling.

After the containers are cool store in a dark, cool place. Rapid preparation for canning is especially desirable for corn if a good quality of product is to be obtained. The best results can be secured when one person cuts the corn from the cob and another fills the containers. If it is necessary for one person to work alone she should cut off sufficient corn to fill one jar, pour on boiling water, add salt, place the rubbers and caps in position and put the jar or container into hot water at once. The extra cooking will be given to the cans first filled will not be injurious and a better product will be secured than if cut corn were allowed to stand until all jars are filled.

riage license, they gave the capital city as their residence. For the present Mr. and Mrs. Shulz will be at home with her mother, at 2019 Garden street, but plans are already under way for a home of their own. Mr. Shulz is a son of Mr. and Mrs. Jacob Shulz, of Warren, who were present at the reception. The bride is a beautiful young woman.

Serve Corn Often to Help in Food Saving

By BIDDY BYE.

The American woman may not, like her Indian sister of old, "sing the mysteries of Mondamin, sing the blessings of the cornfields." Nevertheless, she has plenty of cause to bless America's great corn crop. It will not only relieve the pressure on other food supplies, but it will help carry the whole world through a hard year.

Cooking of the true Indian corn, or maize, belongs properly to fall and winter, when the housekeeper handles it in the form of cornmeal. Sweet corn, the more perishable product, should be used freely in its season, to save other foods which "keep" better.

Corn Fritters—Scrape, grate or press out the pulp of the kernels from six ears of corn. Mix with the yolks of two eggs, and one cupful of milk, then stir in one cupful of corn sifted with one-half teaspoonful salt and one teaspoonful baking powder. Season with pepper and fold in the beaten whites of the eggs. Drop by tablespoonfuls into deep fat, drain and serve very hot. By adding a little more flour, this recipe may be used for corn cakes, to be cooked on a griddle.

Corn Gems—Measure two cupfuls of grated corn pulp, and mix with two cupfuls of milk and the beaten yolks of three eggs. Add three cupfuls of flour sifted with two tablespoonfuls of baking powder and one-half teaspoonful of salt. Then fold in the beaten whites of the eggs, turn into well greased pan and bake half an hour in a moderate oven.

Escalloped Corn—Cut the corn from six ears, and spread a layer in a buttered baking dish, add a layer of bread crumbs and sprinkle them with salt and pepper, and dot with bits of butter. Fill dish with alternate layers of corn and crumbs, add one cupful of milk, and bake twenty minutes. This is a good way to use up cold boiled corn.

Corn Crowder—Cut a slice of salt pork in small pieces and fry out the fat, add one onion, sliced, and cook five minutes. Parboil four cupfuls of flour potatoes and add to the fat, then turn in two cupfuls boiling water and cook potatoes until tender. Mix with four cupfuls scalded milk and four cupfuls corn pulp, heat to boiling point, season with salt and pepper, add eight common crackers and three tablespoonfuls of butter, and serve very hot.

TOO READY TO ACCEPT ATTENTION OF STRANGERS

Volumes have been written on the folly of girls making friends too freely while away from their homes on a vacation trip, yet a certain class of young women are always ready to accept attentions from any man whom they may meet at a summer resort.

True, many fine, honorable men go to vacation outings; they need rest and recreation like the rest of us, but on the other hand there are men always to be found at every seashore and mountain resort who are not so honorable and who are not by any means what they represent themselves to be. Unfortunately, it is this latter class that often attract and are foolishly encouraged by these misguided girls.

It is not at all necessary to be either loud or boisterous to have a good time. A girl is always at her best when she is womanly and dignified; she is the one who is generally sought after.

PEANUT SOUP IS THRIFTY.

A delicious and nourishing soup may be made from skim milk and peanut butter as follows, says the United States Department of Agriculture:

Heat 1 pint of milk until lukewarm. Add 2 rounded tablespoonfuls of peanut butter mixed to a smooth paste with a little of the milk. Salt to taste. Thicken with 1 teaspoonful of butter or savory fat mixed with 1 tablespoonful of flour. Bring almost to the boiling point and serve.

HEMSTITCHING NEATLY DONE ON SEWING MACHINE

Hemstitching can be very neatly done on the sewing machine in this way:

Draw the number of threads desired and baste on the edge of the hem in the center of the drawn threads. Lengthen the stitch on the machine and stitch on the very edge of the hem. Pull the bastings out and pull the edge of the hem to the bottom of the drawn threads. Hemstitching done this way can scarcely be distinguished from that done by hand.

Another way to hemstitch when you wish to join two pieces of material is to fold several thicknesses of

blotting paper together and lay one piece of material on one side and one on the other, with the folds of the paper between. Keeping the edges perfectly even, stitch through the material and paper, having a very long stitch on the machine. When the seam is sewed, pull out the paper, crease back the edges of the seam and stitch again on both edges, having the long threads of the former stitching pulled apart the full width.

SALTLESS DRIPPINGS WILL REMOVE STAINS.

Some time ago a correspondent stated that she removed axle grease stains from washing materials by rubbing into them drippings which was free from salt. Let it remain on the stains for two or three days, then wash in the usual manner.

If chloroform were obtainable and rubbed into the stains it would remove them without leaving a mark. The chloroform should be handled carefully.

MAKE FOOD REMNANTS READY FOR NEXT MEAL

Instead of putting away remnants of food in the dish in which they were served or into another clean one, make them ready to warm for another meal. For instance, a few baked beans or a little stew may be put into a small granite basin in which it is to be warmed. These may be purchased for about 5 cents and a housekeeper should have a number of them.

SWEEDISH HAMBURG.

One and one-half pounds hamburger steak, two cold potatoes, one egg, slice stale bread grated, one onion, salt, pepper, one teaspoonful allspice, one teaspoonful poultry dressing, about one cup milk and tea spoonful sugar.

TRY THIS WHEN SEWING BUTTONS ON NEW FROCK.

If you are looking for a different way to sew buttons on your new frock, and you aren't particularly anxious that buttonholes should pass over the buttons, try this method: Place four or six buttons to overlap each other like a drawn-out deck of cards. Use the buttons in groups like his and you will have an individual note added to your co-tune.

LATEST IN MEN'S SHOES.

If number of wearers measures style of popularity, this is one of the leading fall styles in men's shoes. Thousands of men will think it is good enough to be their standby on their first trip abroad. It is the American field service boot, which soon will be treading French soil on the feet of Uncle Sam's soldiers. The shoe is hobnailed, stocky and comfortable—just the boot for hiking.

Rheumatism

Remarkable Home Cure Given by One Who Had It—He Wants Every Sufferer to Benefit.

Send No Money—Just Your Address.

Years of awful suffering and misery have taught this man, Mark H. Jackson, of Syracuse, New York, how terrible an enemy to human happiness rheumatism is, and have given him sympathy with all unfortunate who are within its grasp. He wants every rheumatic victim to know how he was cured. Read what he says:

"I Had Sharp Pains Like Lightning Flashes Shooting Through My Joints."

"In the spring of 1893 I was attacked by muscular and inflammatory rheumatism. I suffered as only those who have it know, for over three years. I tried every remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with rheumatism, and it effected a cure in every case."

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent, simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today. MARK H. JACKSON, No. 57D, Curney Bldg., Syracuse, N. Y.

WILLIAM NOT WHOLE THING IN GERMANY

Kaiser Overawed by King of Bavaria Says Artist at Rochester.

Rochester, Ind., Aug. 23.—Carl H. Bohnen, an American portrait painter, who spent the last three years in Munich, Germany, left yesterday for his home in St. Paul, Minn., after a visit with Omar B. Smith, a Rochester banker, whom he met in Munich just before the war broke out.

Mr. Bohnen says he was well treated, as long as he remained in Germany, but that he had considerable trouble in getting out when he left, May 19, being detained at the Swiss border. He was stripped and searched, even corn plaster being removed. At the French border he was forced to sketch the commissioner to prove he was an artist. His wife and daughter, who were with him here, accompanied him throughout the trip home.

Mr. Bohnen says Americans are prone to give too much credit to the Kaiser who is not the real backbone of the fatherland, the artist declares. Mr. Bohnen asserts that Generals von Hindenburg and Ludendorff are now running the empire with an iron hand, and that while the Kaiser is listened to, his will is far from being law. He related several incidents to prove this fact, one showing the feeling between a Bavarian and Prussian troops. "Two failures," the artist says, "on the part of Prussians to hold a strategic point taken by the Bavarians were followed by an assault on the fleeing Prussians, in which sixteen were killed and a number seriously wounded. The Kaiser ordered that every tenth man of the retreating regiment should be shot, but the king of Bavaria sent word that if the order was carried out, he would withdraw all his troops from the field. The men were not shot."

GLORIES IN OIL BOOM.

Warren, Ind., Aug. 23.—Enthusiasm

"UNITED STATES WON'T FIGHT!" IS WHAT RUSSIANS HEAR DAILY, SAYS CHARLES E. RUSSELL

And Every Pacifist Convention or Peace Resolution in America is Magnified Manifold by Pro-German Spielers in Petrograd, He Shows—If Slavs Waver and Let Germany Win, You Must Blame Un-American Elements in This Country.

By CHARLES EDWARD RUSSELL. (Copyright, 1917, by the Newspaper Enterprise Association.)

"The people of the United States are not in favor of this war."

"The government of the United States is controlled absolutely by the munition makers. For the sake of profits the munition makers wanted the United States to go into the war. That is the only reason why the United States is in it."

"The people of the United States are utterly opposed to the war and wish to make peace at once. They are about to overthrow their government. Then they will make peace with Germany and the war everywhere will come to an end."

"The other day in the United States senate a resolution was introduced for peace. You see—I told you. I know what the people of America think. I am an American myself and I know they are dead against the war."

These are a few samples of the stuff dinned incessantly into the ears of Russians by a thousand professional trouble makers, anarchists and the like, returned from America with American passports in their pockets to try to win the situation for Germany.

This sort of stuff and worse. Sometimes they tell the Russians that conditions in the United States are far more intolerable than they ever were in Russia under the czars, that the people are more oppressed and more miserable, that whatever else the Russians do with their freedom they must be on their guard against establishing any government in the least like that of the United States.

"The United States has ruined Cuba and Mexico," they say. "It has en-

slaved its own people. It has now sent commissions over here to prepare the way to enslave you. Above everything else, be on your guard against America. I know what it is. I am an American myself. Look at my American passport."

"The United States will never do anything in this war. Do not be deceived. The United States is only bluffing. It doesn't intend to fight. The munition makers only want some fat orders for guns and things and then the United States will make peace with Germany. That is what you ought to do if you don't want to get left. Now is the time to make peace. What do you want to fight for? England and France are all in and the United States is only fooling you. Everybody knows that in the United States. I just came from there. I am an American. I know."

The great Field of Mars, the ancient parade ground of Petrograd, is the forum and huge debating school of the new democracy. Every Sunday you can see there 200,000 or 300,000 people in groups around the speakers, listening to oratory. Oratory is the Russian national game.

These agents of mischief, recently returned from America, run from meeting to meeting, reiterating the lies I have quoted above.

There is no chance to deny that they do an infinity of harm. The German propaganda in the United States and Germany, which directs their efforts, judged with perfect accuracy of the harm they could do. Nothing better for the Kaiser has been done since the war began.

They undermine faith. They destroy courage. They make many Russians believe that the United States is about to seek peace and Russia therefore will be left fighting hopelessly alone.

It was this treacherous activity, combined with the pre-arranged mutiny of German agents in the ranks, that caused the recent slump in the Russian line in Galicia. Direct cause and direct effect.

But take good heed of the next point in this black record. Everything that happens in the United States that can be used as material by these back-floors gets promptly over there.

Every time a plausible, cleverly named pro-German organization calls a peace convention the fact gets to the Field of Mars, and is used to show that the people of the United States are opposed to the war.

Every time a senator or representative introduces a disloyal resolution, news of it flies without delay to the huge German machine that is working ceaselessly in Russia to break down

the spirit of the Russian people and cause them to lay down their arms.

Every time a senator undertakes to hamstring his government by blocking necessary legislation, casting discredit on the motives of America or endorsing this clever German maneuver or that, the news goes swiftly to Petrograd and the slimy creatures that do Germany's work on the Field of Mars chuckle and are glad.

They have been provided with a fine fresh lot of ammunition.

The machinery to get it quickly to Russia has been set up long ago. There is no question that it is wonderfully alert, active and efficient.

For instance, the moment the special commission to Russia was suggested last April a flood of propaganda was let loose to hamper its work.

Every conceivable lie about it, its objects, the men that composed it, the government and people of the United States, the aims of the United States in the war, was turned loose by mail upon Russia and a battalion of agents sent along to spread the poison and see that it took hold.

Germany's desperate need was that Russia should not be aggressive in the war. Germany must therefore nullify the effect of the commission's visit, and there was the way to do it.

All these things show very plainly the existence in this country of a monstrous and cunningly directed German machine.

They also show the appalling chances that ignorant or disloyal men in congress take when they try to hobble this country in the great work it has undertaken to do.

It is not for me to dwell upon a situation that drives thoughtful men abroad from their sleep, but I ask you merely these questions:

At this stage of the game, what do you think would happen if Germany were to break through that Russian line?

And what can keep her from breaking through but the spirit and united purpose of the Russian people?

When I arrived in this country I read in the American newspapers many undeservedly bitter things about Russia because part of her troops had wavered.

If they waver again, say no bitter things about Russia.

Say them about certain men and certain newspapers in the United States, for they alone will be to blame.

Not only for that day's work but for the colossal disaster and years of slaughter and suffering that may follow.

runs high in Warren because of prospects of a second oil boom for the little Huntington county city. Three wells have been drilled at the edge of the town this spring and each well is giving a good supply of oil. The third well, which was drilled on the Jones farm, west of the city, was "shot" on Wednesday. Hundreds of Warren citizens flocked to the region of the new drilled well to witness the shooting. The show of oil is better in the third well than from any of the other drilling efforts of the year. There will be more drilling near Warren as the high price of oil makes wells of even a slight yield profitable.

MASONS TO HAVE CHARGE.

Bluffton, Ind., Aug. 23.—The Bluffton Masonic lodge has accepted an invitation extended by the board of trustees of the Wells County hospital, for the lodge to have charge of cornerstone laying ceremonies. The date for the exercises has not been definitely announced, but the date tentatively chosen is Sunday, September 2nd, and that will be the date unless unforeseen circumstances necessitate a change. It was stated today by local Masonic officials that an effort will be made to have Grand Master Brannigan here for the exercises.

KILLS EAGLE IN FIGHT.

Bryan, O., Aug. 23.—Raymond Siebenaler was attacked and injured by an eagle near here recently. Siebenaler was on his way to work, near Six Corners. The big bird was perched on a fence. When opposite the eagle flew directly at him, losing no time to open the battle. To ward off the attack he threw up his arm and the bird's talons sank deep into his wrist. Grappling by the foot, he threw the eagle to the ground and killed it with a club. It measured four feet four inches from tip to tip.

IS BRIDE OF A SOLDIER.

Hartford City, Ind., Aug. 23.—Lee Wickersham, aged twenty-one, and

Miss Lea Townsend, age sixteen, the daughter of William Townsend, a Washington township farmer, were married yesterday. The bridegroom is a member of the signal corps in the United States army, and is stationed at a fort in New Jersey. Townsend was barely able to walk to the county clerk's office to get a license as a result of a motorcycle accident when en route to this city. His machine skidded and went into a ditch.

MARRIED MEN RECALLED.

Kendallville, Ind., Aug. 23.—Married men of Noble county subject to military service and found physically fit at recent examinations but were exempted on the grounds of having a dependent wife, have been summoned for re-examination on Friday of this week by the attorney for the exemption board. The action follows a recent order received from Provost Marshal General Crowder. Men with dependent wife and children will not be recalled.

ANNUAL RETREAT OPENED.

Notre Dame, Ind., Aug. 23.—One hundred clergymen of the Roman Catholic diocese of Fort Wayne opened their annual retreat Tuesday at Notre Dame university, South Bend. Rev. Valerius Nellies, O. F. M., is conducting the exercises which begin at 5:30 in the morning and continue till 9:30 p. m. The retreat will close next Saturday in time for the priests to be back at their respective churches for Sunday services.

YOUNG NIMROD SHOT.

Warsaw, Ind., Aug. 23.—Devere Bloom, of Claypool, met with a very severe accident while out hunting squirrels. His gun went off accidentally, shooting him in the hand and eye. The gun was leaning against a stump and it slipped and went off. The injuries are both very severe and painful. He is now at the McDonald hospital and in a serious condition. Mr. Bloom is about 16 years of age.

DIES AT AGE OF 94.

Elkhart, Ind., Aug. 23.—Mrs. Catherine Cook, age ninety-four, widow of Robert Cook, who died in 1893, is dead at her home near here. She was brought to America by her parents when two years old. Surviving here are ten children, seventy grandchildren, 106 great-grandchildren and three great-great-grandchildren.

ALL CANNOT REGISTER.

There are many citizens of votable age who will not vote in Fort Wayne this fall. There are 15,000 men and women who are eligible for the ballot and yet who have not registered for voting. If all the men and women register between now and October 7, when the registration period ends, there will be fifty-one persons signed up during each daylight hour. City Clerk Boeger states that the registration of all persons now delinquent will be a physical impossibility, although many private citizens are aiding in the work and several business houses have given space for the process.

BEAUTIFUL NEW STORE OPENS.

Visitors Throng R. H. Brothers Opening of Handsome Stock.

The interior of the new store of R. H. Brothers, in West Wayne street, is remarkably inviting and restful and the women who thronged the room at the opening on Wednesday complimented it on every side. The woodwork is finished in ivory tint enamel and the floor is carpeted in a soft taupe or mauve shades that makes the showing of colors in suits, dresses, waists and cloaks, all the more attractive. Thus the room is light without being glaring and colors look natural. The goods displayed combine richness of material, splendid style and refined taste. Much admiration was expressed for some of the new outdoor garments and new suits and blouses are equally attractive in design and up to date in coloring and style. There is much that is practical, as well as elegant in finish. The saleswomen are familiar with their work and are well known to the buying public.

WILL LEAVE NEXT WEEK

Company E and B Will Receive Orders About Next Tuesday.

LOCAL TROOPS ARE INOCULATED AGAIN

Major Thomas F. Ryan Lauds Newspapers for Their Assistance.

Although unofficial it is being noted about that orders to report either to Hattiesburg, Miss., or Fort Benjamin Harrison, will be received early next week by officers of Company E and Company B, signal corps.

It is thought that the orders will precede the departure of the local troops by about four days and it is the opinion that the two companies will entrain next Saturday morning.

Members of both companies were inoculated the second time against typhoid fever Wednesday by Lieutenant P. H. Lucas of No. 2 ambulance company, of Marion, Ind.

Major Thomas F. Ryan, of the regular army recruiting station reports

that twenty men were sent to Fort Thomas, Ky., Wednesday evening, and that a larger number will leave Thursday evening.

The recruiting officer is strong for the newspapers and states that the Fort Wayne papers have aided much in all the patriotic movements and that credit is due them. He states that they have assisted him greatly in his work and that as long as no trusts are violated that the doors of his office are always open to newspaper reporters.

Sergeant Moore Home. Sergeant William Moore, now with the supply company of the First regiment, but formerly of Company B, is home on a leave of absence for a few days. He states that enormous amount of preparations are being made for the national guard units. He believes that the Fort Wayne companies will go direct to Hattiesburg, Miss.

BIG WAR PROGRAM

Company B to Communicate With Headquarters Six Miles Away.

Officers of Company B, signal corps, are busily engaged in working out and perfecting a war problem which is to be solved by the members of the company, presumably Friday, provided the weather is satisfactory. The headquarters will be communicated with from a point six miles from the city. Flags will be used in conveying the signals as will railroad and electric railway rails, barbed wire fences and streams of water. The plan was to solve the problem Thursday, but weather conditions were unfavorable and the idea was dispensed with for a day.

Thursday afternoon a special course was given the members in map reading. The contour map of Fort Leavenworth and surrounding territory was used. The company was divided into three classes.

A contour map of the territory of Allen county, bounded by the Auburn, Leesburg, Dupont and Lake township line roads, will be made by the company within the next few days. All trees, rivers, creeks, ridges, bridges, valleys and hills will be designated on the map.

The company established headquarters on the top of the Shoaf building Wednesday afternoon. From this point conversation was carried on with men on the top of St. Vincent's Orphan's home.

All members of the company received their second "shot in the arm" Wednesday afternoon and some of the boys became very sick. One man was given a double dose. He got the first shot and then stood around awhile and the army doctor, not knowing that he had treated him once before, gave him the second one before a protest could be made. He was more ill

than any of the rest, but had recovered sufficiently Thursday to be about.

To Aviation Corps. Kenneth Clapp, a well known young man of this city, has been ordered to report at Columbus, Ohio, to receive instructions in the United States aviation corps. He resided at 2223 California avenue.

Band Player Home. Lawrence Pepe, son of Mr. and Mrs. Al Pepe, of Washington boulevard west of this city, a member of the Third regiment infantry band, has come home from South Bend to spend a few days with his parents.

The young man, who is twenty-six years of age, is the oboe player in the band, and will leave for Hattiesburg next Wednesday. He expects to see France.

CONTRACT FOR "Y" AWARDED

Indiana Engineering Company Will Begin Work on the Erection at Once.

LOCAL FIRM'S BID OF \$225,000 WINS

Bonds to the Amount of \$150,000 Underwritten by Business Men.

On a submitted bid of \$225,000, the Indiana Engineering and Construction company, of Fort Wayne, was awarded the contract for the erection of the Fort Wayne Young Men's Christian association building.

In addition to the \$341,000 which was subscribed by the residents of the city, an additional \$150,000 has been secured by bonds, which were underwritten by Fort Wayne business men. The finances will be furnished by the banks of the city on a pro rata basis. Every bank has agreed to carry its share. The bonds bear six per cent. interest.

Immediately after the letting of the contract it was announced that the tearing down of the old Hope hospital building and the erection of the seven story, fire-proof Y. M. C. A. was to be begun at once. The contract calls for completion of the building by September 15, 1918. It is possible that the building will not be ready for occupancy, however, until a month after this date.

The heating contract, the only other contract that has been awarded, has been given to the Derheimer Brothers for approximately \$30,000, with deductions for use of materials in the old Hope hospital building. The necessary agreements between the two firms will be signed soon.

Other special contracts and wiring, plumbing, ventilation and other minor ones, will be awarded soon and it is the hope of the committee that all these contracts will be awarded to Fort Wayne firms.

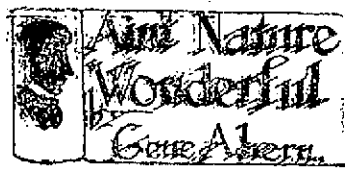

The committee now announces that since the Y. M. C. A. is an assured fact that all contributors make payments which are due and make a consol-

entious effort to keep up the payments if possible. The people who subscribed are now expected to do their part by backing up the project.

The association now has approximately \$441,000 with which to set aside the generally known fact that Fort Wayne was the largest city in the United States without a Y. M. C. A.

It is announced that the fixed equipment for the new building will cost approximately \$30,000; other equipment, \$85,000; the site, \$42,500 and the remainder of the money will be used for expenses including the architect's fees, office expenses, etc.

CITY APPEALS NEXT IN LINE

District Board Still at Work on the Large Pile of Claims.

AMISH EXEMPT FROM SWEARING NOT DRAFT
Several Changes Will Be Made in List of Men of District Three.

Appeals to the district board from the city of Fort Wayne will be next in line, say members of the board. Thus far the appeals from outside of the city have been considered and it is believed that this stupendous task will be finished by Friday evening. The appeals therefore from residents of Fort Wayne will be passed upon.

Members of the Amish church, at least in Allen county, will be excused from "swearing or affirming," but not from service. The four members of this church, who, with Attorney R. Earl Peters, made a trip to Washington to see the secretary of war, gained this much. The other matter of being exempt from service was taken under advisement for a ruling later.

The board at district three announces that there will be several changes in the list of soldiers, as announced in these columns Wednesday. The board members state that there are several cases in this list which will be recommended to the appeal board because the man, through ignorance of what to do failed to file exemption claim. Then there are still a few who have appealed their cases to this board for a decision. It is likely that some of these will be granted, it is said.

Boards at district two, and one in the city, are still engaged in their work, but expect to be finished within a few more days. The county district examined a large number of men Thursday morning, but there was not a single one who passed the examination who did not file claim for exemption.

In view of this fact it appears as though this board will be compelled to make the third call for more men to be examined.

Federal Commissioner T. J. Logan conducted an open court for seventeen men who sought discharge. Of this number seven were refused exemption while ten of them were granted. This work was done Wednesday evening and all the cases were from the first city district.

The results yesterday before the state appeal board were as follows:

WAS IN CITY ON BUSINESS WEDNESDAY

Charles Brown Dies Very Suddenly at His Home in Churubusco.

(Special to The Sentinel.)

Columbia City, Ind., Aug. 23.—Charles Brown, one of the best known residents of Whitley county, died suddenly at his home in Churubusco Thursday morning at the age of 43 years.

His wife was awakened early in the morning by her husband's heavy breathing and upon investigation found that he was dying. The family physician was called, but Mr. Brown was dead before he arrived. Death was due to heart trouble, with which he had been bothered for the past year.

The deceased had been to Fort Wayne Wednesday attending to business and only Wednesday evening had attended the meeting of the Churubusco town council, of which he was a member. He seemed to be in good health and the announcement of his death comes as a shock to all who knew him.

Mr. Brown was the son of the late Mr. and Mrs. Valorous Brown. His father was a prominent lumber man and financier of Whitley county. The deceased was born in Columbia City, but moved to Larvill and then to Churubusco. Later he went to LaOtto, where he managed a lumber mill, but returned to Churubusco five years ago upon the death of his father. He purchased full ownership in the Churubusco mill only a month ago.

Besides the widow, who was formerly Miss Reider, of Columbia City, he is survived by two sons, Robert at home, and Lee, who is now stationed at Fort Thomas, Ky.; one brother, Will Brown, of Arkansas, and two sisters, Mrs. Daisy McWay, of Indianapolis, and Mrs. Laura Hughes, of Pindley, Ohio.

WOMAN'S FRANCHISE LEAGUE STATES AIMS

Full Suffrage in State and Nation the Goals Says President.

Indianapolis, Ind., Aug. 23.—The future work of the Woman's Franchise League of Indiana, now holding a conference here, was discussed at today's session by Mrs. Richard E. Edwards, of Peru, president of the organization. She outlined three possible courses. They were:

Campaigning toward a natural woman suffrage constitutional amendment.

Working for the adoption of the Beardsley full suffrage amendment to the Indiana constitution.

Working for full suffrage in Indiana through a constitutional convention.

Following Mrs. Edwards' address the subject was discussed generally. Other subjects considered today were co-operation with state and national organizations.

Committee reports were the last items of business considered by the conference before it closed this afternoon.

WORKING FOR BOYS' RESERVE.

Anderson, Ind., Aug. 23.—A seventeen day campaign for members of the Boys' Working Reserve closed in Madison county last night and about seventy-five per cent. of the county quota was secured. Opposition to the organization from parents believing it was to lead to military training was found in all parts of the county.

Congressman Gives Up Seat to Go to War

TRI-STATE TICKET AGENTS AT PICNIC

Lafayette, Ind., Aug. 23.—The midsummer outing of the Tri-State Passenger and Ticket Agents' association was held at Gay's park, a summer resort on the Tippecanoe river, twelve miles north of here. About seventy-five members were present and before going to the park they visited the Tippecanoe battlefield where Brigadier General R. P. Dehart delivered an historic address. There was no business connected with the meeting and the day was devoted to pleasure. A program consisting of vaudeville, girls' swimming races, boxing and other sports were arranged.

NOT ALBERT J. CRESSLER.

As having had a claim for exemption from draft denied him, the name of Albert J. Cressler appears in the published list of the Fort Wayne draft records. The name should have been Albert J. Gessler, who resides at 1008 Hough street.

ROOF LUMBER MAKES SUBMARINE CHASERS

Uncle Sam Has Taken Timbers Which Would Have Covered Reservoir.

Uncle Sam has taken the lumber which was to have been used for completing the reservoir roof. The big timbers will be used in the bodies of submarine chasers and other new navy boats instead of topping the city water basin. The confiscation has caused managers of the Engineering company, which has the contract for the roof, much worry and some delay and will mean an expenditure of \$1,040 more money.

The timbers, which were an inch and an eighth by six inches and sixteen feet long, were ordered by the Engineering company of Fort Wayne last February, as soon as the contract for the \$22,000 covering was given. The pine boards were to come from the Gilman forest of Mississippi. The plans have never arrived and no word can be received from the Gilman forest.

Word to the effect that the government is seeking all available lumber in the south for ship building purposes has caused the local contractors to realize that the timbers for the big roof have been confiscated. The boards are of proper size for making ship hulls, especially of the lighter crafts.

While the Fort Wayne company is not to be outdone in loyalty to the cause of strengthening the United States navy yet the action places the directors and city officials in a trying position.

The steel work for the roof is nearly all in place. The covering is ready for the planks. The time allowed for building the roof is almost ended. Action must be taken at once.

City officers expect to allow the contracting firm to build the frame work for the roof out of timbers of a smaller size. The boards will probably be bought from a local lumber firm at once. There will be 52,000 feet of the lumber necessary. Rising price of timber gives the assurance that the planks will cost \$20 more for each thousand feet than they would had the Mississippi pines reached Fort Wayne.

PROGRAM READY.

Electricians Will See Flying Machines and Big Falls.

Robert J. Gaskill, fire alarm superintendent and president of the International Association of Municipal Electricians, is preparing the program for the annual conference of the organization to be held at Niagara Falls on September 11 to 14. There will be four days and nights filled with technical discussions and sight-seeing tours.

Frank Dix, head of the city lighting plant, will deliver an address on the subject, "Practical City Street Lighting." John Price Jackson, representing the commission of labor and industry of Pennsylvania, will be a speaker. The secretary of the National Bureau of Patriotism will talk. An officer of the General Electric company will present a paper on "Phantom Circuits."

Other addresses will be on "Fire Hazards of Domestic Electrical Appliances," "The Renewal of Enclosed Fuses," by A. L. Eustice, of Buffalo; "The Fire Alarm System as a Fire Alarm Prevention," by a member of the national board of fire underwriters; "Modern Flashlight Police Signal System," by F. C. Bauer, electrical engineer, and "Wireless Apparatus," by John Frazier, electrical engineer.

The municipal electricians who will talk in their closed sessions about methods of aiding the government in the present moment of stress will also be the guests on many short excursion parties during their stay in Buffalo. There will be a trip to the Cave of the Winds and to Goat Island. There will be a trip through the Shredded Wheat Biscuit factory and to the Curtiss aviation park. There will also be lunch at the Maltoza roof garden.

CONFIRM ROLLS.

Board Will Prepare for Five Sidewalks and Big Sewer.

Assessment rolls will be confirmed by the board of works Thursday night for the building of the lengthy Spy Run district sewer and for five sidewalks. The concrete walks are located on both sides of Jackson street, from Washington street to the alley south of Jefferson street; on the south side of Pontiac street, from Calhoun street to Fairfield avenue; on both sides of Swinney avenue, from Broadway to College; on both sides of Taylor street, from Fairfield to Broadway, and on both sides of Dawson street, from Calhoun to Fairfield.

GRAND FINALE.

Last of Elks' Band Concerts Will Thrill Patriots.

National hymns of nearly every one of America's allies will proceed in a harmonious procession through the Elks' band concert to be given in Welleser park, Friday night. The musical entertainment will be the last number of the season for the Elks' band.

The battle hymns of England, France and Belgium will open the concert, which will be spirited with the anthems of eight brave-hearted races. The program, as arranged by John L. Verweire, follows:

ON OFF DAYS THE RED SOX GO A FISHING.

UPSET PRECEDENT BY TAKING TWO GAMES IN ONE DAY

Chiefs Pull Themselves Together and Put Up Classy Article of Ball.

Well, Oscar, it has happened, and we admit that we didn't just exactly expect it. Fort Wayne took two games of a double header at league park yesterday from Springfield which ought to have been giving Grand Rapids a hard chase right along for the top place in the percentage column. The score of the first game was 2 to 1 and the second, 5 to 4.

The first contest lasted thirteen innings before the Chiefs won it. It being a real pitching struggle between Haines, one of the leading pitchers in the league, and Doc Cummins, for the Chiefs. There was no scoring for twelve long innings and it was not until the thirteenth that both sides got in their runs.

Caveny beat out a bunt for the Reapers in the thirteenth. Hartle got on on a slow roller which had case of indecision on the part of Cummins who feld the ball, prevented him being thrown out at first. Caveny went to third on the play. Wright's sacrifice fly to Breaux accomplished its purpose and Caveny came in with what looked like the winning run. The next two batters flew out to Breaux ending the Reapers' scoring. The Chiefs showed a little spunk and showed Haines that he was not altogether invincible. Gloeckson got on a slow one past second base; Vandagriff singled down the third base line, Gloeckson going to second and reached third after being forced out second when he over ran the plate. Cummins hit toward third base for an easy out, Vandagriff taking second. Breaux sacrificed, scoring Gloeckson, Vandagriff going to third on the play. Miller came through in the pinch with a single winning the game.

The Chiefs opened the second game the same way that they had finished the first. With stick artist, got a single and stole second. He went to third on Siegfried's shot to Wright, whose throw to first was bad and allowed Smith to score.

The Reapers came back in the next inning strong and scored two runs and took the lead. Caveny singled and came all the way home on a double by Hartle. Hartle went to third on Wright's out, Vandagriff to Allison. Dunn singled, scoring Hartle.

Fort Wayne scored two more in the second half of the second inning. Hoffman got a two-bagger and went to third on Gloeckson's out and scored on Van's two base smash. Allison at walked, Breaux forcing Vandagriff at third. Miller doubled to left, scoring Allison. Breaux was tied by the Reapers in the fourth. Two singles and an error being responsible. The scoring over until the seventh when the locals put over the winning run. Breaux walked and scored on Miller's two base slam. Siegfried doubled and Miller scored, winning the game.

EASTERN AND WESTERN TENNIS STARS MEET

Play in Semi-Finals in National Tourney on Today.

Forest Hills, N. Y., Aug. 23.—Eastern and western tennis stars met on the courts of the West Side club today in the semi-final round of the national patriotic singles tournament. The two easterners, R. Norris Williams, 11, 1916 champion, and N. W. Niles, both of Boston, play the opening match of the semi-final round. Williams yesterday had a hard fight in defeating H. A. Throckmorton of Elizabeth, N. J., in five sets while Niles had little trouble disposing of C. J. Griffith of San Francisco. R. L. Murray, recently of the Pacific coast, and John R. Strachan, of San Francisco, will fight it out for the other place in the final round. Murray had to go five sets to beat Craig Biddle, of Philadelphia, to get into the semi-finals, and Strachan went four sets in defeating Charles S. Gar and the Pittsburgh youngster. The national junior and the national boys' championship singles will continue today on the same courts.

NATIONAL LEAGUE.

Set New Record.

Brooklyn, Aug. 23.—Brooklyn and Pittsburgh went twenty-two innings in a game here yesterday which broke the long distance record for the National League. Brooklyn finally winning 6 to 5. In the twenty-second inning Hickman scored the winning run. Score: Pittsburgh ... 001 002 200 000 000 000 0-5; Brooklyn ... 122 000 000 000 000 000 1-6.

Giants Win Shutout.

New York, Aug. 23.—Benton allowed the Cincinnati Reds only four hits and the Giants won yesterday's game here 3 to 0. Schneider pitched well for the Reds. Score: Cincinnati ... 0 0 0 0 0 0 0 0-0; New York ... 0 0 0 0 2 1 0 0-3.

Finally Beat Cards.

Boston, Aug. 23.—Boston took the last game of the series from St. Louis here yesterday 6 to 1. A home run by Powell in the first inning was a feature. Score: St. Louis ... 0 0 0 0 0 0 0 0-1; Boston ... 4 0 0 0 1 0 0 1-6.

Alex in Form.

Philadelphia, Aug. 23.—Alexander was in rare form here yesterday and blanked Chicago 5 to 0. Hard hitting on the part of the Phillies was a feature. Score: Philadelphia ... 0 0 0 4 0 1 0 0-5; Chicago ... 0 0 0 0 0 0 0 0-0.

BUGSVILLE NOTES.

(G. Whiz.)

Eddie Rickenbacker, the famous auto racer, is the official driver for Major General Pershing over in France. Some "showfor" the major general.

In 1887 a pitcher by the name of Cummings invented the curved ball. Just because it happened in 1887 don't think it was Cummings of wheat ball fame.

Headline in Chicago paper says "that the Brooklyn club has a fund to help drafted players." Always thought they had a fund to help club owners that players were drafted from.

Last week leaders leading hitters in the majors: Cobb, .385 and Rouch. in the Nationals with .349.

Bunny Fabrique is second in the American association batting list with a .330 average.

Pitcher Kroh, with Dayton, was with the Chicago cubs once. I said once.

Pitcher Wachtel, of Muskegon, has been sold to Brooklyn, to report at the end of the season.

The Chicago Nationals paid the Baltimore club \$15,000 for outfielder Barber. That is a big price for a barber, but if he can cut them off at the plate and "comb" out a few hits in every game he will be worth it.

St. Louis Cardinals tie the tin can to a batch of players one day and then turn around and buys Thucup, the Indian pitcher, from Little Rock.

Harry Brant, the Grand Rapids shortstop, is reported out of danger and may go back in the game in a few days. He was beamed in the head by Winchell, of Evansville.

Philadelphia Americans went 54 innings without an error last week, making a major league record for the season.

WHY WE WILL WIN THE PENNANT.

The interest in base ball right now is centered in the race between the White Sox and the Red Sox.

Only a few points separates the two clubs and twice in the last three weeks the Red Sox have driven the White Sox from the top to take that coveted place for themselves for a few hours.

Both clubs are now going at top speed. It is impossible to predict about their team's chances to win.

Furniture Bargains

Next Week Ends This Big Sale

The prices which we may be forced to pay to replace the stock sold during this sale do not warrant continuing the sale after next week. Were it not for the

fact that we are remodeling and actually have to have the floor space in order to provide the workmen with a place to work we would be inclined to discontinue our sale right now. But profits are no object right now—and you can take advantage of this condition and save a considerable sum on any piece of furniture that you buy now. You must realize that furniture prices will go up during the next year, so why not anticipate your requirements and save yourself the amount of the advance as well as the reduction from the old prices which we are offering during this sale?

To Give You An Idea of the Saving on a Three Piece Parlor Suite

Understand that Parlor Suites are not the only furniture out in price during this sale. Everything goes—we merely quote typical reductions.

Cream will remain hard in the "Auto Vacuum Freezer" eight hours without refilling ice chamber. Made in two sizes—six dish and twelve dish.

Only 16 Hoosier Specials Left At \$5 Off

Be One of the Lucky Women to Get Them

Today the women who attended the opening of this sale last Saturday are using their Hoosier Specials, and every one is proud and delighted with it!

We know that our allotment of Hoosiers would go rapidly, but it was astonishing for so many women to take them the very first day!

The maker has just sent us this word: "You cannot get another shipment of Hoosier Specials at the reduced price. Your sale must stop when your stock is sold."

That means as soon as 16 more women order the Hoosier, your chance to get one at a saving of \$5 cash will positively be gone.

Make up your mind right now to be one of those lucky women.

40 Labor Saving Inventions

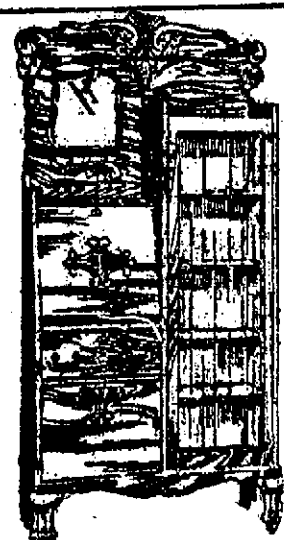

If you think that the Hoosier means merely more shelf-room, you have no conception of what this cabinet is and does!

It has places for 400 articles, handily arranged, within arm's reach. And it also has 40 labor-saving, time-saving inventions.

Another cabinet as complete as this does not exist. Its leading features are protected by patents.

Its beauty and lifetime standard of construction are unrivaled. And its price is fixed at the factory to outsell any other cabinet made.

A Small Cash Payment Delivers Any Hoosier to Your Home.

ELK CITY BOYS OFF FOR ALL DAY OUTING

Eight Car Loads of Youngsters Leave for Picnic at Country Home.

Eight car loads of boys, four hundred of them in all, left the corner of Harrison and Pearl streets Thursday morning at 10 o'clock. They were bound for the Elks' Country club, where the antlered host was giving an all day picnic and outing for the members of the Elks' Boy City.

It was a whistling, yelling lot of youngsters who met at the Elks' temple this morning at 9 o'clock, ready for the day's fun. There were boys of all kinds, boys with fishing poles and boys with baseball bats, barefoot boys and boys hobbling on crutches. Not even the threatening skies were enough to dampen the ardor of the crowd of youngsters bent on a day's fun.

Hoese also addressed the citizens of the juvenile municipality.

After the preliminary speeches, the boys were turned loose for the sport of the day. There was a baseball game between the Purples and the Whites, and another between the Blues and the Reds. Dinner was served at 12 o'clock.

Maurice Niezer talked to the boys at 1 o'clock, and after this short lapse of time, just long enough to allow the big dinner to digest a little, the athletic contests started. There was a sack race, fifty yard dash, shoe race, three-legged race, wheel barrow race, one legged race, baseball throwing contest, and a horse shoe throwing contest.

One of the big events of the day was scheduled for 4:30 o'clock, when William Crowl was to ascend in his balloon. The outing ended at 5 o'clock, with Maurice Niezer leading the boys in the singing of the "Star Spangled Banner."

Will Trout, for seven months local postoffice clerk, left for New York, where he has been called to take a government position for which he has been in line before he became a clerk at the local postoffice.

Mr. and Mrs. John Christen and son, Ray, Rev. and Mrs. B. E. Uhl and three children, of Columbus, O., are spending a week at Rome City.

Miss Charlotte Jones, of Toledo, O., who spent a week at the Melber's cottage, Rome City, came for a three weeks' visit with Miss Tomk Melber's.

Miss Marie Myers has returned from a ten days' visit at Niles, Mich., with her brother, Charles Myers and family. Harry Fisher and Charles Thornburg, who are with a chauffeur circuit, came home for a short visit. They

"S. P." STANDS FOR SUBMARINE PATROL—HERE'S ONE.

Once upon a time the letters "S. P." were known everywhere as standing for Southern Pacific. Not so in 1917. They stand for Submarine Patrol and your Uncle Sam is building hundreds of them to keep the Kaiser's U-boats from cutting too many capers. Here's one of them, the "65," on duty along the Atlantic coast. These new boats compare with what is known as the "standard type" as the dreadnaught compares with the battleship of a decade ago.

Interest of M. E. Andrews in the South End grocery. This was purchased from Hite a few months ago by Andrews.

Miss Anna Harding Pifer, of St. Louis, Mo., is here for a visit until Sunday with her grandparents, Mr. and Mrs. W. J. Myers.

A writer recalls an experiment once made at Amherst Agricultural college, in which a young aquaria was placed under a steel harness and in a wooden cradle in such a manner that its expansive force as it grew was exerted against a lever on which weights were carried. After about two months mechanical energy of more than two tons was registered and when the harness burst under the strain a week later a weight of two and a half tons was raised and could have been carried if the aquaria had been properly supported.

the points they held before the beginning of the great battle of Verdun last year, with the exception of hill 304, which as yet is in the enemy's hands.

Those who believe in the theory that cannon fire brings on rain always refer to the offensives of the allies in support of their contention, as they have frequently been hampered by downpours after a day or two of fighting. In the present instance, however, their arguments have failed. Although the firing on the Verdun front has never been equalled, there has been no rain since Friday.

A projectile fired by a French battery, which was silencing enemy batteries, struck a depot of asphyxiating gas. It burst, silencing three batteries.

German prisoners express every admiration of the French artillery fire. "No troops could have got through our barages," said one.

RUSSIANS LOSE GROUND.

Petrograd, Aug. 23.—The Russian forces on the northern end of the Russian front, where the Germans have begun an offensive, yesterday retired under pressure from the region of Raggadzem and Kemmer to the lake Shoyrin and Frankendort region. The official statement issued today by the Russian war department announcing this withdrawal says the German artillery conducted an intense fire in this sector.

FRENCH TAKE 7,000 GERMANS.

Paris, Aug. 23.—The number of prisoners taken by the French in their offensive operations on the Verdun front has been increased to 7,539, including 186 officers, the war office reports. The French last night captured a fortified German position north of Mortmont farm.

GERMAN LOSS ADMITTED.

Berlin, Aug. 23.—In the fighting yesterday in the region of Verdun the German general headquarters staff today reports the French gained a footing only in a German forward trench on a small front to the west of the Vacherauville-Beaumont road.

ONE BERNSTORFF QUILTS.

Paris, Aug. 23.—Among the 600 prisoners taken by the French in the hollow breaches of Dead Man's hill was a battalion commander with his staff, including Count Eugene Bernstorff, the nephew of the former German ambassador at Washington.

TAKEN WITHOUT FIGHTING.

Berlin, Aug. 23.—German forces yesterday occupied, without fighting, the Russian positions west of the river An to the Oeding-Rignan line, on the Riga front, according to the official announcement made today by the German war department.

CONFER ON RAIL RATES

(Continued From Page 1.)

have some effect on the discussions, as it was originally planned to consider the coal question from all angles, in addition to the question of freight rates.

The roads have a petition pending asking for an increase of 15 per cent on many classes of freight.

Members of the Indiana commission were prepared to explain the method worked out in this state by which railroads supplied to the mines 40 per cent of the coal cars requested.

May Take Uniform Action.

The appointment of a joint committee representing the public utilities commissions of Illinois, Ohio and Indiana to handle in the three states freight rate matters, which are so closely related as to affect shippers in the states alike, also is before the conference.

If such a committee is appointed it will be named this afternoon. The duties of the committee would be to develop uniformity of action. When discussing the railroads' requests for increased coal freight rates the question was raised whether if the increase is allowed it should be a flat rate a ton or a percentage increase.

No conclusion was reached before noon. The discussion disclosed that the condition in the three states vary to some degree on the question of a general freight rate increase asked by the railroads. The Illinois committee held a separate conference during the noon hour to discuss its attitude toward the subjects discussed. The general utility coal problems were discussed.

GLORIOUS WEATHER AND A LOVELY TIME

American Aviators of Lafayette Squadron Do Thrilling Bit.

Paris, Aug. 23.—Glorious "airplane weather" has given a tremendous impetus to the activity of aviators on the western battlefield front. The Lafayette squadron composed of Americans has been up incessantly, participating in the recent offensive at Verdun and vying with French divers in the exciting and dangerous new game of accompanying the infantry at extremely low altitudes and engaging enemy squadrons in machine gun duels.

An expedition with bombing machines led by Adj. William R. Haviland, of Indianapolis, last night was attacked unsuccessfully by a German squadron. Another squadron composed of Didier Masson, of Los Angeles, Cal.; Dudley L. Hill, of Peoria, Ill.; Robert Soubiran, of New York; Ray Clarin Bridgman, of Lake Forest, Ill.; and Douglas MacDonough, of San Francisco, yesterday executed a movement over the new French trenches to protect the infantry, the "bombs" machines flying so low that the aviators could hear the guns and the explosions of the big shells leaving the French lines.

On returning the Americans described the flight as a marvelous one, since they could plainly see each detail of the fighting but also as an uncomfortable one since they were constantly passing through the trajectory of big shells which made the air "shaky" and which could be felt continuously. Weather prospects are good for the next few days, so the members of the Lafayette squadron expect a continuation of the exciting work.

DOES NOT EXPECT EARLY PEACE

Kansas City, Mo., Aug. 23.—Pope Benedict did not expect early peace to result from his proposal to the belligerent nations that hostilities be ended, according to a statement by Monsignor Giovanni Bonzano, apostolic delegate to the United States, who is here today to attend the convention of the American Federation of Catholic Societies, which begins next Sunday. "I can say authoritatively that the holy father believed there was no prospect of the warring nations arranging terms soon," said Bonzano. "But he believed that he could impartially offer a proposal that might bring the leaders of the warring nations to a normal sense of thought and to try to arrange terms."

WANT SEA FREEDOM DEFINED.

Rome, Wednesday, Aug. 22.—The British and Belgian ministers accredited to the Vatican were received separately by Pope Benedict today and inquired as to the meaning of the reference to the freedom of the seas in the pope's peace proposal. The pontiff replied he intended to give to this condition the same meaning as that of President Wilson in his message, while leaving ample liberty to the belligerents to agree in future discussion as to details. Germany today acknowledged receipt of the peace note, promising to examine it with benevolent interest and care and to give an answer after reaching an agreement with her allies.

HOSPITALS SET ABLAZE

Germans who had been brought direct from the battlefield and had gone to bed, when the bombs were dropped from a height of only 300 yards.

The Red Cross signs were painted prominently on the roofs and the Germans knew of the hospital which had been in existence for more than a year. The correspondent after inspecting the hospital, visited a camp at which German prisoners are assembled. It contained considerably more than 8,000 officers and men.

The correspondent was permitted to interrogate a large number of the prisoners, many of whom are eighteen or nineteen years of age. They all declared themselves contented at being out of the war. On the way other smaller camps, containing hundreds of prisoners, were passed.

MANY ENTRIES FOR MEET.

Boston, Aug. 23.—Ten of the twelve New England athletes who won titles in sectional championship meets of the Amateur Athletic union last year, have sent in their entries for the New England championship meet to be held on Technology field, Cambridge, on Saturday. More than 100 entries have been received.

A PATRIOTIC SERVICE.

Woburn, Mass., Aug. 23.—The school committee of this city has postponed the opening of the public schools from the first week in September to October 1 in order that farmers may have the services of school boys during the harvest season. The owners of many farms on the outskirts of the city had petitioned for such action.

gle of the cabinet backed by the socialist left, against the bourgeoisie consisting of Constitutional democrats, discontented Moscow business men under their president, M. Ribbushinsky, and dismissed generals, who all agreed in severely criticizing the present course and policy demanding radical changes.

Pretail a Conflict.

This view is taken by the Petrograd and Moscow press, which declare that if no agreement is reached between the contending groups of ten conflict must follow. Steps already have been taken toward vigorous and aggressive action by the malcontents.

Conferences were held under the chairmanship of M. Rodzianko at which the differences between the government and the bourgeoisie were sharply emphasized, the only exception being made for Premier Kerensky, whom some of the speakers proclaim capable of saving the country on the condition that he liberate himself from socialist and council of deputies control.

Would Move Capital.

Prince Troubetskoi in a sharp speech, attacked the government, declaring the sacred revolution had failed under the "carnal claws" of men who think only of plundering the national riches and of their own interests. The government, the speaker complained, is entirely in the hands of Petrograd. That is the chief evil, Petrograd being the center of rottenness. Therefore, he said, it was imperative

An expedition with bombing machines led by Adj. William R. Haviland, of Indianapolis, last night was attacked unsuccessfully by a German squadron. Another squadron composed of Didier Masson, of Los Angeles, Cal.; Dudley L. Hill, of Peoria, Ill.; Robert Soubiran, of New York; Ray Clarin Bridgman, of Lake Forest, Ill.; and Douglas MacDonough, of San Francisco, yesterday executed a movement over the new French trenches to protect the infantry, the "bombs" machines flying so low that the aviators could hear the guns and the explosions of the big shells leaving the French lines.

On returning the Americans described the flight as a marvelous one, since they could plainly see each detail of the fighting but also as an uncomfortable one since they were constantly passing through the trajectory of big shells which made the air "shaky" and which could be felt continuously. Weather prospects are good for the next few days, so the members of the Lafayette squadron expect a continuation of the exciting work.

DOES NOT EXPECT EARLY PEACE

Kansas City, Mo., Aug. 23.—Pope Benedict did not expect early peace to result from his proposal to the belligerent nations that hostilities be ended, according to a statement by Monsignor Giovanni Bonzano, apostolic delegate to the United States, who is here today to attend the convention of the American Federation of Catholic Societies, which begins next Sunday. "I can say authoritatively that the holy father believed there was no prospect of the warring nations arranging terms soon," said Bonzano. "But he believed that he could impartially offer a proposal that might bring the leaders of the warring nations to a normal sense of thought and to try to arrange terms."

WANT SEA FREEDOM DEFINED.

Rome, Wednesday, Aug. 22.—The British and Belgian ministers accredited to the Vatican were received separately by Pope Benedict today and inquired as to the meaning of the reference to the freedom of the seas in the pope's peace proposal. The pontiff replied he intended to give to this condition the same meaning as that of President Wilson in his message, while leaving ample liberty to the belligerents to agree in future discussion as to details. Germany today acknowledged receipt of the peace note, promising to examine it with benevolent interest and care and to give an answer after reaching an agreement with her allies.

The Red Cross signs were painted prominently on the roofs and the Germans knew of the hospital which had been in existence for more than a year. The correspondent after inspecting the hospital, visited a camp at which German prisoners are assembled. It contained considerably more than 8,000 officers and men.

The correspondent was permitted to interrogate a large number of the prisoners, many of whom are eighteen or nineteen years of age. They all declared themselves contented at being out of the war. On the way other smaller camps, containing hundreds of prisoners, were passed.

MANY ENTRIES FOR MEET.

Boston, Aug. 23.—Ten of the twelve New England athletes who won titles in sectional championship meets of the Amateur Athletic union last year, have sent in their entries for the New England championship meet to be held on Technology field, Cambridge, on Saturday. More than 100 entries have been received.

American Aviators of Lafayette Squadron Do Thrilling Bit.

Paris, Aug. 23.—Glorious "airplane weather" has given a tremendous impetus to the activity of aviators on the western battlefield front. The Lafayette squadron composed of Americans has been up incessantly, participating in the recent offensive at Verdun and vying with French divers in the exciting and dangerous new game of accompanying the infantry at extremely low altitudes and engaging enemy squadrons in machine gun duels.

MANY TO BOOST SUBURBAN DAY

Series of Weekly Trade Events Soon to Be Inaugurated in Ft. Wayne.

ASK ALL TO BUY FROM HOME MERCHANT

Many Interests Unite to Make Ft. Wayne Popular Place of Trade and Entertainment.

"We want to make it perfectly plain to all," said a leader in the big Suburban Day movement, "that we believe first of all in everyone patronizing the home merchant, wherever they may live. When our series of Suburban days opens, the people of the near-by smaller cities and of the farming districts will receive a cordial invitation to come to Fort Wayne at all times, but especially on one day a week—Wednesday. On that special day the visitor will be given many opportunities to make advantageous purchases. On that day, also, the visitor will have an opportunity to find high-class entertainment at the theaters and to make use of Fort Wayne's parks and pleasure resorts. But the Fort Wayne merchant asks no favors. He believes in the support of the home merchant everywhere. He wants everyone to buy at home to the full extent of the home merchant to meet the requirements of quality, service and price. It is only when the home merchant is not able to provide the same service, quality and price that the Fort Wayne dealer asks the opportunity to meet the need. The campaign has for one of its great objects the exposure of the folly of dealing with mail order houses and others where no common interest exists between the buyer and the seller."

The Fort Wayne Suburban Day Trade association will be formed probably directly after the 1st of September. Already the following individuals and concerns have joined in the movement:

EACH DEFENDANT GREETED BY FINE Five Prisoners Pay \$74 Into the City Court Coffers.

To make up for the brevity of the docket in police court Thursday morning Judge W. H. Kerr assessed a fine against each man who answered to the voice of the prosecutor. The five prisoners were ordered to pay the total of \$74 for their misdoings.

Fred Schumm, 24, had driven to the left of the street on at the corner of Putnam and Wells streets on Wednesday morning. He had dodged the "keep to the right" order so that he would not strike a team of horses, he testified. But Schumm had almost struck a woman pedestrian when he disobeyed the lettered signal and the woman had complained to the police. Schumm paid \$5 and costs for the error.

Enoch Parks, colored, made the mistake of boarding a Pennsylvania train when in an intoxicated state. He annoyed passengers, it was explained. His fine was \$15 and costs.

John McDonald and James Graham were slated as "plain drunks" although it was told that John tried to make a political speech on Calhoun street before officers found him Wednesday afternoon. Both men heard the judge say "fine of \$1 and costs."

Charles Arkhill pleaded guilty to a disorderly conduct charge. He had waxed boisterous after croaking his elbow several times Wednesday evening. He will arrange to pay \$11.

AUBURN NEWS.

Auburn, Ind., Aug. 23.—Mrs. Olive Beckwith, of Wilmington township, is the latest applicant for a divorce in the DeKalb county circuit court. She charges her husband with cruel and inhuman treatment and failure to provide. They were married in 1915 and separated in 1917. They have one child, a daughter, one year old.

Lee Chapman, of Spencer, drew a sentence of one to fourteen years at the state prison at Michigan City for the theft of hides at a slaughter house in Spencer. Chapman was arraigned in court Wednesday and pleaded guilty to the charge. He is but 34 years old, but has had a very checkered career. He has a wife and one child.

Raymond Nolrot, son of Mr. and Mrs. George Nolrot, of South Van Buren street, was taken very ill Tuesday, and Wednesday morning was taken to the Sacred Heart hospital at Garrett in the Clark ambulance, where he submitted to an operation for appendicitis.

Auburn music lovers will be given a treat tonight when at the regular weekly band concert the Auburn band and the Veronee Dramatic company's band will unite in the rendition of the evening's program. The band of this company is an excellent one and the program for tonight will undoubtedly be an excellent one.

In the examination of the drafted men yesterday sixteen more were discharged. Nearly all of them were married men. Rev. Fred M. Newlin, of this city, claimed exemption owing to his occupation and it was granted.

After the first day of September there will be but five rural routes out of this city instead of the six that have been used heretofore. The change was made by the postoffice department, and a distance of five miles has been added to each of the routes of the five carriers, which will do away entirely with the sixth. Joseph Davidson was the carrier for the abandoned route and consequently loses his position.

TRYING TO PLACATE THE HUNGARIANS

New Premier is a Bid of the Throne for Electoral Reforms.

Copenhagen, Aug. 23.—The recent appointment of Dr. Alexander Wexlerle as Hungarian premier makes another effort by the king to secure from a hostile parliament reform of the franchise on a universal suffrage basis.

The appointment of Dr. Wexlerle is in the character of a compromise and he is a premier without a party behind him, selected, it is declared, in the hope of inducing Count Tisza, former premier, to consent to a liberal franchise bill and avoiding the dissolution of parliament and new elections during the war.

The key to the Hungarian situation is found in the fact that the dismissed premier Tisza, despite the disaffection of his organization, who under the peculiar conditions of Hungarian political life, usually go where the patronage is good, still controls an absolute majority in the house and no reform is possible in the present diet without his consent.

Count Moritz Esterhazy, whom Dr. Wexlerle succeeded, was selected as premier on account of his personal friendly relations with Count Tisza, and it was hoped that he might be able, through the threat of a new election and by compensation in other directions, to persuade Tisza to accept an

adequate reform bill with the alternative of splitting the Tisza party enough to make a majority.

Count Tisza was willing to accept a half-way measure, but refused to consider universal suffrage or even to grant the franchise to all war veterans. His utmost concession was the enfranchisement of holders of medals of valor.

ANDREWS NEWS.

Andrews, Ind., Aug. 23.—Miss Ora Flinn, of Peru, visited her aunt, Mrs. Mary Liggett here Monday.

Ernest Kelsey, of Wabash, visited his sister, Mrs. Elmer Willis, Sunday.

Mrs. Emma Fahl, of Wabash, was the guest of Mrs. T. A. Weekley, Monday.

Misses Ida and Hazel Ellison spent last week visiting relatives in Toledo.

C. E. Hettner and F. L. Gurtner made a business trip to Wabash, Tuesday afternoon.

Mrs. R. H. Slitz and daughter, of Terre Haute, are visiting at the J. H. Kaufman home.

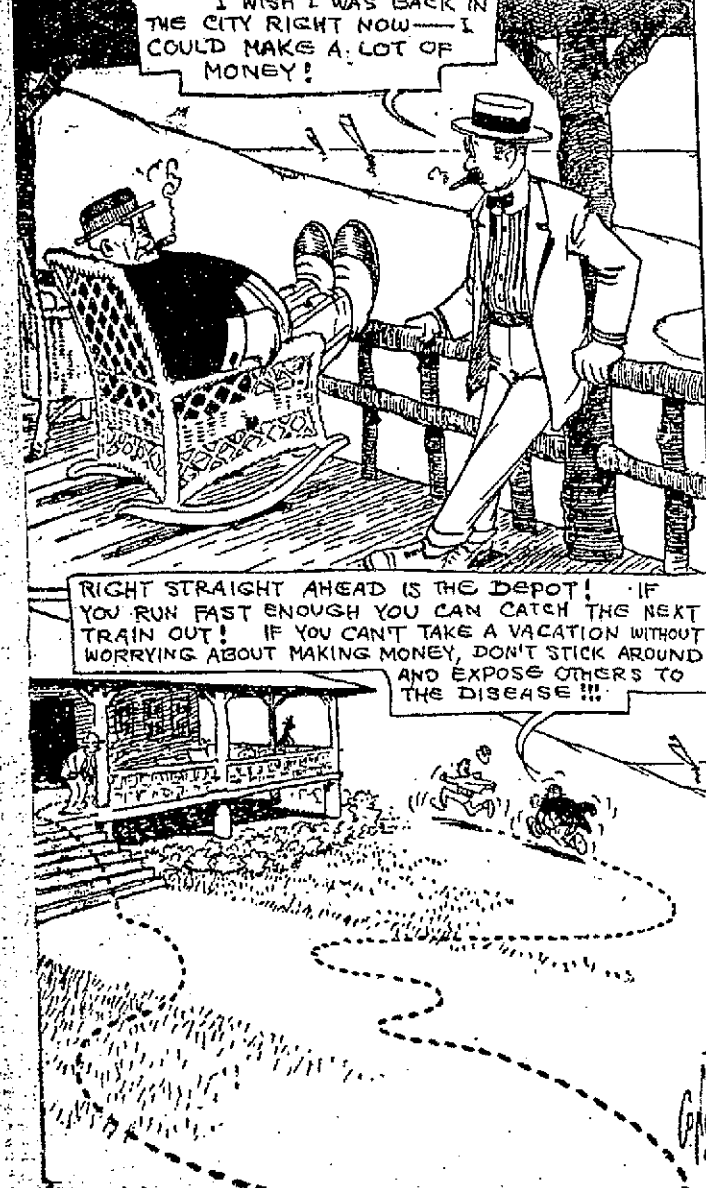

Mrs. D. E. Purviance and her mother, Mrs. Samuel Leedy, of Lago, were guests of friends here Tuesday.

The next county convention of Christian churches will be held in Andrews, probably the first Sunday in September.

The Boy Scout band furnished music for a family reunion at the fair grounds at Huntington last Sunday afternoon. They also played Company C with several selections.
